Consolidated Financial Statements, Schedule of Financial Responsibility Ratios, and Schedule of Expenditures of Federal Awards

Report of Independent Auditors

To the Board of Trustees of Worcester Polytechnic Institute

Report on the Audit of the Consolidated Financial Statements *Opinion*

We have audited the accompanying consolidated financial statements of Worcester Polytechnic Institute and its subsidiaries (the "University"), which comprise the consolidated statements of financial position as of June 20, 2022 and 2021, and the related consolidated statements of activities, and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the University as of June 30, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the consolidated financial
 statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise
 substantial doubt about the University's ability to continue as a going concern for a reasonable period of
 time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2022 and schedule of financial responsibility ratios are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the Department of Education, respectively, and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of financial responsibility ratios are fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2022, except with respect to Note 20 to the consolidated financial statements and the opinion on the supplemental schedule of financial responsibility ratios, as to which the date is March 7, 2023, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2022. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Tricewaterhouse Coopers LLP

Boston, Massachusetts

November 16, 2022, except with respect to Note 20 to the financial statements and the opinion on the schedule of financial responsibility ratios, as to which the date is March 7, 2023

1. Organization

Worcester Polytechnic Institute (the "University"), founded in 1865, is the nation's third oldest private technological university. Over 7,000 undergraduate and graduate students attend the University annually. The University is located in Worcester, Massachusetts and serves a diverse student body from almost every state and over 85 foreign countries.

2. Summary of Significant Accounting Policies

Basis of Financial Statement Presentation

The accompanying consolidated financial statements are prepared on the accrual basis of accounting with net assets and revenues, expenses, gains and losses classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the University and changes therein are classified and reported as follows:

Net Assets With Donor Restrictions

Net assets subject to donor-imposed stipulations include assets to be maintained permanently by the University. Generally, the donors of these assets permit the University to use all, or part of the income earned on related investments for general or specific purposes. Also included are net assets whose use is restricted by state law or subject to donor-imposed stipulations that can be fulfilled by actions of the University pursuant to these stipulations or that expire by the passage of time.

Net Assets Without Donor Restrictions

Net assets not subject to explicit donor-imposed stipulations. Net assets without donor restrictions may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties.

Consolidation

The accompanying consolidated financial statements include the accounts of the University and its wholly owned or controlled subsidiaries described below. Intercompany accounts and transactions have been eliminated.

Washburn Park, Inc. ("Washburn")

Washburn is a not-for-profit corporation that owns and operates a parking garage and a life sciences and bioengineering facility located in the Gateway Park area of Worcester. Washburn also owns land used for the construction of Faraday Hall; a residence hall completed in August 2014.

Gateway Park, LLC ("Gateway")

Gateway owns land located in the Gateway Park area of Worcester.

Lancaster Island, LLC ("Lancaster")

Lancaster owns land located in the Gateway Park area of Worcester and is the lessee of a parcel of land being used for student parking.

ASSISTments Foundation, Inc. ("TAF")

TAF is a not-for-profit corporation that is a Type 1 Supporting Organization to the University that supports the ASSISTments program at the University.

Classifications

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions or by law. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (that is, the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions between the applicable classes of net assets.

Operating and Nonoperating Activities

In the consolidated statements of activities, the University has defined its primary activities between operating and nonoperating. Operating activities consist primarily of activities supporting the educational mission and purpose of the University. Nonoperating activities consist primarily of unspent appreciation on endowment, gains or losses on beneficial interest in trusts, change in value of split-interest agreements, net contributions for endowment and capital use, and gains or losses on interest rate agreements.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The University's significant estimates include the valuation of its investments, the estimated net realizable value of receivables for contributions, gifts, pledges, student loans, student accounts and other receivables, the estimated useful lives of buildings and equipment, and its liabilities for its asset retirement obligations, self-insured medical claims, and split-interest agreements. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purposes of reporting cash flows, the University considers all short-term highly liquid investments to be cash equivalents. Cash equivalents consist of time deposits and short-term investments with maturities at the date of purchase of ninety days or less, stated at cost, which approximates fair value. Certain balances meeting the definition of cash and cash equivalents are classified as designated cash and investments as a result of the University's intent to segregate funds from cash available for current operations.

The University's banking activity, including cash and cash equivalents not classified as investments, is maintained with one regional bank and exceeds federal insurance limits. It is the University's policy to monitor the bank's financial strength on an ongoing basis.

Contributions

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Contributions subject to donor-imposed stipulations that are met in the same reporting period are reported as unrestricted support. Promises to give that are scheduled to be received after the fiscal year-end are shown as increases in net assets with donor restrictions and are reclassified to net assets without donor restrictions when the purpose or time restrictions are met. Promises to give subject to donor-imposed stipulations that the corpus be maintained permanently are recognized as increases in net assets with donor restrictions. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value at the date of the gift. Contributions that are expected to be collected after one year are recorded at the present value of estimated future cash flows. The discount rates used range from approximately 0.4% to 2.6%. Amortization of the discount is recorded as additional contribution revenue in the applicable net asset class.

The carrying amount of contributions receivable approximates fair value as such amounts are recorded net of an allowance for uncollectible accounts and a discount to their present value. The allowance for uncollectible contributions receivable is based upon management's judgment including such factors as prior collection history, type of contribution, and nature of fundraising activity.

The University reports contributions of land, buildings, or equipment as without donor restrictions support unless the donor places restrictions on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as without donor restrictions support provided the long-lived assets are placed in service in the same reporting period, otherwise, the contributions are reported as net assets with donor restrictions support until the assets are acquired and placed in service and then, such amounts are reclassified to net assets without donor restrictions.

Deferred Financing Costs

Included in bonds and notes payables are deferred financing costs that are being amortized over the life of the related bonds.

For the years ended June 30, 2022 and 2021, deferred financing costs, net totaled approximately \$2,816,000 and \$3,020,000 respectively. Amortization expense for the years ended June 30, 2022 and 2021 was approximately \$205,000 and \$107,000, respectively. The estimated amortization expense for deferred financing costs for the next five years is approximately \$108,000 annually.

Beneficial Interest in Trusts

The University is the beneficiary of certain perpetual trusts and charitable remainder trusts held and administered by third-party trustees. Under the terms of these agreements, the University has the irrevocable right to its share of the income earned on the trust assets. The use of the income may be restricted by the donor. The estimated fair value of trust assets are recognized as assets and contribution revenue when reported to the University.

Investments

Investments are reported at fair value. Fair value is a market-based measurement based on assumptions used to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As a basis for considering assumptions, the University prioritizes inputs using three levels, based on the markets in which the investments trade and the reliability of the assumptions used to determine fair value.

- Level 1 Valuation is based on quoted prices for identical investments in active markets. Market price data is generally obtained from relevant exchange or dealer markets.
- Level 2 Valuation is based on observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially similar assets or liabilities.
- Level 3 Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include investments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Fair values for certain investments held are based on net asset value (NAV) of such investments as determined by the respective external investment managers, including general partners, if market values are not readily ascertainable. These valuations are based on estimates involving assumptions and valuation techniques used by the respective investment managers.

Fair value is best determined based on quoted market prices. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the investment.

Investments are comprised of the assets of the University's endowment and similar funds, and split-interest agreements. Endowment funds are subject to the restrictions of gift instruments requiring that the principal be invested in perpetuity and that only income be utilized. Funds functioning as endowment, also known as quasi-endowment funds, have been established by the Board of Trustees for the same purposes as endowment funds. However, any portion of the funds functioning as endowment may be expended with the approval of the Board of Trustees.

Assets of the endowment and similar funds are pooled on a fair value basis with each individual fund subscribing to or disposing of units on the basis of the fair value per unit at the beginning of the quarterly period within which the transactions take place. Endowment income is distributed based on the number of units subscribed to at the end of each month. In addition, the University maintains separately invested funds as stipulated by donors.

Gains or losses on investments are reported in the consolidated statements of activities as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations or by law. Investment income is recorded in net assets without donor restrictions unless its use is restricted by explicit donor stipulations.

Land, Buildings and Equipment

Land, buildings and equipment are recorded at cost at the date of acquisition or, if received as a gift, at the estimated fair value at the date of the gift. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recorded. Expenditures for repairs and maintenance are charged to expense as incurred.

Finance leases are recorded at their present value at the inception of the lease. Leases for property and equipment are amortized on the straight-line basis over the shorter period of the lease term or the estimated useful life of the equipment. Amortization expense related to leases is included in depreciation in the consolidated statement of activities.

Depreciation expense is computed on a straight-line basis over the estimated useful lives. Estimated useful lives are periodically reviewed and, when appropriate, changes are made prospectively. When certain events or changes in operating conditions occur, asset lives may be adjusted and an impairment assessment may be performed on the recoverability of the carrying amounts.

Useful lives are as follows:

Land improvements	10 to 20 Years
Buildings and improvements	10 to 40 Years
Equipment	3 to 10 Years

Deposits and Deferred Revenue

Deposits and deferred revenue represent revenues received in advance of services to be rendered and are primarily composed of revenue for student tuition and educational fees received in advance and advance payments on sponsored research programs.

Split-Interest Agreements

The University's split-interest agreements with donors are included in investments and consist of charitable gift annuities, charitable lead trusts, charitable remainder trusts, and pooled income arrangements. Assets are invested by the University or third-party trustees and payments are made to beneficiaries inaccordance with the respective agreements. At the end of each agreement's term, amounts are distributed to the University or other beneficiaries. Annual distributions to beneficiaries may be for a specified dollar amount or a percentage of the trust's fair value. Upon receipt, gifts requiring the University or trustee to pay donors a specified periodic amount are recorded at fair value with corresponding estimated liabilities for future amounts payable to other beneficiaries, where applicable. The liabilities associated with these gifts are adjusted during the term of these gift instruments. The University is aware of certain split-interest arrangements in which it has been named as beneficiary and has adopted a policy that until such amounts are estimable and probable, such amounts are not recognized in the financial statements. The present value of payments to beneficiaries under split-interest arrangements is calculated using discount rates in effect at the date of the gift; these rates range from approximately 0.4% to 11.2%.

Asset Retirement Obligations

An asset retirement obligation ("ARO") is a legal obligation associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, the University records period-to-period changes in the ARO liability resulting from the passage of time or revisions to either the timing or the amount of the original estimate of undiscounted cash flows. The University derecognizes ARO liabilities when the related obligations are settled.

Tax-Exempt Status

The University is a tax-exempt organization as described in Section 501 (c)(3) of the Internal Revenue Code (the "Code") and is generally exempt from income taxes pursuant to Section 501 (a) of the Code.

Sponsored Research

The University receives sponsored program funding from various governmental and corporate sources. The funding may represent a reciprocal transaction in exchange for an equivalent benefit in return, or it may be a nonreciprocal transaction in which the resources provided are for the benefit of the University, the funding organization's mission, or the public at large.

Revenues from exchange transactions are recognized as performance obligations are satisfied, which in in most cases are as related costs are incurred.

Revenues from nonexchange transactions (contributions) may be subject to conditions, in the form of both a barrier to entitlement and a refund of amounts paid. Revenues from conditional nonexchange transactions are recognized when the barrier is satisfied.

In 2022 and 2021, sponsored programs revenue earned from governmental sources total \$34,497,000 and \$32,584,000, respectively. Indirect costs recovered on federally sponsored programs are based on predetermined reimbursement rates, which are stated as a percentage and distributed based on the modified total direct costs incurred. The University negotiates its federal indirect rate with its cognizant federal agency. Indirect costs recovered on all other grants and contracts are based on rates negotiated with the respective sponsors. Funds received for sponsored research activity are subject to audit. Based upon information currently available, management believes that any liability resulting from such audits will not materially affect the financial position or operations of the University.

Tuition and Fee Revenue

The University recognizes revenue from student tuition and fees within the fiscal year in which educational services are provided. Institutional aid, in the form of scholarships and grants-in-aid, includes amounts funded by the endowment, research funds, and gifts, and reduces the published price of tuition for students receiving such aid. As such, institutional aid is referred to as a tuition discount and represents the difference between the stated charge for tuition and fees and the amount that is billed to the student and/or third parties making payments on behalf of the student. Financial aid provided to students was \$122,801,000 in 2022 and \$102,774,000 in 2021.

The University offers a summer term that spans two reporting periods. Payments of tuition and housing for summer term are recognized as performance obligations are met. Because the academic term spans two reporting periods, a portion of the payments are included in deferred revenue at June 30, 2022 and 2021.

Auxiliary Services Revenue

Auxiliary services exist to furnish goods or services to students, faculty, staff, or incidentally to the general public, and charges a fee directly related to, although not necessarily equal to, the cost of the goods or services.

Auxiliary services revenue includes revenues from contracts with customers to provide student housing and dining facilities.

Payments for these services are due approximately one week prior to the start of the academic term for undergraduate students and on the first of each month for graduate students. Dining plans are not offered during the summer terms. Performance obligations for housing and dining services are delivered over the academic terms. Consequently, revenue from housing and dining services is recognized ratably as services are tendered.

3. Accounts Receivable

Accounts receivable consist of the following at June 30, 2022 and 2021 (in thousands):

	2022	2021
Sponsored research	\$ 6,381	\$ 8,789
Student receivables	2,960	2,402
Other receivables	 9,119	5,745
	18,460	16,936
Less: Allowance for doubtful accounts	 (1,228)	(1,244)
	\$ 17,232	\$ 15,692

4. Contributions Receivable

Unconditional promises are expected to be received in the following periods at June 30, 2022 and 2021 (in thousands):

		2021		
In one year or less Between one and five years	\$	7,530 22,616 30,146	\$ 	6,770 19,926 26,696
Less: Discount to present value Allowance for doubtful contributions	\$	(1,374) (2,339) 26,433	\$	(1,150) (1,156) 24,390

As of June 30, 2022 and 2021, the University has approximately \$113,434,000 and \$107,300,000, respectively, of conditional promises to give that are not recognized as assets in the accompanying consolidated statements of financial position.

5. Student Loans Receivable

The University makes uncollateralized loans to students based on financial need. Student loans are funded through Federal government loan programs or institutional resources. At June 30, 2022 and 2021, student loans represented 1.3% and 1.2% of total assets, respectively.

Student loans receivable consist of the following at June 30, 2022 and 2021 (in thousands):

	2022					2021						
	Federal		Institutional		Total		Federal		Institutional		l Total	
Student loans receivable	\$	3,360	\$	13,071	\$	16,431	\$	4,712	\$	11,226	\$	15,938
Less: Allowance for doubtful accounts												
Beginning of year		(150)		(313)		(463)		(150)		(277)		(427)
Decrease(increases)				(46)		(46)		-		(36)		(36)
Write-offs		150		-		150						
End of year				(359)		(359)		(150)		(313)		(463)
Student loans receivable, net	\$	3,360	\$	12,712	\$	16,072	\$	4,562	\$	10,913	\$	15,475

Historically the University participated in the Federal Perkins Loan Program federal revolving loan program. Congress did not renew the program after September 30, 2017 and no disbursements were permitted after June 30, 2018. The University has elected to continue to collect on the loans and return the federal portion collected on an annual basis. Funds advanced by the Federal government and their share of student loan activity of \$3,601,000 and \$5,080,000 at June 30, 2022 and 2021 and are classified as liabilities in the consolidated statements of financial position.

The following amounts were past due under student loan programs at June 30, 2022 and 2021 (in thousands):

	1-60	days	60-90) days	90+	days	Total Past Due		
June 30 2022 June 30 2021	\$	5 9	\$	7 5	\$	847 850	\$	859 864	

Allowances for doubtful accounts are established based on prior collection experience and current economic factors which, in management's judgment, could influence the ability of loan recipients to repay the amounts per the loan terms. Institutional loan balances are written off only when they are deemed to be permanently uncollectible.

6. Beneficial Interest in Trusts

Beneficial interest in trusts are carried at fair value using discounted present value and othersimilar methodologies. The following table summarizes the changes in these trusts during the years ended June 30, 2022 and 2021 (in thousands):

	2022	2021
Fair value, beginning of year	\$ 19,697	\$ 14,869
Net realized (losses) and gains Contributions	(2,391)	4,828 -
Distributions, net	 (460)	
Fair value, end of year	\$ 16,846	\$ 19,697

7. Investments

Investments at June 30, 2022 are as follows (comparative totals are included for 2021) (in thousands):

				2022				
	Endowment and Similar Funds		•	it-Interest reements	Total	2021 Total		
Cash and cash equivalents	\$	9,181	\$	528	\$ 9,709	\$ 21,311		
Equity securities		32,443		7,106	39,549	53,014		
Fixed income securities		53,825		6,725	60,550	4,314		
Alternative investments								
Equity funds		301,709			301,709	320,257		
Fixed income funds		71,136			71,136	111,181

Fair values of equity, fixed income and commodity securities are generally based on published market values. The University invests in hedge funds, private equity, and real estate investments through various limited partnerships and similar vehicles. Hedge funds utilize a variety of investment strategies incorporating marketable securities and, in some cases, derivative instruments, all of which are reported at estimated fair value by the fund managers. Private equity funds consist of long-term private investments and have been valued based on estimates provided by the general partners of the investment vehicles. Investments in limited partnerships and limited liability companies (generally referred to as "limited partnerships") for which readily ascertainable market values are not available are reported at estimated fair value as determined by Management or at the investment net asset value ("NAV") as a practical expedient. Investments in limited partnerships are generally valued based upon the most recent NAV or capital account information available from the general partner of the investment limited partnership, taking into consideration, where applicable, other information determined to be a reliable indicator of fair value. These factors include rights and obligations, restrictions or illiquidity on such interest, potential claw backs, and the fair value of the limited partnership's investment portfolio or other assets and liabilities. The values assigned to investments in limited partnership are based upon available information and do not necessarily represent amounts which might ultimately be realized. Because of the inherent uncertainty of valuation,

those estimated fair values may differ significantly from the values that would have been realized had a ready market for the investments existed and those differences could be material.

Real estate consists mainly of direct real estate holdings and investments in privately held entities. The fair values of the real estate investments in privately held entities have been valued based on the NAV provided by the fund managers of these investment vehicles. The fair values of direct real estate holdings have been prepared giving consideration to periodic independent external appraisals, as well as the income, cost and sales comparison approaches of estimating property value. The income approach estimates an income stream for a property (typically 10 years) and discounts this income plus a reversion (presumed sale) into a present value at a risk adjusted rate. A second technique is the direct capitalization analysis. Direct capitalization involves capitalizing a property's first year, or stabilized net operating income into a value estimate. Yield rates and growth assumptions utilized in both approaches are derived from market transactions as well as other financial and industry data. The cost approach estimates the replacement cost of the building less physical depreciation plus the land value. Generally, this approach provides a check on the value derived using the income approach. The sales comparison approach compares recent transactions to the appraised property. Adjustments are made for dissimilarities which typically provide a range of value. The income capitalization and sales comparison approach were used to value the direct real estate investments. The capitalization rates, sales price per acre of comparable properties, and the comparability adjustments are considered to be significant unobservable inputs to these valuations. These rates and adjustments vary and are based on the location, type and nature of each property, and current and anticipated market conditions. Appraisals for any direct real estate holding were prepared by independent external appraisers. Management believes the appraisals approximate fair value for real estate holdings at June 30, 2022 and 2021.

The following table summarizes the valuation methods and quantitative information about the significant unobservable inputs used in the fair value measurement of Level 3 direct real estate holdings at June 30, 2022 and 2021 not valued at NAV (in thousands):

Real Estate Investment	2022	2021	Valuation Technique	Unobservable Input	Range
Commercial real estate, Florida	\$ _	\$ 3,813	Income capitalization	Capitalization Rate	8.0% - 14.0%
Leased land, Worcester, MA	5,250	5,250	Income capitalization	Capitalization Rate	3.96% - 6.1%
Parking garage, Worcester, MA	3,475	3,475	Income capitalization	Capitalization Rate	8.25%
Undeveloped land, Worcester, MA	1,740	1,740	Sales comparison	Price per acre	\$0.7M - \$1.4M
				Comparability adjustments	-20% - 30%
Undeveloped land, Worcester, MA	1,600	1,600	Sales comparison	Price per acre	\$0.7M - \$1.4M
				Comparability adjustments	-5% - + 45%
Residential real estate, US	382	382	Sales comparison	Price per square foot	\$365K - \$405K
	\$ 12.447	\$ 16.260			

Alternative investments consist of noncontrolling, limited marketability stock holdings and investments in limited partnerships. The fair values of investments in limited partnerships have been valued based on the NAV provided by the fund managers of these investment vehicles and reviewed by management. The following tables summarize key provisions for the University's alternative investments valued at NAV as of June 30, 2022 and 2021 (in thousands):

			202	2		
Asset Class	Strategy	Fair Value	Remaining Life	Unfunded Commitments	Redemption Terms	Redemption Restrictions
Absolute Return - Market Neutral	Global equity and fixed income funds in market neutral categories	\$ 65,640	Up to 23 Years		Redemption terms range from quarterly with 60 to 90 days notice to annually with 45 to 90 days notice.	Lock -up provisions range from none to redemptions limited to 1/3 of the value annually.
Private Equity	Venture capital and buyout in the US and global markets	97,383	Up to 9 Years	46,745	Private equity structure with no ability to redeem.	Not redeemable
Directional Hedge	Global long/short equity funds	101,637	Up to 29 Years		Redemption terms range from quarterly with 60 days notice to every five years with 90 days notice.	No lock-up provisions
Public Equity	Primarily in long only equity, tracks performance or relevant index	175,943	No limit		Redemption terms range from 10 business days in advance of valuation date to monthly redemptions with 7 days notice.	Ranges from no additional restrictions to partial redemptions allowed but may require full redemption if capital is below \$1M.
Fixed Income	Primarily in domestic bonds, tracks performance	29,625	No limit		Daily redemption with a notice period ranging from 0 to 2 business days

		\$	556,094		\$ 61,588	•	

The following table summarizes the changes in the Level 3 investments carried at fair value during the years ended June 30, 2022 and 2021 (in thousands):

	Private Equity Funds	Re	eal Estate		Total
Fair value, June 30, 2020	\$ 1,087	\$	16,260	\$	17,347
Transfers out Net realized and unrealized gains Purchases Sales and settlements	 - - -		- -	_	- - -
Fair value, June 30, 2021	1,087		16,260		17,347
Transfers out Net realized and unrealized gains Purchases Sales and settlements	 - - -		(2,150) (1,663) - -		(2,150) (1,663) -
Fair value, June 30, 2022	\$ 1,087	\$	12,447	\$	13,534

In the consolidated statements of activities for the years ended June 30, 2022 and 2021, net realized and unrealized gains and losses on Level 3 investments are included in nonoperating net realized and unrealized gains and losses on investments.

Endowment Income and Spending

In addition to current yield (interest, dividends, and net rental income), the University has interpreted state law to allow for the utilization of capital appreciation on donor restricted endowment funds unless explicit donor stipulations specify how net appreciation must be used. Accordingly, the University segregates capital appreciation between that which can be used for current operations and that which is attributable to donor restricted endowment funds. For financial reporting purposes, current yield and capital appreciation attributed to donor restricted endowment funds are considered restricted until appropriated for use, and the historic dollar value of such funds is considered restricted in perpetuity.

The University has adopted the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") statute. UPMIFA provides guidance for investment management; enumerates guidelines in prudent investing; and eliminates the concept of "historic dollar value" for donor- restricted endowments. Accordingly, the University has not limited appropriation of underwater funds to current yield.

The University has adopted investment and spending policies for its endowment and similar funds that attempt to provide a predictable stream of funding for its programs. To satisfy its long-term rate-of-return objectives, the University relies on a total return approach in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield. To achieve its long-term objectives within prudent risk parameters, the University targets a diversified asset allocation as follows:

Asset Allocation Policy	Target %
Global equity	50
Private equity/Venture capital	20
Private credit	5
Flexible capital	10
Fixed income	2.5
Real assets	12.5

The University observes a spending rule with respect to total return (interest, dividends, and appreciation) on investments of the endowment and similar funds. Under the spending rule, the University appropriated 4.7% of its endowment and similar funds' average unit fair value for the previous twelve quarters, from the beginning of the fiscal year, for the years ended June 30, 2022 and 2021, respectively.

The spending rule distributions for fiscal years 2022 and 2021, respectively, were \$0.293 and \$0.292 per time weighted unit, comprised of, respectively, \$0.050 and \$0.031 of income and \$0.243 and \$0.261 of distributions from current and accumulated net gains. At June 30, 2022 there were a total of 86,501,700 units in the pooled endowment and similar funds, each having a fair value of \$6.813 of the total units, were owned by endowment funds 50,931,597 and 35,570,108 were owned by internally designated funds. At June 30, 2021 there were a total of 84,778,846, units in the pooled endowment and similar funds, each having a fair value of \$7.441 of the total units, were owned by endowment funds 49,563,439 and 35,215,407 were owned by internally designated funds.

A summary of the fair value per unit and the income per time-weighted unit for the pooled investments held as of June 30, 2022 and in each of the prior four years is as follows:

	Income Per Time- Weighted Fair Val Unit Per Un					
2022	\$	0.050	\$	6.813		
2021		0.031		7.441		
2020		0.039		6.003		
2019		0.059		6.359		
2018		0.061		6.338		
2017		0.056		6.202		

To the extent that accumulated realized and unrealized losses are in excess of accumulated gains for donor restricted endowment funds, they are reported as decreases in net assets with donor restrictions. As a result of market declines, the fair value of certain donor restricted endowment funds of \$16,563,000 is less than the historic dollar value of such funds of \$17,463,000 ("underwater funds") equaling approximately \$900,000 and \$0 at June 30, 2022. The University is under no legal obligation to fund the deficiency.

Endowment and Similar Funds

The endowment and similar funds' net asset composition as of June 30, 2022 and 2021 and the changes for the years then ended are as follows (in thousands):

			2022		
	Without Donor Restrictions		 ith Donor estrictions	Total	
Donor restricted Quasi-endowment	\$	- 232,329	\$ 354,778	\$	354,778 232,329
	\$	232,329	\$ 354,778	\$	587,107
Balance, June 30, 2021	\$	252,373	\$ 378,543	\$	630,916

Balance, June 30, 2021	\$ 252,373	\$ 378,543	\$ 630,916

Split-Interest Agreements

Investments include the following split-interest agreements at June 30, 2022 and 2021 (in thousands):

	2022	2021
Charitable remainder trusts	\$ 7,211	\$ 8,110
Charitable gift annuities	6,170	8,215
Pooled income funds	 978	1,260
	\$ 14,359	\$ 17,585

8. Land, Buildings and Equipment

Land, buildings and equipment, net, consist of the following at June 30, 2022 and 2021 (inthousands):

2022		2021
\$ 32,056	\$	30,813
651,358		535,991
144,211		121,328
 35,130		18,404
862,755		706,536
 (369,682)		(338,073)
493,073		368,463
 12,906		97,088
\$ 505,979	\$	465,551
	\$ 32,056 651,358 144,211 35,130 862,755 (369,682) 493,073 12,906	\$ 32,056 \$ 651,358 144,211 35,130 862,755 (369,682) 493,073 12,906

Depreciation expense charged to operations was approximately \$31,514,000 and \$28,714,00 for the years ended June 30, 2022 and 2021, respectively. Net interest cost capitalized was approximately \$3,070,000 and \$6,122,000 for the years ended June 30, 2022 and 2021, respectively.

9. Leases

The University is a lessee or lessor of real estate and office space, as well as equipment. The University determines whether a contract is a lease at inception of the contract. When evaluating contracts for embedded leases, the University exercises judgement to determine if there is an explicit or implicit identified asset in the contract and if the University controls the use of that asset. Embedded leases are immaterial to the consolidated financial statements.

Certain real estate leases have renewal options and the lease term includes options to extend or terminate the lease when it is reasonably certain that the University will exercise that option.

Lease expense for lease payments is recognized on a straight-line basis over the term of the lease. Lease assets and liabilities are recognized based on the present value of lease payments over the lease term. The majority of the University's leases do not have a readily determinable implicit discount rate and in those cases the University uses its incremental borrowing rate to calculate the present value of lease payments. As a practical expedient, the University has made an accounting policy election for all asset classes not to separate lease components from nonlease components in the event that the agreement contains both. The University includes both lease and nonlease components for purposes of calculating the right-of-use asset and related lease liability. For finance leases, interest expense on the lease liability is recognized using the effective interest method and amortization of the right-to-use asset is recognized on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term. The table below presents certain information related to the lease costs for leases.

	2022	2021
Finance lease cost		
Amortization of leased assets	\$ 334	\$ 334
Interest on lease liabilities	95	106
Operating lease cost	3,098	3,098
Short-term and variable lease costs	 3,044	3,183
Total lease cost	\$ 6,571	\$ 6,721

Supplemental financial position information related to operating and finance leases as of June 30, 2022 is as follows:

	Classification on the Statement of Financial Position		2022

In June 2022, the University refunded \$42,540,000 in the form of MDFA Revenue Bond Series 2022, formerly Series 2012 Bond. The original proceeds from the issue were used to finance the development, construction, furnishing, and equipping of an approximately 250-bed-apartment-style residence hall and other renovations, repairs, and improvements to campus facilities. The 2022 bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$983,000 to \$19,012,000 beginning June 30, 2023, and a fixed interest rate of 2.22%. The final maturity is June 30, 2042.

In September 2019, the University borrowed \$113,640,000 in the form Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2019 (tax-exempt). The proceeds from these bonds were used to finance a portion of the 5-Year Institutional Plan, including development and construction of a new 91,000 square foot academic building located on the University's main campus as well as renovations, upgrades, repairs and improvements to various University facilities. The MDFA 2019 Bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$1,015,000 to \$20,090,000 beginning September 1, 2030, and interest ranging from 4.0% to 5.0%. The final maturity is September 1, 2059.

In October 2017, the University borrowed \$14,435,000 in the form of Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2017 (tax-exempt). The proceeds from these bonds were used to refund the University's outstanding MDFA Series 2007 bonds and to pay certain costs of issuance. The MDFA 2017 Bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$325,000 to \$695,000 beginning September 1, 2018, and interest ranging from 3.0% to 5.0%. The final maturity is September 1, 2047.

In December 2017, the University borrowed \$52,990,000 in the form of Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2017B (tax-exempt) used to advance refund a prior issuance. The MDFA 2017B Bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$710,000 to \$6,665,000 beginning September 1, 2034, and interest of 5.0%. The final maturity is September 1, 2045.

In June 2016, the University borrowed \$49,030,000 in the form of Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2016 (tax-exempt) and \$56,905,000 in University taxable bonds ("WPI 2016 Bonds.") The proceeds from these bonds were used to advance refund a portion of the MDFA Series 2007 bonds and to pay certain costs of issuance. The remaining proceeds were used to finance the development, design, and construction and equipping of the Innovation Studio and an approximate 140-bed student residence as well as various other capital renovations, deferred maintenance, and facilities improvements. The MDFA 2016 Bonds are fixed rate bonds payable in annual installments with principal

payments ranging from \$790,000 to \$11,180,000 beginning September 1, 2027, and interest ranging from 3.0% to 5.0%. The final maturity is September 1, 2052. The WPI 2016 Bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$4,370,000 to \$14,000,000 beginning September 1, 2052, with interest at 4.34%. The final maturity is September 1, 2056.

In August 2014, the University borrowed \$4,622,000 in the form of Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2014 private placement "draw-down bonds" (the "2014 Bonds") to finance renovations, repairs and improvements to existing facilities. The "draw-down bonds" comprise three term bonds in the initial par amounts of \$2,782,000 (Term Bond A), \$1,440,000 (Term Bond B), and \$400,000 (Term Bond C) to be drawn on or before September 1, 2014, 2015, and 2016, respectively. The 2014 Bonds are payable in monthly installments of principal plus interest and mature September 1, 2029. Interest is set at the time of draw-down at either a variable rate (0.6975 of the sum of 125 basis points and LIBOR) or a fixed rate (0.6975 of the sum of 125 basis points plus the Federal Home Loan Bank Rate). As of June 30, 2017, the University borrowed \$2,782,000 (Term Bond A) with interest payable at a fixed rate of 3.10%, \$1,440,000 (Term Bond B) with interest payable at a fixed rate of 3.01%, and \$400,000 (Term Bond C) with interest payable at a fixed rate of 2.50%. Principal payments for Term Bond A range from \$8,084 to \$12,228 per month beginning October 1, 2014 through August 1, 2029 with a final installment of \$989,887 due September 1, 2029. Principal payments for Term Bond B range from \$4,466 to \$6,558 per month beginning October 1, 2015 through August 1, 2029 with a final installment of \$530,892 due September 1, 2029. Principal payments for Term Bond C range from \$1,327 to \$1,892 per month beginning October 1, 2016 through August 1, 2029 with a final installment of \$153,170 due September 1, 2029.

In August 2013, the University refinanced borrowings of \$7,122,000 in the form of two uncollateralized notes payable to TD Bank. The proceeds from the original borrowings in 2010 were used to refinance the debt assumed for the acquisition of the remaining interest in Gateway and Washburn. The borrowings consist of two notes payable with balloon payments due in 2023. Monthly installments of principal totaling \$29,675 are paid based on a 20 year amortization with interest at 1.5% plus LIBOR, approximately 2.56% and 1.59% at June 30, 2022 and 2021, respectively.

In October 2012, the University borrowed \$42,540,000 in the form of Massachusetts Development Finance Agency ("MDFA") Revenue Bonds Series 2012 (the "2012 Bonds"). The proceeds from the issue were used to finance the development, construction, furnishing, and equipping of an approximately 250-bed-apartment-style residence hall and other renovations, repairs, and improvements to campus facilities. The 2012 Bonds are fixed rate bonds payable in annual installments with principal payments ranging from \$5,975,000 to \$10,515,000 beginning September 1, 2046, and interest ranging from 4.0% to 5.0%. The final maturity is September 1, 2050.

In April 2008, the University borrowed \$54,815,000 in the form of Massachusetts Development Finance Agency ("MDFA") Variable Rate Demand Revenue Bonds Series 2008A (tax-exempt) and 2008B (federally taxable), (the "2008 Bonds"). The proceeds from the issues were used to refund previous bond issuances and to pay the costsof issuance. The 2008 Bonds are payable in semiannual installments with principal payments ranging from \$360,000 to \$2,915,000, with a final maturity of September 1, 2035. As of June 30, 2017 the 2008B Bonds had been retired. Interest on the 2008A Bonds is at a variable rate which is reset on a weekly basis. The interest rates at June 30, 2022 and 2021 for the 2008A Bonds were .94% and 0.02%, respectively. The University subsequently entered into an interest rate swap agreement as part of the 2008A Bonds that remains in effect to economically hedge the interest rate risks associated with the 2008 Bonds (refer to Note 11).

Payment of the principal of, the purchase price of, and interest on each series of the 2008 Bonds, when due, is collateralized by irrevocable direct pay letters of credit by TD Bank that expires in April 2023. The letters of credit include certain financial and nonfinancial covenants.

The 2008 Bonds can bear interest at a daily, weekly, or monthly variable rate mode or at a fixed rate mode. Bonds in the variable rate mode are subject to tender at the election of the bondholders. In the event that the University receives notice of any optional tender of its bonds, or if these bonds become subject to mandatory tender, the purchase price of the bonds will be paid from the remarketing of such bonds. However, if the remarketing proceeds are insufficient, the University will be obligated to purchase the bonds tendered by drawing on the letters of credit. Such funds drawn on the letters of credit must be repaid in full within 180 days or converted to a 5 year term loan with quarterly payments commencing in the 15th month following the conversion. If this were to occur, principal amounts on the 2008 Bonds due over the next five years and thereafter would be \$0, \$4,451,000, \$8,901,000 and \$13,352,000.

The University also has a \$50,000,000 bank revolving line of credit. The line of credit bears interest at an adjusted SOFR rate plus 1.25% per month on outstanding amounts. There were no amounts outstanding at June 30, 2022 and 2021.

11. Interest Rate Agreements

The University has entered into several interest rate swap agreements used to economically hedge the interest rate risk associated with certain of its variable rate debt. The following summarizes the terms for each of these agreements as of June 30, 2022 and 2021 (dollars in thousands):

	 Series 2008 A									
	Deutsche	Barclays								
	Bank AG		Bank PLC							
Trade/effective date	Nov. 3, 2008		Nov. 3, 2008							
Initial notional amount	\$ 14,100	\$	34,200							
Termination date	Oct. 1, 2033		Sept. 1, 2035							
Rate paid by University	4.650 %		3.71%							
Rate paid by Counterparty	71% of		67% of							
	one-month		one-month LIBOR							
	LIBOR	whe	n LIBOR is >4.00%							
			SIFMA Municipal							
			Swap Index							
		whe	n LIBOR is < 4.00%							

		Series 2008 A							
Fair Value liability	_	Deutsche Bank AG		arclays ink PLC	Total, Net				
June 30, 2022	\$	1,346	\$	2,045	\$	3,391			
June 30, 2021		2,445		5,085		7,530			

The net unrealized loss and gain that was recognized for the interest rate swap agreements for the years ended June 30, 2022 and 2021 was approximately a gain of \$3,452,000 and \$1,024,000, respectively, and has been recorded in net realized and unrealized gains and losses on interest rate agreements on the accompanying consolidated statements of activities. At June 30, 2022 and 2021, the fair value liability for interest rate swap agreements totaled \$3,391,000 and \$7,530,000, respectively.

The interest rate swap agreements contain provisions requiring collateral postings should the fair value liability of the University exceed certain amounts based on the University's long term credit ratings. The collateral posting provision for the agreement with Deutsche Bank AG is triggered should the fair value liability exceed \$40 million and the University's long term credit rating remains at A1/A+. The collateral posting provision for the two agreements with Barclays Bank PLC is triggered should the combined fair value liability exceed \$40 million and the University's long term credit rating declines to A2/A. At its current ratings level of A2/A, a combined of fair value liability in excess of \$40 million will trigger a posting requirement for the Barclays Bank PLC agreements. The current combined liability is \$37 million. The provisions with both counterparties provide that the liability threshold decreases if the University's long term credit ratings decline. At June 30, 2022, the University is not required to post collateral to its counterparties.

12. Retirement Plan

The University participates in a defined contribution retirement plan for substantially all of its employees. Employees may elect to invest in various accounts with the Teachers' Insurance and Annuity Association of America ("TIAA"), Fidelity Investments, or a combination of both. Contributions were approximately \$9,895,000and \$8,120,000 for the years ended June 30, 2022 and 2021, respectively. Contributions are based upon a percentage of the employees' compensation.

13. Functional Expenses

Expenses are presented by functional classification. Each functional classification includes all expenses related to the underlying operations by natural classification. The costs of operation and maintenance of plant, depreciation, and interest expense have been allocated across all functional expense categories to reflect the full cost of those activities.

Costs are allocated using the following methods: Expense for the depreciation, administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant are allocated based on square footage. Interest expense is allocated based on usage of debt- financed space.

The following summarizes the allocation of functional expenses as of June 30, 2022 and 2021 (dollars in thousands):

		2022												
	Instruction and Research		Sponsored Research		Student Services		Auxiliary Enterprises		External Relations		Institution and Academic Support			Total
Wages and benefits	\$	103,155	\$	22,306	\$	12,252	\$	6,220	\$	9,873	\$	37,351	\$	191,157

Total operating expenses	\$ 118,962	\$	38,992	\$	36,080	\$	34,766	\$	11,320	\$	55,621	\$	295,741				

External relations expenditures include approximately \$7,651,000 and \$6,749,000 of fundraising expenses for the years ended June 30, 2022 and 2021, respectively.

14. Availability of Resources

The University regularly monitors liquidity required to meet its operating needs and other contractual commitments. When reviewing available resources required to meet its expenditures over a 12-month period, the University considers all expenditures related to its ongoing activities.

In addition to the financial assets available to meet expenditures over the next 12 months, the University operates with a balanced budget and anticipates collecting sufficient revenue to cover expenditures not covered by donor-restricted resources. The University has generated operating cash flows for the fiscal years ended June 30, 2022 and 2021.

The following summarizes the financial assets available to meet its expenditures, as of June 30, 2022:

	Resources Available at 6/30/22	Ap by and	esources propriated the Board d Available n FY 2023	esources not Available Within 12 Months	Total
Financial assets available within 12 months					
Cash and cash equivalents	\$ 55,426	\$	-	\$ -	\$ 55,426
Accounts receivable, net	17,138			-	17,138

Forecasted payout of donor-restricted endowments			15,585	-	15,585
Forecasted payout on board designated endowments			10,076	-	10,076
Investments not subject to donor restrictions or board designations	 593				 593
Total financial assets available within 12 months	73,206		25,661	-	98,867
Financial assets not available for expenditures within 12 months					
Cash, cash equivalents and investments				603,185	603,185
Contributions not due within one year				26,384	26,384
Student loan receivables, net				16,072	16,072
Liquidity resources Bank line of credit (no balance outstanding as of June 30, 2022)	 50,000				 50,000
Total financial assets and other liquidity resources	\$ 123,206	\$	25,661	\$ 645,641	\$ 794,508

Included in financial assets not available for expenditure at June 30, 2022, the University had \$232,329,000 of board-designated endowments that, with the board's approval, could be made available for expenditures.

15. Liquidity

Of the University's Investments, 48% are redeemable within 30 days, 28% may be redeemed either at future specified redemption dates or currently by incurring a penalty, and 24% are in real estate, private equites, and other private investments. Constraints that limit the University's ability to withdraw capital after such investments are made may limit the amount available for withdrawal at a given redemption date which could limit the University's ability to respond quickly to changes in market conditions.

16. Net Assets

Net assets consist of the following at June 30, 2022 and 2021 (in thousands):

	2022									
		Without Donor estrictions		ith Donor estrictions		Total				
Endowment funds

	\$	360,421	\$	443,539	\$	803,960					

17. Related Parties

The Alumni Association of Worcester Polytechnic Institute ("Alumni Association"), a separate 501(c)(3) organization, invests the majority of its funds in the University's endowment. At June 30, 2022 and 2021, funds held for others in the consolidated statements of financial position include Alumni Association assets of \$2,986,000 and \$3,001,000, respectively.

18. Commitments and Contingencies

Construction Contracts

For the years ended June 30, 2022 and 2021, the University had contracted for various renovations and construction projects across campus totaling approximately \$18,150,000 and \$25,909,000 respectively.

Investments

The University is obligated under certain limited partnership agreements and other alternative investment arrangements to advance additional funding periodically up to specified levels. At June 30, 2022 and 2021, the University had unfunded commitments of approximately \$73,176,000 and \$61,588,000, respectively, that can be called through fiscal year 2030. These commitments will be funded from the University's existing cash and investments.

Guarantees

The University has guaranteed commercial loans with an outstanding amount of approximately \$1,524,000 to six fraternities. These loans are collateralized by real property owned by the fraternities.

Uncertain Tax Positions

The University is generally exempt from federal and state income taxes. Management annually reviews for uncertain tax positions along with any related interest and penalties and believes that the University has no uncertain tax positions that would have a material adverse effect, individually or in the aggregate, upon the University's consolidated statements of financial position, or the related consolidated statements of activities, or cash flows.

Sponsored Research

The University's sponsored research program and indirect cost recovery are subject to audit by the respective sponsoring federal agency as provided for in federally sponsored research regulations. Management believes that any such audit will not have a material adverse effect, individually or in the aggregate, upon the University's consolidated statements of financial position, or the related consolidated statements of activities, or cash flows.

Self-insured Medical Claims

The University is self-insured for medical claims and is a member of a captive insurer providing stop-loss insurance to cover plan expenses in excess of certain limits. Management believes insurance claims that have occurred as of June 30, 2022 and 2021 but not yet reported or paid have been adequately reserved.

Other Commitments and Contingencies

In May 2009, the University entered into a payment in lieu of taxes ("PILOT") agreement with the City of Worcester. The 25 year agreement provides for the University to pay approximately \$450,000 annually in voluntary payments, increasing 2.5% annually. The agreement calls for the City of Worcester to use these amounts to support the operations of the Worcester Public Library and for the implementation of the master plan to renovate Institute Park. In April 2015, the PILOT agreement was amended to increase the voluntary payment by an additional \$130,000 annually, also increasing 2.5% annually.

The University is also involved in various legal actions arising in the normal course of its activities. Although the ultimate outcome is not determinable at this time, management, after taking into consideration advice of legal counsel believes that the resolution of these pending matters will not have a material adverse effect, individually or in the aggregate, upon the University's consolidated statements of financial position, or the related consolidated statements of activities, or cash flows.

19. Subsequent Events

Management has evaluated subsequent events for the period after June 30, 2022 through November 16, 2022, the date the financial statements were issued, and determined that there have been no subsequent events that would require recognition in the financial statements or disclosure in the notes of the financial statements.

Worcester Polytechnic Institute Notes to Consolidated Financial Statements June 30, 2022

20. Schedule of Financial Responsibility Ratios

As disclosed in the accompanying supplemental schedule, the Department of Education finalized new borrower defense rules that require the inclusion of a supplemental schedule to the audited financial statements that contains all financial elements needed to calculate the composite score ratios with a cross-reference to the financial statement line, or notes disclosure, that contains the element. The required financial elements as of June 30, 2022 not already included in a previous footnote are outlined below.

Financial Element

(in thousands)	1	Amount
Property, plant, and equipment, net (includes construction in progress and capital leases)	\$	479,663
Property, plant, and equipment- pre-implementation (inc cap leases)		260,149
Property, plant, and equipment- post-implementation without original debt (inc cap leases)		232,924
Related party receivables		13,843
Long-term debt- for long term purposes pre-implementation		218,722
Note payable and line of credit for construction in progress		12,058
Term endowments with donor restrictions		228,506
Life income funds with donor restrictions		16,159
Non-operating and net investment gain		14,707
Net investment gains		18,159
Investment return appropriated for spending		10,404
Non-operating revenue and other gains		16,083

Worcester Polytechnic Institute Note to Schedule of Financial Responsibility Ratios June 30, 2022

1. Basis of Presentation

The proceeding schedule of financial responsibility ratios (the "Schedule") of the University provides financial information required by the Department of Education to calculate the primary reserve ratio, equity ratio, net income ratio and the composite score as defined in Subpart L of 34 CFR 668 for the fiscal year-ended June 30, 2022. The financial information in the Schedule has been prepared in accordance with accounting principles generally accepted in the United States of America consistent with the consolidated financial statements. The Schedule is presented for purposes of additional analysis as required by the Department of Education and is not a required part of the basic financial statements.

Worcester Polytechnic Institute Notes to Schedule of Expenditures of Federal Awards June 30, 2022

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule"), includes the federal grant activity of Worcester Polytechnic Institute (the "University") for the year ended June 30, 2022 and is presented on the accrual basis of accounting. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit requirements for Federal Awards (Uniform Guidance). As the Schedule presents only a selected portion of the expenditures of the University, it is not intended to, and does not present the financial position, changes in net assets, or cash flows of the University. Direct awards are listed in total and pass-through awards are listed individually (with pass-through numbers when available) on the Schedule. Negative amounts represent adjustments or credits to amounts reported as expenditures in prior years in the normal course of business. Federal Assistance Listing numbers are presented where available. Amounts passed through to each subrecipient by Federal Assistance Listing are included in the total expenditure column of the respective awards.

2. Indirect Costs

The University applies its predetermined approved facilities and administrative rate when charging indirect costs to federal awards rather than the 10% de minimus cost rate as described in Section 200.414 of the Uniform Guidance.

3. Federal Perkins Loan Program

The University did not process any new loans under the Federal Perkins Loan Program (Federal Assistance Listing # 84.038) for the year ended June 30, 2022. The balance of Perkins Loans outstanding at June 30, 2022 was \$3,360,000.

Part II Reports on Internal Control And Compliance

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Trustees of Worcester Polytechnic Institute

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Worcester Polytechnic Institute and its subsidiaries (the "University"), which comprise the consolidated statement of financial position as of June 30, 2022, and the related consolidated statements of activities and changes in det assets and cash flows for the year then ended, including the related notes (collectively referred to as the "consolidated financial statements"), and have issued our report thereon dated November 16, 2022, except with respect to Note 20 to the consolidated financial statements and the opinion on the supplemental schedule of financial responsibility ratios, as to which the date is March 7, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pricewaterhouse Coopers LLP

November 16, 2022, except with respect to Note 20 to the consolidated financial statements and the opinion on the supplemental schedule of financial responsibility ratios, as to which the date is March 7, 2023

Report of Independent Auditors on Compliance for Each Major Program and on Internal Control Over Compliance Required by Uniform Guidance

To the Board of Trustees of Worcester Polytechnic Institute

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Worcester Polytechnic Institute's (the "University") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2022. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (US GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance

requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole

In performing an audit in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of
 expressing an opinion on the effectiveness of the University's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
