Independent Auditors' Report

The Board of Trustees
Marquette University:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Marquette University, which comprise the consolidated statement of financial position as of June 30, 2022, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Marquette University as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying Supplementary Schedule of Financial Responsibility Data, as of and for the year ended June 30, 2022, is presented for purposes of additional analysis as required by the US Department of Education, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Schedule of Financial Responsibility Data is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 8, 2022, except as to note 17, which is as of April 27, 2023, on our consideration of Marquette University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Marquette University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Marquette University's internal control over financial reporting and compliance.

MARQUETTE UNIVERSITY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

(1) Summary of Significant Accounting Policies

(a) Organization

Marquette University (the university) is an independent, coeducational, not-for-profit institution of higher learning and research located in Milwaukee, Wisconsin, formally opened in 1881 and conducted under the auspices of the Society of Jesus. The university provides education and training services, primarily for students enrolled in undergraduate, graduate, and professional degree programs and performs research, training and other services under grants, contracts and other agreements with sponsoring organizations, including both government agencies and private enterprises.

The consolidated financial statements include Flora Real Properties LLC (Flora). Flora is fully controlled by the university through 100% ownership. Flora operates commercial real estate activities in the university campus area.

(b) Basis of Presentation

The consolidated financial statements of the university have been prepared in conformity with U.S. generally accepted accounting principles (GAAP).

The accompanying consolidated financial statements present information regarding the university's financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

(i) Without Donor Restrictions

Net assets that are not subject to donor-imposed restrictions.

(ii) With Donor Restrictions

Net assets that are subject to donor restrictions that will be met either by actions of the university or the passage of time. Also included in this category are net assets subject to donor-imposed restrictions to be maintained permanently by the university, wherein the donor stipulates that the corpus of the gift be held in perpetuity and the income from those assets be made available for scholarships or program operations.

(c) Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses during the reporting period as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(d) Cash and Cash Equivalents

Cash equivalents with original maturities of three months or less are classified as cash and cash equivalents, except those amounts held by investment managers, which are classified as investments. The fair value of cash equivalents is estimated to be the same as book value due to the short maturity of these instruments.

MARQUETTE UNIVERSITY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

(e) Pledges Receivable, Net

Unconditional promises to give are recognized initially at fair value as contribution revenue in the period a donor makes the promise. The fair value of the pledge is estimated based on anticipated future cash payments discounted using a risk-adjusted rate commensurate with the duration of the planned payments. In subsequent periods, the discount rate is unchanged. Pledges receivable are net of an allowance for uncollectible amounts. Allowance for uncollectible pledges is calculated based upon the university's past collection experience. The allowance is reassessed and adjusted as necessary.

(f) Student Accounts and Loans Receivable, Net

At June 30, student accounts and loans receivable consisted of the following:

| | <u>2022</u> | <u>2021</u> |
|--|------------------|----------------|
| Federal government loan programs | \$ 22,855 | 26,198 |
| Institutional loan programs | 1,701 | 1,668 |
| Student receivables | 7,823 | 7,500 |
| Grants receivables | 15,386 | 7,869 |
| Other receivables | <u>2,556</u> | <u>3,649</u> |
| Subtotal | 50,321 | 46,884 |
| Less allowances for doubtful accounts | <u>(3,257)</u> | <u>(3,373)</u> |
| Student accounts and loans receivable, net | <u>\$ 47,064</u> | <u>43,511</u> |

The university records an allowance for uncollectible accounts when, in management's judgment, it is probable a portion of the receivable or loan will not be collected. Allowances for doubtful accounts are established based on prior collections. Balances are written off when they are deemed permanently uncollectible.

(g) Investments

Investments are reported at fair value based on market quotes with unrealized gains and losses thereon included in the consolidated statements of activities. When a ready market for the investments does not exist, the net asset value is used as a practical expedient in estimating fair value, based on information provided by fund managers or general partners. The estimated values are reviewed and evaluated by the university. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

(h) Property, Buildings, and Equipment, Net

Property, buildings, and equipment are recorded at cost at the date of acquisition or fair value at the date of donation including, where appropriate, capitalized interest. Property and equipment under capital leases are initially valued and recorded on the present value of minimum lease payments. The university depreciates buildings, building improvements, land improvements, equipment, library contents, and eBooks over the estimated useful lives of the assets (25 to 50, 10 to 20, 10 to 20, 5 to 7, 20 and 20 years, respectively) using the straight-line method. Leasehold improvements are amortized over the shorter of the expected useful life of the asset or term of the related lease.

Property, buildings, and equipment include the following at June 30, 2022 and 2021:

| | <u>2022</u> | <u>2021</u> |
|---|-------------------|------------------|
| Land and improvements | \$ 51,423 | 58,378 |
| Buildings and improvements | 853,897 | 833,676 |
| Construction in progress | 52,994 | 34,827 |
| Furniture, fixtures, and equipment | 174,730 | 170,280 |
| Library contents | 124,735 | 124,561 |
| eBooks and other intangibles | 31,541 | 27,127 |
| Less accumulated depreciation | <u>(653,880)</u> | <u>(622,322)</u> |
| Property, buildings, and equipment, net | <u>\$ 635,440</u> | <u>626,527</u> |

Construction in progress includes the following as of June 30, 2022 and 2021:

| | <u>2022</u> | <u>2021</u> |
|---|------------------|---------------|
| College of Business Administration new building | \$ 37,716 | 7,608 |
| New home for the College of Nursing | 3,279 | 565 |
| Wellness and Recreation | 1,445 | 535 |
| Dental clinic remodel | 1,352 | — |
| Smart classrooms | 83 | 1,521 |
| Animal research center renovations | — | 11,185 |
| 313 N. 13th renovations | — | 1,688 |
| Lalumiere renovation | — | 1,557 |
| Other renovation and construction projects | <u>9,119</u> | <u>10,168</u> |
| Total construction in progress | <u>\$ 52,994</u> | <u>34,827</u> |

Long-lived assets such as property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

On June 17, 2022, Marquette University granted the buyer of real estate an option to put certain parcels back to the university for up to twelve months after the closing date.

MARQUETTE UNIVERSITY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Capital gifts to acquire or construct long-lived assets are recorded as a gift with donor restrictions until the related asset is placed in service, at which time the capital gift is released from net assets with donor restrictions to net assets without donor restrictions as other non-operating activity and subsequently amortized into operations over the estimated useful life of the acquired or constructed asset. This amortization, which amounted to \$6,668 in fiscal year 2022 and \$6,950 in fiscal year 2021, is recorded as a reclassification between non-operating and operating sections of the changes in net assets without donor restrictions in the consolidated statement of activities.

(i) Refundable Federal Loan Grants

The university participates in the Perkins, Health Professionals Student, Nursing Student, Nurse Faculty, ARRA-Nurse Faculty, and Loans for Disadvantaged Student federal revolving loan programs. The university holds certain amounts advanced from the federal government to facilitate these loan programs. In the event the university no longer participates, the amounts related to the program are generally refundable to the government.

(j) Student Tuition and Fees

Student tuition revenue is recognized in the fiscal year in which the academic programs are delivered. Scholarships reduce the amount of revenue recognized. The university provided student tuition discounts of \$197,062 and \$189,670 in 2022 and 2021, respectively. Students who withdraw may receive a full or partial refund in accordance with the university's refund policy.

Deferred tuition revenue and deposits represents payments for summer term courses conducted in July and August along with deposits for the fall academic term.

The following tables depict activities for student – related deferred revenue.

| | Balance at June 30, 2021 | Revenue Recognized | Cash Received in Advance of Performance | Accounts Receivable for Summer Courses | Balance at June 30, 2022 |
|----|---|-------------------------------|--|---|---|
| \$ | 9,271 | 9,271 | 9,259 | 487 | 9,746 |

| | Balance at June 30, 2020 | Revenue Recognized | Cash Received in Advance of Performance | Accounts Receivable for Summer Courses | Balance at June 30, 2021 |
|----|---|-------------------------------|--|---|---|
| \$ | 9,737 | 9,737 | 8,807 | 464 | 9,271 |

The balance of deferred tuition revenue at June 30, 2022, will be recognized as revenue in the year ending June 30, 2023, as services are rendered.

MARQUETTE UNIVERSITY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

The university applies the practical expedient in Accounting Standards Codification (ASC) 606-10-50-14 and therefore does not disclose information about performance obligations that have an origination and expected duration within the fiscal year.

(k) Auxiliary Enterprises

Auxiliary enterprises include revenues and expenses of the university for room and board, parking services, commercial property rentals and gift shops.

(l) Contributions

Contributions, including unconditional promises to give (pledges), are recorded as operating revenue. Gifts, excluding artwork, are recognized in the appropriate category of net assets in the period received. Contributions are recorded at their estimated fair value at the date the gift is received. Contributions receivable due beyond one year are stated at estimated net present value, net of an allowance, and recorded as net assets with donor restrictions until cash payments are received and donor restrictions are fulfilled. Allowances and revisions to previous year contributions based on donor amendments or clarifications of intent are reflected within the consolidated statements of activities as a nonoperating item. Contributions with donor-imposed conditions are not recognized unless it is reasonably expected that the conditions can be met.

(m) Operating Income

Operating results in the consolidated statement of activities reflect all transactions that change net assets without donor restrictions, except for activity associated with endowment investments and certain other nonrecurring transactions, including adjustments to allowance for uncollectible contributions, changes due to adopting new accounting guidance, and other gains and losses. In accordance with the university's endowment distribution policy as described in note 4, only the portion of total investment return distributed under this policy to meet operating needs is included in operating revenue. Operating investment income consists of dividends, interest, and realized gains and losses on unrestricted non-endowed investments.

(n) Income Taxes

The university is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and Section 71.26(1)(a) of the Wisconsin statutes and is generally not subject to federal and state income taxes. However, the university is subject to income taxes on any income that is derived from a trade or business regularly carried on, and not in furtherance of the purposes for which it was granted exemption.

There was no provision for income taxes due on unrelated business income and there are no uncertain tax positions considered to be material.

As of June 30, 2022, the university has a federal tax credit carryforward of \$2,193, which expires between fiscal years 2036 and 2041.

(o) Post-retirement Benefits

The university provides retired employees access to certain healthcare and life insurance benefits. University employees become eligible to access these benefits when their years of service plus age equal 70 with a minimum age of 55. Qualified retired employees under the age of 65 are eligible to participate in the university's healthcare plan. Retirees are expected to pay the full cost of their premiums, based on the claims experience associated with that defined group of retired employees. The university also pays group life insurance premiums for active or future retired employees hired prior to February 1, 1982, that provide for limited death benefits. The premiums paid are based on the group community rate associated with death claims filed for the entire population of employees and retirees participating in the program. As of June 30, 2022 and 2021, the university had post-retirement benefits payable of \$4,906 and \$4,869, respectively.

(p) Art Collection

The university has various collections of fine arts and rare books in museums, libraries, and on loan. The university does not assign or record a value to art works and other collections received as gifts or purchased with contributions restricted for that purpose. Valuations for some collections are updated periodically, and as such, the total of all fine arts may vary with appraisals and / or auction prices. Accordingly, the values of fine art and other collections have been excluded from the consolidated statements of financial position. Proceeds, if any, deaccessions or insurance recoveries are reflected as increases in the appropriate net asset classes. The art and other collections are subject to a requirement that proceeds from their sales be used to acquire other items for the collections. Fine arts are included in insurance coverage for the university property and a separate policy is also secured for fine art of high value and where appraised values are listed. As of June 30, 2022, the specific policy covering highly valued works provides for insured coverage of \$100,000 aggregate limit (subject to policy sublimit including \$3,000 for the Joan of Arc Chapel) for any one loss or any one occurrence and includes some appraised items from the library collections.

(q) COVID – 19

The COVID – 19 pandemic resulted in prior year revenue declines due to lower student enrollment, de-densification of residence halls, and a reduction in athletic revenues, as well as higher costs to take appropriate health and safety measures. These economic challenges were partially mitigated by temporary suspensions of merit increases and 403(b) employer matching contributions, decreases in leadership and basketball coach salaries, reduction of discretionary expenses, and state and federal emergency relief aid. The COVID – 19 pandemic resulted in current year revenue declines due to lower student enrollment and retention levels. These economic challenges were partially mitigated by temporary suspensions of merit increases, other expense reduction actions, and state and federal emergency relief aid.

(t) Reclassifications

Certain amounts in the 2021 financial statements have been reclassified to conform to the 2022 presentation. 2021 functional expense amounts were revised to reflect updated, commonly applied cost classifications utilized in 2022.

(2) Availability of Financial Assets for General Expenditures

Resources available to the university to fund general expenditures, such as operating expenses, scheduled principal payments on debt, and internally funded capital costs have seasonal variations related to the timing of tuition payments, receipts of gifts and pledge payments, and transfers from the endowment. The university actively manages its resources, utilizing a combination of short-term and long-term operating investment strategies to align cash inflows with anticipated outflows. At June 30, 2022, existing financial assets and liquidity resources available within one year were as follows:

| | |
|---|-------------------|
| Financial assets: | |
| Cash and cash equivalents | \$ 117,434 |
| Accounts receivable | 22,614 |
| Pledges payments available for operations | 7,427 |
| Working capital investments | 146,819 |
| Endowment spending payout | <u>38,372</u> |
| Total financial assets available within one year | 332,666 |
| Liquidity resources: | |
| Bank line of credit | <u>50,000</u> |
| Total financial assets and liquid resources available within one year | <u>\$ 382,666</u> |

Additionally, the university has \$117,537 in board designated funds functioning as endowment of which \$84,504 could be liquidated within one year with Board approval, however no liquidation is anticipated as of June 30, 2022. The university's investment policy follows Wisconsin's Uniform Prudent Management of Institutional Funds Act ("UPMIFA"), which requires institutions to maintain intergenerational equity, meaning the university must make efforts to preserve purchasing power of the endowment for both current and future generations served by the university.

(3) Investments

A summary of the university's investment return net of expenses is presented below for the years ended June 30, 2022 and 2021:

(Dollars in thousands)

The fair value of the university's financial instruments is determined using the valuation methods and assumptions as set forth below. While the university believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

Fair values of cash and cash equivalents are based on observable market quotation prices provided by investment managers and the custodian bank at the reporting date.

Investments include money funds, federal, state, local agency, nongovernment, asset and mortgage-backed and foreign fixed income securities, stocks, mutual funds, commingled funds, real estate, multi-strategy hedge funds and private equity partnership and membership interests. Investments are based on valuations provided by external investment managers and the custodian banks. Valuations provided by external investment managers and the custodian bank include observable market quotation prices, observable inputs other than quoted prices such as price services or indexes, estimates, appraisals, assumptions and other methods that are reviewed by management. Real estate, multi-strategy hedge funds, commingled funds and private equity partnerships are valued using net asset value; however, it is possible that the redemption rights of certain investments may be restricted by the funds in the future in accordance with the underlying fund agreements. Changes in market conditions and the economic environment may impact the net asset value of the funds and consequently the fair value of the university's interests in the funds.

Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Observable inputs such as quoted prices in active markets that the university has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices in active markets such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs where there is little or no market data and requires the reporting entity to develop its own assumptions and includes funds held in trust by others.

The university's policy is to reflect transfers between levels at the end of the year in which a change in circumstances results in the transfer.

(4) Endowment

(a) Interpretation of Relevant Law Governing Endowments

The State of Wisconsin enacted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) on July 20, 2009. This law provides, among other things, expanded spending flexibility by allowing, subject to a standard of prudence, the university to spend from an endowment fund without regard to the book value of the corpus. The university classifies as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument. Also included in net assets with donor restrictions is accumulated appreciation on endowment funds which are available for expenditure in a manner consistent with the standard of prudence established by UPMIFA.

(b) Underwater Endowment Funds

From time to time, the value of assets associated with a permanently restricted fund may fall below the historical cost. Deficiencies of this nature are reported in net assets with donor restrictions. These deficiencies resulted from unfavorable market conditions that occurred after the investment of endowed contributions and from appropriations to certain programs. As of June 30, 2022 and 2021, funds with fair market value of \$33,873 and \$8,389, an original gift value of \$36,466 and \$8,682, were underwater by \$2,593 and \$293, respectively.

(Dollars in thousands)

(c) Endowment Spending Policy

The primary objective of the spending policy is to provide a steady cash flow stream while at the same time protecting the purchasing power of the endowment fund's principal. Adopting the target rate approach provides the university with a level-spending plan. Spending allotments will begin with the flat amount allocated to each individual endowment fund balance as of June 30, 2004, that may grow each year by an inflationary amount not to exceed 3%. Spending allotments will be increased by new gift additions to the individual endowment funds receiving spending authority equal to 5% of the new gift amount.

Compliant with UPMIFA, the university will be allowed to prudently withdraw spendable funds even if an endowment's market value is less than its historical book value. Any "return" that is not required to meet spending shall be retained in the endowment funds and invested in accordance with the investment policy statement.

A risk control mechanism will be employed that keeps spending within a range of 4 – 6% of market value in order for the asset allocation policy to work with a minimum target rate of return of 8% (5% average spending and 3% inflation).

(d) Endowment Investment Policy

The endowment fund's investment objective is to preserve its purchasing power while providing a continuing and stable funding source to support the overall mission of the university. To accomplish this objective, the endowment fund seeks to generate a total return that will exceed its annual spendable amount, all expenses associated with managing the endowment fund, and the eroding effects of inflation. It is the intention that any excess return (interest income, dividends, realized gains, and unrealized gains), above and beyond the amount approved for expenditure or distribution, will be reinvested in the endowment fund. The endowment fund will be managed on a total return basis, consistent with the applicable standard of conduct set forth in UPMIFA.

The endowment fund has a long-term investment horizon with relatively low liquidity needs. For this reason, the endowment fund can tolerate short- and intermediate-term volatility provided that long-term returns meet or exceed its investment objective. Consequently, the endowment fund may take advantage of less liquid investments, such as private equity, hedge funds, and other partnership vehicles, which typically offer higher risk-adjusted return potential as compensation for forfeiture of liquidity. To ensure adequate liquidity for distributions and to facilitate rebalancing, the university will conduct ongoing reviews of total fund liquidity.

(5) Irrevocable Split-Interest Agreements and Funds Held in Trust by Others

The university's split-interest agreements with donors consist primarily of charitable gift annuities, pooled income funds, and charitable remainder trusts for which the university serves as trustee. Assets held in these trusts are included in investments. Contribution revenues are recognized at the date the trusts are established after recording liabilities for the present value of the estimated future payments to be made to the donors or other beneficiaries. Annuity and other split-interest liabilities are recorded at their present value, using a risk-adjusted discount rate and, if applicable, the estimated life expectancy of the donor or other beneficiaries.

The university is the beneficiary of trusts that, in accordance with the decedent's instructions, are managed and maintained by separate trustees not affiliated with the university. The university receives distributions from the trusts. The fair value of the trusts was \$31,223 and \$27,203 at June 30, 2022 and 2021, respectively, and are included in investments on the consolidated statement of financial position.

For those agreements where the university does not serve as trustee but is designated as an irrevocable beneficiary of the trust, restricted funds held in trust and revenue are recognized for the present value of the estimated future benefits due to the university over the life of the trust and when the trust is distributed. The present value calculation of the trust considers both the discount rate and, if applicable, the estimated life expectancy of the trust originator.

(6) Pledges Receivable, Net

Pledges receivable expected to be collected within one year are recorded at net realizable value. Pledges receivable expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are computed using an appropriate risk-free rate of return on the date the promise to give is received. Amortization of the discount is included in contribution revenues.

As of June 30, 2022, and 2021, the contributions receivable is due as follows:

| | <u>2022</u> | <u>2021</u> |
|--------------------------------------|------------------|----------------|
| Less than one year | \$ 35,499 | 54,332 |
| Two to five years | 42,822 | 40,717 |
| Over five years | <u>5,973</u> | <u>4,583</u> |
| Subtotal | 84,294 | 99,632 |
| Less unamortized discount | (2,166) | (2,782) |
| Allowance for uncollectible accounts | <u>(6,982)</u> | <u>(8,118)</u> |
| Pledges receivable, net | <u>\$ 75,146</u> | <u>88,732</u> |

In addition, the university has received certain conditional promises to give that are in the form of revocable trusts, bequests and pledges. As of June 30, 2022 and 2021, the fair value of these conditional promises is approximately \$165,363 and \$152,742, respectively. These amounts can be recognized as revenue in the periods in which the conditions are fulfilled.

(7) Leases

The university has operating leases, primarily for athletic facility use, clinic space, office space and vehicles, which expire over the next twelve years. Some leases contain renewal options. For instances where it is probable that the university will renew, the renewal period is included in the lease period and calculations. Certain leases include payment escalators based on stated rates. Variable lease payments based on stated rates such as mileage or sales volume are not included in the calculation of lease liabilities and ROU assets but, rather, are recognized during the year incurred. The present value of the lease obligation is determined using a discount rate equal to the interest rate implicit in the lease or, if unavailable, the university's incremental borrowing rate is used. Included in ROU calculations are adjustments to lease payments made as a result of COVID-19 economic impact.

The components of operating lease costs for the fiscal year ended June 30, 2022 and 2021, were as follows:

| | <u>2022</u> | <u>2021</u> |
|-----------------------|-----------------|--------------|
| Operating lease costs | \$ 1,903 | 1,821 |
| Variable lease costs | 449 | 47 |
| Total lease costs | <u>\$ 2,352</u> | <u>1,868</u> |

Amounts reported in the consolidated statements of financial position as of June 30, 2022 and 2021, were as follows:

Assets restricted to investment in land, buildings and equipment include restricted cash equivalents received with a donor-imposed restriction that limits the use of that cash to long-term purposes.

(10) Retirement Plan

All eligible full-time and part-time personnel who meet the waiting period criteria, may elect to participate in a defined contribution individual retirement plan. Under the provisions of the plan in order to receive the university's matching contribution, participants are required to contribute 5% of their annual wages to the plan. The university has neither administrative responsibilities nor any financial liabilities under this plan except to make contributions, currently limited to 8% of the annual wages of participants, up to defined limits. In addition, voluntary contributions by participants may be made subject to Internal Revenue Service limitations. As part of the COVID-19 financial risk mitigation plan, the university matching contribution to Marquette's 403(b) retirement plan was suspended from July 1, 2020 through April 30, 2021. Payments for contributions to this plan totaled \$11,354 and \$3,547 in fiscal years 2022 and 2021, respectively.

(11) Self-Funded Health, Dental and Vision Benefit Plans

The university has self-funded benefit plans covering all active and certain retired employees' health, dental and vision costs. The university's plans are protected against catastrophic losses through excess stop loss insurance. Excess stop loss provides reimbursement to the university when combined eligible claims for members above \$375 exceed \$300. Claims paid under the plans for fiscal years 2022 and 2021 totaled \$27,222 and \$25,235, respectively. The university has also contracted with third party administrators to provide administrative services for the plans. Accrued liabilities include an estimate of the university's liability for claims incurred but not paid through June 30, 2022 and 2021.

(13) Commitments and Contingencies

The university is involved in various litigation arising in the normal course of operations. On the basis of information presently available and the advice of legal counsel, management is of the opinion that any liability, to the extent not provided for through reserves or otherwise, for pending litigation is not expected to be material in relation to the university's financial position or activities.

(14) Expenses

The university's primary programs are instruction, research, and public service. Academic support and libraries, student services, and auxiliary enterprises are considered integral to the delivery of these programs. Athletics expenses are included in student services. Costs related to the operation and maintenance of physical plant, including depreciation of plant assets, are allocated to operating programs and supporting activities based upon square footage. Interest expense on external debt is allocated to the activities that have most directly benefited from the debt proceeds. Natural expenses allocated by function for the years ended June 30, 2022 and 2021 are as follows:

(15) Research and Grant Costs

The university receives grant and contract revenue from various government agencies and private sources for the support of research, training, and other sponsored programs. Revenues associated with the direct costs of these programs are recognized as the related costs are incurred. Indirect cost reimbursements from federal agencies are based on negotiated predetermined rates. Research and grant costs reported for fiscal years 2022 and 2021 are comprised of the following:

| | 2022 | 2021 |
|---------------------------|-------------|-------------|
| Sponsored research | \$ 35,824 | 31,270 |
| Teaching and training | 6,108 | 5,828 |
| Development and others | 6,862 | 7,816 |
| Total research and grants | \$ 48,794 | 44,914 |

(16) Subsequent Events

On July 12, 2022, the university issued \$56,590 of tax-exempt bonds. The Revenue Bonds Series 2022 debt was used to refund and redeem a portion of the Revenue Bonds Series 2012 debt. By refinancing capital expenses at lower interest rates, this tax-exempt financing enables the university to advance its educational mission and commitment to access and affordability through more efficient financial operations.

Subsequent events have been evaluated through September 8, 2022, which is the date the consolidated financial statements were available to be issued. No other subsequent events were identified requiring recording or disclosure in the consolidated financial statements or related notes to the consolidated financial statements.

(17) Financial Responsibility Standards

The university participates in federal Title IV student financial assistance programs, which require it to meet standards of financial responsibility based on criteria determined by the U.S. Department of Education (ED), as set forth in 34 CFR Subpart 668.171. The criteria for private institutions includes the annual calculation by ED of a financial responsibility composite score, as further outlined in 34 CFR Subpart 668.172, using audited consolidated financial statements submitted through ED's eZ-Audit system. The composite score has been and will continue to be based on three ratios: Primary Reserve, Equity, and Net Income. Inputs to these ratios as of and for the year ended June 30, 2022 are bolded below and include (a) elements directly from the accompanying consolidated financial statements and related other notes to the consolidated financial statements, as well as (b) certain other financial data. Additional financial

| (a) Property, buildings, and equipment, net: pre-implementation | Primary reserve | \$ 159,896 |
| Property, buildings, and equipment, net: post-implementation | Primary reserve | 193,572 |
| Property, buildings, and equipment, net: post-implementation without outstanding debt for original purchase | Primary reserve | 228,978 |
| Construction in progress (note 1(h)) | Primary reserve | 52,994 |
| Total property, buildings, and equipment, net (consolidated statement of financial position) | N/A | \$ <u>635,440</u> |
| (b) Long-term debt, net: pre-implementation | Primary reserve | \$ 159,896 |
| Long-term debt, net: post-implementation | Primary reserve | 193,572 |
| Total notes and bonds payable, net (consolidated statement of financial position) | NA | \$ <u>353,468</u> |

Total long-term debt consists of (1) pre-implementation debt, defined as the amounts reported in the last consolidated financial statements Marquette University submitted to the ED prior to July 1, 2020 (Marquette University's consolidated financial statements for the fiscal year ended June 30, 2019), less any payments or other reductions after June 30, 2019, and not to exceed property, buildings, and equipment, net; and (2) post-implementation debt, defined as debt used to obtain property, buildings, and equipment, net, after the fiscal year ended June 30, 2019, less any payments or other reductions. Total notes and bonds payable, net as of June 30, 2022, described in note 7 to the 2022 consolidated financial statements, is classified as pre-implementation debt, except for Revenue Bonds Series 2019, Taxable Fixed Rate Bonds Series 2020, and Other long-term payables. Details of the Long-term debt, net: post-implementation are included in the table below:

| Long-term debt, net: post- implementation | As of June 30, 2022 | Issue date | Years to original maturity |

MARQUETTE UNIVERSITY

Notes to Schedules of Expenditures of Federal and State Awards

Year ended June 30, 2022

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards and schedule of expenditures of state awards (the schedules) include the federal and state awards received by Marquette University (the University) under programs of the federal government and the State of Wisconsin for the fiscal year ended June 30, 2022.

The schedule of expenditures of federal awards includes all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government, and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University. Compliance testing of all direct and material compliance requirements, as described in the Compliance Supplement, was performed for the federal grant programs noted below:

Research and Development Cluster – includes awards for research and development activities at the University sponsored by various agencies of the federal government.

Student Financial Aid Cluster – includes certain awards to provide financial assistance to students, primarily under the Federal Pell Grant (Pell), Federal Supplemental Educational Opportunity Grants (FSEOG), Federal Direct Loan (FDL), and Federal Work Study (FWS) programs of the U.S. Department of Education. Under the Perkins Loan Program Extension Act of 2015, no Perkins Loan disbursement could be made to the graduate students after June 30, 2017 and undergraduate students after June 30, 2018. The administrative cost allowance charged to the Perkins Loan Program is based on disbursements, and no disbursements occurred during the year ended June 30, 2022. The University also receives other federal assistance from the U.S. Department of Health and Human Services and the U.S. Department of Education for certain other grant and loan programs.

COVID-19 – Education Stabilization Fund – includes two awards to prevent, prepare for and respond to coronavirus, including Higher Education Emergency Relief Fund-Student Portion and Higher Education Emergency Relief Fund-Institutional Portion.

COVID-19 – Coronavirus Relief Fund – The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) includes awards distributed to institutions of higher education in order to prevent, prepare for, and respond to coronavirus through the Higher Education Emergency Relief Fund (HEERF II). The CRRSAA requires that an institution receiving funding under provide the “same amount” in financial aid grants to students from the new CRRSAA funds that it was required or which it would have been required to provide under its original CARES Act Student Aid Portion award.

In accordance with the criteria set forth in the State of Wisconsin State Single Audit Guidelines, the Academic Excellence Scholarship, Talent Incentive Program Grant and the Marquette University Dental Services Grant were considered major state programs for the year ended June 30, 2022.

MARQUETTE UNIVERSITY

Notes to Schedules of Expenditures of Federal and State Awards

Year ended June 30, 2022

(2) Summary of Significant Accounting Policies

The schedules are prepared on the accrual basis of accounting. Expenditures are recognized as incurred. The University's cost share amounts presented as a separate column within the schedules represents the University's matching portion related to those programs and such amounts are not included in the federal and state expenditures in the schedules. Negative amounts shown on the schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

(3) Indirect Costs

The University has a predetermined indirect cost rate that has been negotiated with the Department of Health and Human Services. The predetermined rate was based on prior University financial information. Approximately \$4.1 million of indirect costs were reimbursed to the University for the year ended June 30, 2022. The base rates for on- and off-campus research of modified total direct costs are listed below:

| Type | Effective period | | Rate percentage | Locations | Applicable to |
|---------------|------------------|----------|-----------------|------------|--------------------|
| | From | To | | | |
| Predetermined | 07/01/19 | 06/30/22 | 53.0 | on campus | Instruction |
| Predetermined | 07/01/19 | 06/30/22 | 53.0 | on campus | Organized Research |
| Predetermined | 07/01/18 | 06/30/22 | 24.0 | off campus | All Programs |

(4) Federal Student Loan Programs

The federal student loan programs listed below are administered directly by Marquette University, and balances and transactions relating to these programs are included in Marquette University's financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the schedules. The balance of loans outstanding at June 30, 2022 consists of:

| Agency/Program | Federal CFDA number | Balance of loans outstanding |
|--|---------------------|------------------------------|
| U.S. Department of Education: | | |
| Perkins | 84.037 | \$ 10,985,078 |

Notes to Schedules of Expenditures of Federal and State Awards

Year ended June 30, 2022

The University is responsible only for the performance of certain administrative duties with respect to the Federal Direct Loan program, and accordingly, these loans are not included in its financial statements. It is not practical to determine the balance of loans outstanding to students and former students of the University under the direct loan program.

(5) Settlement of Wisconsin Department of Health Services (DHS) Cost Reimbursement Awards

The University's settlement of DHS cost reimbursement awards presented in the Schedule of Expenditures of State Awards for the year ended June 30, 2022 are summarized as follows:

The Board of Trustees
Marquette University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Marquette University, which comprise the consolidated statement of financial position as of June 30, 2022, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated September 8, 2022, except as to note 17, which is as of April 27, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Marquette University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Marquette University's internal control. Accordingly, we do not express an opinion on the effectiveness of Marquette University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Marquette University's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Marquette University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Marquette University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal and State Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance; and Report on Schedule of Expenditures of State Awards as Required by the State Single Audit Guidelines

The Board of Trustees
Marquette University:

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal Program

We have audited Marquette University's (the University) compliance with the types of compliance requirements described in Part 3 of the Office of Management and Budget (OMB) *Compliance Supplement (Compliance Supplement) and the State Single Audit Guidelines for Wisconsin* that could have a direct and material effect on each of the University's major federal and state programs for the year ended June 30, 2022. The University's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the *State Single Audit Guidelines for Wisconsin*. Our responsibilities under those standards, the Uniform Guidance, and the *State Single Audit Guidelines for Wisconsin* are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal and state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines for Wisconsin* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, the *State Single Audit Guidelines for Wisconsin* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *State Single Audit Guidelines for Wisconsin*, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *State Single Audit Guidelines for Wisconsin*. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance and Report on Schedule of Expenditures of State Awards Required by the *State Single Audit Guidelines for Wisconsin*

We have audited the consolidated financial statements of the Marquette University as of and for the years ended June 30, 2022 and 2021, and have issued our report thereon dated September 8, 2022, except to note 17 and our report on the Supplementary Schedule of Financial Responsibility Data, which are as of April 27, 2023, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and the accompanying schedule of expenditures of state awards is presented for purposes of additional analysis as required by the *State Single Audit Guidelines for Wisconsin* and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards and the schedule of expenditures of state awards are fairly stated in all material respects in relation to the consolidated financial statements as a whole.
