Report of Independent Auditors

The Management and The Board of Trustees Baylor College of Medicine

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Baylor College of Medicine, which comprise the consolidated balance sheets as of June 30, 2021 and 2020, and the related consolidated statements of activities, and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Baylor College of Medicine as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. We have not performed any procedures with respect to the audited consolidated financial statements subsequent to October 15, 2021. The accompanying Schedule of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated October 15, 2021 on our consideration of the Baylor College of Medicine's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Baylor College of Medicine's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Baylor College of Medicine's internal control over financial reporting and compliance.

Ernst + Young LLP

October 15, 2021, except for our report on the Schedule of Expenditures of Federal Awards, for which the date is July 18, 2022

Notes to Consolidated Financial Statements

June 30, 2021

1. Organization

Baylor College of Medicine (the College or Baylor) is one of the leading health science universities and biomedical research institutions in the United States. Founded in 1900, Baylor owns and operates educational, research, and patient care facilities. The College is an institution comprising four separate colleges, including a medical school, a graduate school of biomedical sciences, a health professions school, and a national school of tropical medicine. Baylor trains more than 3,500 medical, graduate, nurse anesthesia, physician assistant, orthotics and prosthetics, and genetics counseling students, as well as residents and postdoctoral fellows, each year. The College ranks among the nation's top biomedical research institutions and the country's top medical schools. Finally, the College provides extensive patient care services through its wholly owned Baylor Medicine Clinic and through faculty physician service agreements primarily with eight independently owned and operated affiliated hospitals, including Baylor St. Luke's Medical Center; see description below.

Baylor's main campus is located in the Texas Medical Center, a 700-acre complex of approximately 50 independent institutions and state instrumentalities in Houston, Texas. The College is the only private medical school in the southwestern United States.

Effective January 1, 2014, St. Luke's Health System Corporation (n/k/a CHI St. Luke's Health), a Texas nonprofit corporation exempt from federal income tax under Section 501(a) of the Internal Revenue Code of 1986, as amended (the Code), as an organization described in Section 501(c)(3) of the Code, conveyed to the College a 35% membership interest in St. Luke's Medical Center (n/k/a CHI St. Luke's Health Baylor College of Medicine Medical Center), a Texas nonprofit corporation exempt from federal income tax under Section 501(a) of the Code, as an organization described in Section 501(c)(3) of the Code. CHI St. Luke's Health retained a 65% membership interest in CHI St. Luke's Health Baylor College of Medicine Medical Center (BSLMC), which owns and operates a quaternary care hospital in the Texas Medical Center; other land and improvements in and near the Texas Medical Center; and ambulatory clinics located in the Texas Medical Center area, Tanglewood, and Pearland. As consideration, the College contributed to BSLMC cash, certain real property, and improvements, including a portion of the real property generally known as the McNair Campus; the hospital/clinic building located on the McNair Campus (except for a portion of the top five floors to be used for the College's clinical operations and a conference center on the first floor); and, effective February 16, 2015, the ambulatory surgery center located in the Lee and Joe Jamail Specialty Care Center. BSLMC sold the O'Quinn Medical Tower in 2016. The College and CHI St. Luke's Health share governance of BSLMC: each member appoints, and has the unilateral ability to remove, six voting board members and one nonvoting board member. Doing business under the name Baylor St. Luke's Medical Center, the hospital serves as the home of most of the College's medical doctors dedicated to caring for private adult inpatients.

Notes to Consolidated Financial Statements (continued)

1. Organization (continued)

Effective February 2, 2015, the College formed a joint venture with H.U. Group (HUG, formerly Miraca Holdings, Inc.), a company based in Tokyo, Japan, and traded on the Tokyo Stock Exchange. HUG is dedicated to in vitro diagnostic, clinical laboratory testing, and other health-care-related businesses through its subsidiaries, such as Fujirebio Inc., one of the major Japanese domestic in vitro diagnostic reagent manufacturers, and SRL, Inc., the largest clinical laboratory testing company in Japan. Under the agreement, the College contributed its clinical genetics diagnostic laboratories business (including leases, equipment, receivables, other contracts, and certain employees) into a subsidiary company and conveyed a 60% membership interest in the subsidiary to a HUG affiliate for \$135.9 million in cash. The College retained a 40% membership interest. The College and the HUG affiliate share governance of the joint venture, called Baylor Miraca Genetics Laboratories, LLC (Baylor Genetics), a Texas limited liability company, and the College retained certain approval rights over aspects of Baylor Genetics that relate to the College's mission.

2. Summary of Significant Accounting Policies

Basis of Accounting and Reporting

The accompanying consolidated financial statements of Baylor have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). The accompanying consolidated financial statements include the accounts of all entities in which Baylor has a significant financial interest and over which Baylor has control. All intercompany accounts and transactions have been eliminated upon consolidated financial statements. The Foundation) is consolidated in the College's consolidated financial statements. The Foundation is a Texas nonprofit corporation organized exclusively to aid, support, and maintain the College through contributions received from third-party donors. Baylor's membership interests in BSLMC and Baylor Genetics are included in the College's consolidated financial statements as equity method investments.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Based on the existence or absence of donor-imposed restrictions, Baylor classifies resources into two categories: net assets without donor restrictions and net assets with donor restrictions.

Net assets without donor restrictions are free of donor-imposed restrictions. All revenues, gains, and losses that are not restricted by donors are included in this classification. All expenditures are reported in the without donor restrictions category since the use of restricted gifts and pledges in accordance with donors' stipulations results in the release of the restriction. Net assets without donor restrictions may be designated for specific purposes by the College's Board of Trustees.

Net assets with donor restrictions are subject to donor-imposed restrictions. Some donor-imposed restrictions expire with the passage of time or can be satisfied by action of the College. Other donor-imposed restrictions are perpetual in nature. These net assets may include unconditional pledges, interests in trusts held by others, accumulated appreciation on donor-restricted endowments that have not yet been appropriated by the Board of Trustees for distribution, and donor-restricted endowments (at historical value). Generally, the donors of these assets permit the College to use a portion of the income earned on related investments for specific purposes.

Expirations of donor-imposed restrictions on net assets (i.e., the passage of time along with the annual board approval of the endowment spending rate and/or fulfilling donor-imposed stipulations) are reported as net assets released from restrictions between the applicable classes of net assets on the consolidated statement of activities. Net assets with donor-imposed restrictions related to the purchase or construction of property and equipment are released when the property or equipment is placed in service, unless donor stipulations limit the use of the assets for a period of time or for a particular purpose.

Net assets with donor restrictions as of June 30, 2021 and 2020, are principally restricted for research and education.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses during the reporting period, as well as the disclosure of contingent assets and liabilities. Actual results ultimately could differ from management's estimates and assumptions.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Cash Equivalents

Cash and cash equivalents are liquid assets with minimal interest rate risk and original maturities of three months or less when purchased. Such assets, reported at fair value, primarily consist of depository account balances, money market funds, and short-term U.S. treasury securities

Restricted cash and cash equivalents represent amounts set aside for long-term investments or posted as collateral as required by interest rate swap agreements. These amounts are included in investments, including securities loaned and interest rate swap liability, net on the consolidated balance sheets.

Patient Receivables

Patient receivables are reported at the amount that reflects the consideration to which the College expects to be entitled in exchange for providing physician health care services. Patient receivables include discounts for contractual, implicit price concession and charity adjustments and are recorded on an accrual basis at net realizable value on the consolidated balance sheets. The estimates of implicit price concessions for patient receivables are based primarily on the aging of the receivables and the College's historical collection and write-off experience (see Note 4).

Affiliate Receivables

Affiliate receivables consist of amounts owed by various affiliated hospitals to which the College provides medical, professional, and supervisory staff to deliver patient care, teaching, and staff leadership services. These receivables are recorded on an accrual basis at net realizable value on the consolidated balance sheets.

Grants and Contracts, and Other Receivable

Grants and contracts, and other receivable primarily represent unreimbursed grant and contract expenditures from the federal government, principally the National Institutes of Health, and other nonfederal sources for payment for research provided by the College. These amounts are recorded on an accrual basis at net realizable value on the consolidated balance sheets.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Pledges Receivable

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in gifts and pledges revenue.

An allowance is made for uncollectible pledges receivable based upon the College's analysis of past collection experience and other judgmental factors.

Investments

The College's investments in marketable equity and fixed-income securities are recorded at fair value. Non-marketable securities are securities for which no public market exists; substantially all of these securities are accounted for at fair value using the practical expedient of net asset value per share or the equivalent. These non-marketable securities include investments in private equity limited liability corporations or partnerships. Other investments are stated at cost or fair value at the date of the acquisition or donation.

Realized gains and losses arising from the sale or other disposition of investments have been accounted for as changes in net assets without donor restrictions unless restrictions have been imposed by the donor. Certain investments are pooled with each fund subscribing to or disposing of units on the basis of the market value per unit, which is computed monthly. Realized gains and losses arising from the sale of securities are determined on an average cost basis.

The College's intent is to maintain a long-term investment portfolio to support research, education, and other activities. Accordingly, the total investment return is reported on the consolidated statements of activities in two categories. The investment return allocated to operating activities is determined by a formula, which involves allocating 5% of a trailing 28-quarter average market value of the endowment assets. Management believes this return is approximately equal to the real return the College expects to earn on its investments over the long term. The unallocated investment return, included in nonoperating activities on the consolidated statements of activities, represents the difference between the total investment return and the amount allocated to operating activities, net of investment costs.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Securities Lending

The College participates in securities lending transactions whereby a portion of its investments are loaned, through its agent, under respective borrowing agreements to various parties. In return, the parties provide collateral for the securities loaned, usually on a short-term basis. The collateral consists of eligible securities that meet credit quality criteria and diversification limits in accordance with noncash collateral guidelines selected by the College. The College's claim on the collateral is limited to the market value of the loaned securities. Market values of the securities on loan and the collateral are monitored each business day by the agent to ensure the collateral is maintained at levels of at least 100% of the fair value of the securities on loan. Upon termination of a borrowing agreement or as deemed necessary by the agent, the agent is to deliver identical collateral or a portion of it to satisfy the College's obligations with the borrower. The collateral and the obligation of the College to return the collateral is reported as an asset and liability, respectively, on the consolidated balance sheets at the fair value of the underlying securities. The fees received for these transactions are recorded as investment income.

Property and Equipment

Purchased property, plant, and equipment are recorded at cost, including, where appropriate, capitalized interest and software costs. Donated assets are recorded at fair value at the date of donation. Repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method to allocate the cost of various classes of assets over their estimated useful lives. Property, plant, and equipment are removed from the accounting records at the time of disposal.

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment charge is recognized when the fair value of the asset or group of assets is less than the carrying value.

Deferred Revenue

Deferred revenue consists of amounts received from grant and contract sponsors, affiliated hospitals, and others for which the College has not yet fulfilled its obligations. These amounts will be recognized in future periods to support the College's medical, education, and research missions once the obligations have been satisfied.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Assets Held on Behalf of Others

The College holds assets received from others and agrees to use those assets on behalf of or transfer the assets, return on investment of the assets, or both to a specified beneficiary. For the years ended June 30, 2021 and 2020, pooled investments in the amount of \$42.1 million and \$31.1 million, respectively, were held on behalf of the state of Texas (see Note 6). The College also held funds associated with a cooperative agreement with the federal government in the amount of \$11.0 million for the years ended June 30, 2021 and 2020. These funds are appropriated for the use of a federal government facility.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value, requires expanded disclosures about fair value measurements, and establishes a three-level hierarchy for fair value measurements based on the observable inputs to the valuation of an asset or a liability at the measurement date. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. ASC 820 prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

Furthermore, ASC 820 applies to certain investment funds that do not have readily determinable fair values, including private investments, hedge funds, real estate, and other funds. ASC 820 allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. See Note 12 for further discussion of fair value measurement.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Debt Portfolio Financial Instruments

Long-term debt is reported at carrying value. The College employs derivatives in the form of fixed payor swaps, primarily interest rate exchange agreements, to help manage interest rate risks associated with variable rate debt. Derivative financial instruments are reported at fair value with any resulting gain or loss recognized as a nonoperating item on the consolidated statements of activities. Periodic net cash settlement amounts with counterparties are accounted for as adjustments to interest expense on the related debt.

Parties to interest rate exchange agreements are subject to risk for changes in interest rates, as well as risk of credit loss in the event of nonperformance by the counterparty. Baylor deals only with high-quality counterparties that meet rating criteria for financial stability and creditworthiness. Additionally, certain agreements require the posting of collateral when amounts subject to credit risk under the contracts exceed specified levels. Collateral levels are tied to the College's credit rating. The College records its interest rate swap liability net of collateral posted.

Operating Results

Operating results are broadly defined as changes in net assets without donor restrictions from operating activities and are reported as operating revenues in excess (deficit) of expenses on the consolidated statements of activities. Net assets without donor restrictions are also affected by nonoperating activities, which include gains on formation of joint ventures; equity in earnings or losses that are not integral to operations; investment income/loss and other, net of distributions; change in the fair value of interest rate swap agreements; gifts and pledges for plant facilities; and certain other nonrecurring items.

Charity Care

The College is committed to providing assistance to financially indigent patients in the community who require care and services at reduced or no cost, as determined by its affiliated hospitals. Records are maintained to identify and monitor the level of charity care the College provides. These records include the amount of charges forgone and estimated costs for services and supplies furnished under its charity care policy. Costs incurred are estimated based on a Medicare cost factor applied to total gross charges for indigent patients after reducing costs for any payments received. The level of charity care provided, based on estimated costs, during fiscal years 2021 and 2020 was \$47.1 million and \$62.3 million, respectively.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Endowment Investments and Income Distribution

The College's investments are managed to achieve the maximum long-term return. Operating investment income distribution and other consists of amounts distributed from the College's endowment funds and from income on operating investments. The amount distributed from the endowment funds to support current operations is determined by the Board of Trustees and is based on a 5% distribution rate applied to a trailing 28-quarter average market value of the endowment portfolio. The Board of Trustees may, in its discretion, designate additional funds to be used for operating purposes. The primary objective of the 5% endowment distribution methodology is to reduce the impact of capital market fluctuations on operational programs. Nonoperating investment income (loss) consists of dividends, interest, and realized and unrealized gains and losses on endowed investments, net of distribution to operations and investment expenses.

Leases

The College recognizes right-of-use (ROU) assets and related lease liabilities in accordance with Accounting Standards Update No. (ASU) 2016-02, *Leases (Topic 842)*.

The College leases various equipment and facilities, including office space. Operating and financing leases with an initial term greater than 12 months are recognized as ROU assets and lease liabilities on the consolidated balance sheets. Financing ROU assets and liabilities are reported as part of property and equipment, net and accounts payable and other liabilities, respectively. ROU assets and related liabilities are recognized on the commencement date on the consolidated balance sheets based on future lease payments, and discounted based on the applicable risk-free interest rate, as permitted under the standard for nonpublic business entities.

Lease payments under certain agreements may escalate over the lease term either by a fixed percentage or a fixed dollar amount. Certain leases may provide for variable lease payments in the form of payments based on index-based (e.g., the U.S. Consumer Price Index) adjustments to lease payments. Baylor's lease terms may include options to extend or terminate the lease. Such options are included in the measurement of the ROU asset and liability, provided the existence of reasonable assurance that the College will exercise the option. The College has no leases that contain residual value guarantees provided by the College as a lessee.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Income Taxes

The College is a tax-exempt organization as described in Section 501(c)(3) of the Code and is generally exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Baylor is, however, subject to federal and state income tax on unrelated business income and files unrelated business income tax and other information returns as required by government authorities. Management annually reviews its tax positions and has determined that there are no material uncertain tax positions that require recognition on the accompanying consolidated balance sheets as of June 30, 2021 or 2020.

The Tax Cuts and Jobs Act (the TCJA) was enacted on December 22, 2017. For tax-exempt entities, the TCJA requires organizations to pay excise tax on compensation and net investment income after meeting certain thresholds and record income or losses from unrelated business activities on an activity-by-activity basis, among other provisions. As of and for the year ended June 30, 2021, the College has followed regulations and made reasonable estimates of the provision for income taxes; the compensation excise tax; and the effects, if any, on existing deferred tax balances based on accounting guidance included in ASC 740, *Income Taxes*.

COVID-19

In March 2020, the World Health Organization designated COVID-19 as a global pandemic. Clinical patient volumes, research activities, and related revenue of these services were most significantly impacted beginning in mid-March 2020 as various policies were implemented by federal, state, and local governments in response to the COVID-19 pandemic, including stay-at-home orders, business closures, social distancing, and suspension of elective and nonemergent procedures. The College's Education and Public Services missions were less impacted financially from the pandemic. During this time, the College experienced supply chain disruptions, including significant price increases in medical supplies, particularly personal protective equipment. The pandemic also created significant volatility in the U.S. and global financial markets, which impacted the College's investment portfolio.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In response to the pandemic, federal and state governments passed legislation and took other administrative actions to provide assistance to organizations impacted by the pandemic. Sources of relief included the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act), which was enacted on March 27, 2020. During fiscal periods 2020 and 2021, the College received a total of \$26.6 million of provider relief funds under the CARES Act. The College has recognized these funds within other revenue in the amounts of \$11.0 million and \$3.4 million for the years ended June 30, 2021 and 2020, respectively, and expects to return \$1.1 million within the 2022 fiscal year. The U.S. Department of Health and Human Services (HHS) expects providers will only use the distributed funds for health-care-related expenses or lost revenue attributable to COVID-19 that are not reimbursed or obligated to be reimbursed from other sources. HHS's interpretation of the underlying terms and conditions of such payments, including auditing and reporting requirements, has evolved since the original requirements were released. Additional guidance or new and amended interpretations of existing guidance on the terms and conditions of such payments may result in changes in the College's estimates, and any such changes may result in the College's inability to recognize additional payments or may result in the derecognition of amounts recognized. The remaining payments of \$12.2 million received by the College are recorded in accounts payable and other liabilities and represent the estimated amount that could potentially be adjusted should guidance and reporting requirements change.

The College continues to evaluate the recognition of these funds as new guidance and reporting requirements become available during fiscal year 2022.

The CARES Act also established the Higher Education Emergency Relief Fund (HEERF I). Subsequent to HEERF I, the Coronavirus Response and Relief Supplemental Appropriations Act and the American Rescue Plan established HEERF II and HEERF III (collectively, HEERF) to provide additional funding to institutions and students. The College was made available a total of \$1.9 million under HEERF to distribute emergency financial aid grants to students and to cover institutional costs associated with the disruption of campus operations due to COVID-19. Of these funds, the College has drawn \$0.8 million during fiscal year 2021. The remaining funds available to the College are expected to be drawn in fiscal period 2022.

The College has applied for reimbursement of qualifying expenses under the Federal Emergency Management Agency Disaster Relief Fund (FEMA). During the 2021 fiscal period, FEMA obligated \$1.5 million to reimburse the College for these expenses. As of June 30, 2021, the obligated funds were pending review and distribution by the Texas Division of Emergency Management. The College has not recognized these funds as of June 30, 2021.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The College took additional measures to improve its liquidity. Beginning March 2020, the College began deferring the employer's portion of payroll taxes as allowed under CARES Act Section 2302. As of June 30, 2021, the College has deferred and recorded \$34.1 million of these taxes in accounts payable and other liabilities. Fifty percent of the tax deferral is required to be paid by December 31, 2021, and the remainder is to be paid by December 31, 2022.

Section 2301 of the CARES Act allows for the Employee Retention Credit, a refundable tax credit to encourage eligible organizations whose operations were impacted by COVID-19 to keep employees on their payroll. The College is currently evaluating recovery of costs through this credit.

Effective February 1, 2021, the College has extended the supplemental line of credit. See Note 10 for discussion of the College's credit facility.

Subsequent Events

The College evaluated events and transactions occurring subsequent to June 30, 2021 through October 15, 2021, the date the accompanying consolidated financial statements were issued. During this period, there were no subsequent events that required recognition in the accompanying consolidated financial statements, nor were there any additional nonrecognized subsequent events that require disclosure.

Pending Accounting Pronouncements

In September 2020, the FASB issued ASU 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets.* ASU 2020-07 requires not-for-profit entities to present contributed nonfinancial assets as a separate line item on the statement of activities, apart from contributions of cash and other financial assets. The ASU is effective for the College starting July 1, 2021, including interim periods within the reporting period, and will be applied on a retroactive basis. The College is currently evaluating the impact this guidance will have on its consolidated financial statements.

Notes to Consolidated Financial Statements (continued)

3. Equity Investments in Unconsolidated Affiliates

The College has a 35% membership interest in BSLMC, which operates as a tax-exempt entity described in Section 501(c)(3) of the Code. The College's investment in BSLMC, which is accounted for under the equity method, was \$269.6 million and \$272.1 million at June 30, 2021 and 2020, respectively. The College recorded earnings from its investment in BSLMC of \$3.1 million in fiscal year 2021, and a loss of \$18.5 million in fiscal year 2020. The College received cash distributions from BSLMC totaling \$5.6 million and \$11.3 million in fiscal years 2021 and 2020, respectively. These contractual distributions expired in December 2020. A summary of BSLMC's reported total assets, liabilities, and net assets at June 30 is as follows (in thousands):

		2021	2020	
Total assets	\$ 1	1,060,723	\$ 1,068,92	27
Total liabilities Total net assets	\$	179,743 880,980	\$ 191,46 877,46	
Total liabilities and net assets	\$ 1	/	\$ 1,068,92	

A summary of BSLMC's reported revenues, expenses, and net income (loss) for the years ended June 30 is as follows (in thousands):

	2021	2020
Revenue	\$ 1,062,600	\$ 952,835
Expenses	(1,062,315)	(1,005,239)
Operating income (loss)	285	(52,404)
Nonoperating income	5,674	6,913
Excess (deficit) of revenues over expenses	\$ 5,959	\$ (45,491)

Notes to Consolidated Financial Statements (continued)

3. Equity Investments in Unconsolidated Affiliates (continued)

The College has a 40% membership interest in Baylor Genetics, which operates as a Texas limited liability company. The College's investment in Baylor Genetics, which is accounted for under the equity method, was \$49.9 million and \$46.1 million at June 30, 2021 and 2020, respectively. The College recorded earnings from its investment in Baylor Genetics of \$1.8 million in fiscal year 2021, and a loss of \$8.5 million in fiscal year 2020. A summary of Baylor Genetics' reported total assets, liabilities, and shareholder's equity at June 30 is as follows (in thousands):

	 2021	2020
Total assets	\$ 31,026 \$	22,652
Total liabilities Total shareholder's deficit	\$ 48,110 \$ (17,084)	46,312 (23,660)
Total liabilities and shareholder's deficit	\$ 31,026 \$	22,652

A summary of Baylor Genetics' reported revenues, expenses, and net income (loss) for the years ended June 30 is as follows (in thousands):

	 2021	2020
Revenues Expenses	\$ 67,348 \$ (62,853)	29,918 (51,006)
Net income (loss)	\$ 4,495 \$	(21,088)

4. Revenue Recognition

ASC 606, Revenue from Contracts with Customers

Revenue is recognized when control of the promised services is transferred to the customers (students, patients, affiliated hospitals, and governmental entities) in an amount that reflects the consideration the College is entitled to receive in exchange for those services.

The timing of revenue recognition, billings, and cash collections results in accounts receivable and deferred revenue on the consolidated balance sheets. Receivables are recognized only to the extent that it is probable that the College will collect substantially all of the consideration to which the College is entitled in exchange for the services that will be transferred to the customer.

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

Tuition and Fees, Net

The performance obligation for tuition and fees, net relates to the training or educating of undergraduate medical, research graduate, and health profession students. Revenue is recognized ratably as services are rendered during the academic semester using the input method based on time elapsed over the academic semester.

The transaction price is the price of tuition net of scholarships, applicable discounts, and refunds.

The College's academic year is consistent with its fiscal year in which students are billed at the beginning of each semester within the fiscal period and payment is due before the semester ends, also within the fiscal period. The College does not receive advance payments from students prior to the start of the fiscal period. No accounts receivable or deferred liabilities related to tuition and fees were recorded within the accompanying consolidated balance sheets as of June 30, 2021 or 2020.

Medical Services, Net

Medical services, net consist of physician health care services in health care facilities, which include inpatient, outpatient, and ambulatory care facilities; physician practices; and other sites. Performance obligations include individual medical services provided to patients in both an inpatient and outpatient setting. Inpatient services are satisfied over time from patient admission to the point when services are no longer required, which is generally at the time of discharge. The inpatient medical services are recognized utilizing the input method of measuring progress, which is based on actual charges incurred. Outpatient services are satisfied at a point in time and revenue is recognized when control of services is transferred. The College believes this method provides a fair depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations. These services are considered to be a single performance obligation.

Because all of its performance obligations relate to contracts with a duration of less than one year, the College has elected to apply the optional exemption provided in Topic 606 and, therefore, is not required to disclose the aggregate amount of transaction price allocated to medical services performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The College uses a portfolio approach to account for categories of patient contracts as a collective group rather than recognizing revenue on an individual contract basis. The portfolios consist of major payor classes. Based on the historical collection trends and other analyses, the College believes that revenue recognized by utilizing the portfolio approach approximates the revenue that would have been recognized if an individual contract approach were used.

The College determines the transaction price of medical services revenue, which involves significant estimates and judgment, based on standard charges for goods and services provided, reduced by explicit and implicit price concessions, including contractual adjustments provided to commercial insurance carriers, health care maintenance organizations, and preferred provider organizations; discounts provided to uninsured and underinsured patients in accordance with policy; and/or implicit price concessions based on the historical collection experience of patient accounts. The majority of what historically was classified as provision for doubtful accounts is now treated as an implicit price concession factored into net medical service revenues.

In addition, the College determines the transaction price associated with services provided to patients who have third-party payor coverage with Medicare and Medicaid based on reimbursement terms per contractual agreements, discount policies, and historical experience.

Laws and regulations governing Medicare and Medicaid programs are complex and subject to interpretation. The College believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs could have a material adverse or positive impact on prospective medical services revenues.

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

Management has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the payors. The composition of medical service revenue by payor was as follows (in thousands):

	 2021	2020
Managed care	\$ 89,988 \$	91,067
Medicare	71,425	66,704
Medicaid	52,744	52,193
Self-pay	11,038	7,359
Other	81,440	76,431
	\$ 306,635 \$	293,754

The composition of patient receivables (net of contractual allowance and implicit price concession) by payor at June 30 was as follows:

	Patient R	eceivables
	2021	2020
Managed care	69.5%	66.1%
Medicare	14.9	16.8
Medicaid	12.2	12.6
Self-pay	1.4	2.4
Other	2.0	2.1
	100.0%	100.0%

Affiliated Hospital Contracts

The College has affiliation agreements with hospitals, including, but not limited to, Texas Children's, Harris Health (formerly Harris County Hospital District), Baylor St. Luke's Medical Center, Michael E. DeBakey Veterans Affairs Medical Center, The Methodist Hospital, The Menninger Clinic, MD Anderson Cancer Center, Children's Hospital of San Antonio, and The Institute for Rehabilitation and Research. Under the terms of these agreements, the College conducts administrative, research, and educational activities on behalf of these hospitals.

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

The College provides residents to the affiliated institutions; the residents in turn, provide patient care services as part of their medical training. The College satisfies this performance obligation over time as the hospitals receive the benefit of professional services. Affiliated hospital contract revenue is recognized as time elapses for actual personnel and operating costs incurred less collections that are received by the College from patient payors.

Amounts are billed periodically in accordance with agreed-upon contractual terms. The timing of revenue recognition, billings, and cash collections results in billed and unbilled receivables and customer advances and deposits on the consolidated balance sheet. These assets and liabilities are reported on the consolidated balance sheet on a contract-by-contract basis at the end of each reporting period. Affiliate receivables in the amount of \$111.5 million and \$112.5 million were recorded as of June 30, 2021 and 2020, respectively. Affiliate deferred revenue in the amount of \$13.6 million and \$8.8 million is included on the accompanying consolidated balance sheets as of June 30, 2021 and 2020, respectively.

Following were the affiliates that accounted for greater than 10% of total affiliated contract revenue for the years ended June 30:

	2021	2020
BSLMC	18.9%	17.6%
Harris Health	18.2	16.6
Texas Children's	49.7	51.1

Following were the affiliates that accounted for greater than 10% of total affiliated contract receivables as of June 30:

	2021	2020
BSLMC	27.8%	31.8%
Texas Children's	52.3	46.6

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

Other

Other revenue primarily consists of several other exchange contracts, including academic program fees from the College's affiliates, royalties on certain licenses of intellectual property and the Baylor College of Medicine brand, and various other types of income. Depending on the program, revenue is recognized at a point in time or over time as obligations are met.

The College recognized \$9.6 million and \$51.1 million of royalty income in consideration for an exclusive license agreement of Baylor intellectual property during fiscal years 2021 and 2020, respectively. The College recognized CARES Act funding of \$11.0 million and \$3.4 million during fiscal years 2021 and 2020, respectively (see Note 2).

ASC 958-605, Not-for-Profit Entities – Revenue Recognition

State appropriations – The College received funding in the form of appropriations from the State of Texas Higher Education Coordinating Board (the Coordinating Board) for the purpose of training or educating Texas resident undergraduate medical students and graduate medical residents in the amount of \$46.4 million and \$26.1 million in 2021 and 2020, respectively. The College expended \$228.9 million and \$231.0 million for fiscal years 2021 and 2020, respectively, to train and educate undergraduate medical students and graduate medical residents. Expenditures used to satisfy these appropriations are reflected on the schedule of functional expenses (see Note 13) as instruction expenditures and certain amounts related to the instruction of graduate medical residents that are included in affiliated hospital programs expenditures.

The Coordinating Board has approved the transfer of the College's state funding to the Texas Health and Human Services Commission (HHSC) for state fiscal years 2021 and 2020. The purpose of this intergovernmental transfer is to allow the use of the College's state funding to draw down federal dollars under the Section 1115 Medicaid Waiver Program (1115 Waiver).

Because this is a hospital-based program, the College has signed agreements to collaborate with Texas Children's, Houston Methodist Hospital, and CHI St. Luke's Health, pursuant to which these affiliates will transfer to the College the amounts the College normally would receive from the Coordinating Board. All agreements include a provision that the original appropriation will be returned to the College if the federal match anticipated under the 1115 Waiver does not occur. Amounts under these arrangements are recognized as affiliated hospital contracts, of which the College recognized \$2.8 million and \$20.4 million during the years ended June 30, 2021 and 2020, respectively.

Notes to Consolidated Financial Statements (continued)

4. Revenue Recognition (continued)

Following the end of the Coordinating Board's involvement in the 1115 Waiver with HHSC, effective August 31, 2020, the Legislature's appropriation has been sent directly to the College in support of undergraduate medical education. These amounts are included in state appropriations for the year ended June 30, 2021.

Government and private grants and contracts – Government and private grants and contracts represent revenue from grants and contracts with federal, state, and local governments; private foundations; and corporate sponsors primarily for research and education activities conducted by the College. Direct recoveries are recognized when allowable direct expenditures for salaries and supplies are incurred under the terms of each sponsor's agreement. Indirect recoveries represent reimbursement of the costs of facilities and administrative (F&A) overhead associated with government and private grants and contracts. Indirect recoveries are recognized as revenue as the corresponding allowable direct grant and contract expenses are incurred under the terms of each sponsor's agreement. Baylor's federal F&A costs recovery rate for on-campus research was 60.0% in both fiscal years 2021 and 2020. Baylor's federal F&A costs recovery rate for off-campus research was 26.0% in both fiscal years 2021 and 2020.

Gifts and pledges – As pledges are made to the College, the intent of the donor, circumstances regarding the pledge, and any action taken by the College in response to the pledge are considered in determining whether the pledge is an unconditional promise to give or a conditional promise. Unconditional promises to give (pledges) are recognized as revenue without donor restrictions when the donor's commitment is received. Gifts and pledges with donor-imposed restrictions are recorded as revenue without donor restrictions if those restrictions are met in the same reporting period. Otherwise, gifts and pledges with donor-imposed restrictions are recorded as increases in net assets with donor restrictions.

Conditional promises (primarily bequest intentions) are not recorded until donor conditions are substantially met.

Gifts and pledges recorded as donor-restricted net assets are released from restrictions and recognized as net assets without restrictions after any donor stipulations are met. Gifts and pledges for plant facilities are released from restrictions and recognized as a nonoperating item only after resources are expended for the applicable plant facilities.

Notes to Consolidated Financial Statements (continued)

5. Pledges Receivable

Pledges receivable as of June 30 are expected to be realized as follows (in thousands):

	 2021	2020
In one year or less	\$ 24,407 \$	23,857
Between one year and five years	12,015	14,721
More than five years	10,620	11,600
Less present value discount	(4,958)	(6,352)
Total	\$ 42,084 \$	43,826

Included in pledges receivable at June 30, 2021 and 2020, is \$3.9 million and \$6.5 million, respectively, to support the development of BSLMC. As of June 30, 2021 and 2020, the College had received conditional promises to give and indications of intentions to give of approximately \$32.7 million and \$29.6 million, respectively, in addition to the amounts recorded as pledges receivable. These conditional promises to give will be recognized in the accompanying consolidated financial statements in the periods in which the conditions are substantially met.

6. Investments

Investments (including amounts for self-insurance) held by the College at June 30 are as follows (in thousands):

	 2021	2020
Pooled investments:		
Stocks	\$ 488,656	\$ 423,198
Bonds	106,073	97,083
Other short-term investments	73,025	50,571
International equities	481,622	287,343
Private equity securities	 521,408	348,384
Total pooled investments	 1,670,784	1,206,579
Other stocks	5,279	5,889
Real estate, at cost	2,656	2,656
Assets held in trust and other	 10,759	9,482
Total investments	\$ 1,689,478	\$ 1,224,606

Notes to Consolidated Financial Statements (continued)

6. Investments (continued)

In fiscal year 2000, the College received \$25.0 million to establish a fund for investing a portion of receipts paid to the state of Texas under a judgment rendered in the tobacco settlement (the tobacco funds). The College is responsible for the administration of the tobacco funds, which are invested along with the College's pooled investments; however, the College does not have title to the assets. As of June 30, 2021 and 2020, the value of the tobacco funds is included in pooled investments and a corresponding liability has been recorded in assets held on behalf of others to reflect that the College does not currently have an ownership interest.

The earnings of the tobacco funds are required to be remitted to the state of Texas, which, in turn, appropriates the earnings to the College to benefit programs in medical research, health education, and treatment. The distributions in the years ended June 30, 2021 and 2020, of \$3.6 million and \$3.8 million, respectively, are included in state appropriations on the consolidated statements of activities.

The U.S. and international financial markets have experienced significant volatility that has resulted in substantial fluctuations in equity markets in which the College invests. Market volatility can affect the value the College receives for its investments in future periods.

Investment performance for the years ended June 30 is summarized as follows (in thousands):

				20	21		
					W	ith Donor

7. Endowment Funds

The College's endowment consists of approximately 800 individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the College to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the College to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

ASC 958-205-45-28, Not-for-Profit Entities – Presentation of Financial Statements – Other Presentation Matters – Classification of Donor-Restricted Endowment Funds Subject to UPMIFA, provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) and improves disclosures about an organization's endowment funds (both donor-restricted and College-designated endowment funds).

Interpretation of relevant law – The College has established policy consistent with UPMIFA as adopted by the state of Texas. The College seeks to preserve the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. Accordingly, the College classified as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent at the time the accumulation is

Notes to Consolidated Financial Statements (continued)

7. Endowment Funds (continued)

added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified as permanent endowment is available for appropriation for expenditure by the College in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the College and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the College
- (7) The investment policies of the College

The College's endowment consists of the following net asset types at June 30 (in thousands):

	Without Donor estrictions	Re	With Donor estrictions	Total
2021 Donor-restricted endowment funds Board-designated endowment funds	\$ 687,309	\$	963,638 16,715	\$ 963,638 704,024
Total endowments at June 30, 2021	\$ 687,309	\$	980,353	\$ 1,667,662

Notes to Consolidated Financial Statements (continued)

7. Endowment Funds (continued)

	Without Donor estrictions	Re	With Donor estrictions	Total
2020				
Donor-restricted endowment funds	\$ _	\$	645,764	\$ 645,764
Board-designated endowment funds	 543,126		12,165	555,291
Total endowments at June 30, 2020	\$ 543,126	\$	657,929	\$ 1,201,055

Funds with deficiencies – From time to time, the fair value of the assets associated with the individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the College to retain as a fund of perpetual duration. As of June 30, 2021, the College had no deficiencies of this nature in donor-restricted endowment funds. As of June 30, 2020, the College had deficiencies of this nature in 70 donor-restricted endowment funds, which together had an original gift value of \$41.0 million, a fair value of \$38.8 million, and a deficiency of \$2.2 million. These deficiencies result from unfavorable market fluctuations and continued appropriation of certain programs that was deemed prudent by the Board of Trustees. The College maintains policies that permit spending from underwater endowment funds depending on the degree to which the fund is underwater, unless otherwise precluded by donor intent or relevant laws and regulations.

Return objectives and risk parameters – The College recognizes that the goals of endowment management are preserving the purchasing power of the assets and providing stable support for current programs. The primary focus of the College's endowment investment policy is structuring both the endowment's investment portfolio and its annual spending in order to balance the needs of current and future generations of scholars, scientists, patients, and teachers. Current annual spending from the endowment plus inflation combines to create a minimum target total return for the portfolio. The College expects its endowment funds, over time, to provide an average rate of return at least equal to the spending policy requirements plus the rate of inflation. Actual rates of return in any given year may vary from this amount.

Strategies employed for achieving objectives – The College employs strategies of investing in equity assets and some illiquid assets, broadly diversifying, and investing in assets that are out of favor. The College believes that these strategies will help achieve the total return target over the long term.

Notes to Consolidated Financial Statements (continued)

7. Endowment Funds (continued)

Spending policy and how the investment objectives relate to spending policy – The College's board-approved endowment earnings distribution policy, as permitted by UPMIFA, is based on a 5% distribution applied to a trailing 28-quarter average market value of the endowment assets for both fiscal years. In establishing this spending policy, the College considered the long-term expected return on its endowment assets and expects the current spending policy to preserve the real purchasing power of the endowment assets, while helping to maintain intergenerational value of the assets, as well as to provide additional real growth through new gifts and pledges and investment return.

The following endowment-related activities occurred during the years ended June 30 (in thousands):

		out Donor strictions	With Donor Restrictions	Total
Endowment net assets at June 30, 2020	\$	543,126	\$ 657,929	\$ 1,201,055

Notes to Consolidated Financial Statements (continued)

8. Financial Assets and Liquidity Resources

The table below represents financial assets and liquidity resources available for general expenditures within one year. The College defines general expenditures as the normal expenditures related to operations, excluding capital expenditures (in thousands).

	 2021	2020
Financial assets:		
Cash and cash equivalents	\$ 44,277	\$ 29,241
Accounts receivable	259,163	235,364
Pledges receivable	42,084	43,826
Notes receivable	17,389	17,866
Investments, including securities loaned of \$98,756 and		
\$17,089 for 2021 and 2020, respectively	1,689,478	1,224,606
Security lending collateral	108,711	17,701
Total financial assets	 2,161,102	1,568,604
Liquidity resource:		
Unused bank line of credit	250,000	205,000
Less those unavailable for general expenditures within		
one year due to:		
Contractual or donor-imposed restrictions	(980,353)	(657,929)
Investments with liquidity restrictions	(3,468)	(3,689)
Investments held in trust	(10,759)	(9,482)
Pledges receivable	(17,677)	(19,969)
Notes receivable	(17,389)	(17,866)
Assets held on behalf of others	(53,105)	(42,106)
Security lending collateral	 (108,711)	(17,701)
Financial assets not available for use within one year	 (1,191,462)	 (768,742)
Financial assets and liquidity resources available for	 	
general expenditures within one year	\$ 1,219,640	\$ 1,004,862

Notes to Consolidated Financial Statements (continued)

8. Financial Assets and Liquidity Resources (continued)

The College's endowment funds consist of donor-restricted endowments and funds designated by the board as endowment. Income from endowments is restricted for specific purposes. The College has a spending policy and \$59.3 million of appropriation from the endowments will be available in the next 12 months. As part of a liquidity management plan, the College has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. Cash in excess of daily requirements is invested in short-term investments. In the event of an unanticipated liquidity need, the College has a 4-year, \$150.0 million line of credit available for working capital purposes, and a supplemental 364-day, \$100.0 million line of credit related to the COVID-19 pandemic (see Note 10).

9. Property and Equipment

	Useful Life (Years)	2021	2020
Land	_	\$ 5,269 \$	5,269
Buildings	17-50	729,609	706,426
Land improvements	15-20	17,017	16,483
Leasehold improvements	5-15	98,619	96,587
Furniture and equipment	5-10	350,425	337,308
Computer software	3–5	110,211	109,108
-		 1,311,150	1,271,181
Less accumulated depreciation		(958,057)	(914,675)
-		353,093	356,506
Construction-in-progress		35,384	46,056
Leased right-of-use assets –		, ,	
financing		1,250	1,430
-		\$ 389,727 \$	403,992

Property and equipment consist of the following at June 30 (in thousands):

Notes to Consolidated Financial Statements (continued)

9. Property and Equipment (continued)

In accordance with ASC 360, *Property, Plant, and Equipment*, when events or changes in circumstances indicate the carrying amount of property and equipment, and intangible or other long-lived assets, related to specifically acquired assets may not be recoverable, an evaluation of the recoverability of currently recorded costs is performed. When an evaluation is performed, the estimated value of undiscounted future net cash flows associated with the asset is compared with the asset's carrying value to determine whether a write-down to fair value is required. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. No impairments were recognized for the years ended June 30, 2021 or 2020.

10. Bonds and Notes Payable

A summary of bonds and notes payable at June 30 is as follows (in thousands):

		2021	2020
2012A Bond Series			
In September 2012, the Harris County Cultural Education Facilities Finance Corp. issued for the College \$202.88 million of tax-exempt fixed rate bonds. Interest rates range from 3.00% to 5.00%, payable semiannually. See 2020	đ	¢	104.050
Bond Series note below on advance refunding of this series.	\$	- \$	184,950
2012 Bond Series			
In September 2012, the College issued \$109.1 million of taxable fixed rate bonds. The interest rate is 5.26%, payable semiannually. Mandatory annual redemption before maturity is required between November 15, 2038 and 2045, with final			
maturity on November 15, 2046.		109,121	109,121
2016 Bond Series			
In May 2016, the Harris County Cultural Education Facilities			
Finance Corp. issued for the College \$142.66 million of tax- exempt fixed rate bonds with multiple maturities. The interest rates range from 3.00% to 5.00%, payable semiannually.			
Beginning in November 2018, principal installments are due annually with final maturity at November 15, 2032. A			
majority of the outstanding bonds are callable beginning in May 2026.		121,765	129,040

Notes to Consolidated Financial Statements (continued)

10. Bonds and Notes Payable (continued)

	 2021	2020
2019A Bond Series		
In May 2019, the College retired \$75 million of tax-exempt		
floating rate notes with the Harris County Cultural Education		
Facilities Finance Corp. The Harris County Cultural		
Education Facilities Finance Corp. simultaneously issued		
\$75 million of tax-exempt floating rate notes. The interest rate resets monthly at a spread of 0.65% over the one-month		
London Interbank Offered Rate (LIBOR). The interest rate at		
June 30, 2021, was 0.715%. These bonds mature on		
November 15, 2046, but have an initial mandatory repurchase		
in July 2024.	\$ 75,000 \$	75,000
2019B Bond Series		
In May 2019, the College retired a \$75 million direct placement		
loan with Barclays Bank. The Harris County Cultural Education Facilities Finance Corp. simultaneously issued		
\$75 million of tax-exempt floating rate notes. The interest rate		
resets monthly at a spread of 0.65% over the one-month		
LIBOR. The interest rate at June 30, 2021, was 0.715%. This		
bond matures on November 15, 2046, but has an initial		
mandatory repurchase in July 2022.	75,000	75,000
2020 Bond Series		
In November 2020, the Harris County Cultural Education		
Facilities Finance Corporation issued for the College the		
Taxable Medical Facilities Mortgage Revenue Refunding		
Bonds for \$208.02 million. The interest rates, payable		
semiannually, range from 1.4% to 3.9%. Principal		
installments are due annually beginning in 2022 and through		
2030 with additional maturities due in 2037 and 2046. The		
proceeds from this issuance were used to advance refund the Bonds Series 2012A.	208,020	
	 <u> </u>	573,111
Total outstanding	500,900	5/5,111
Less deferred issuance costs	(4,366)	(4,123)
Plus original issue premium – 2012A Bond Series	_	7,779
Plus original issue premium – 2016 Bond Series	 8,454	9,928
	\$ 592,994 \$	586,695

Notes to Consolidated Financial Statements (continued)

10. Bonds and Notes Payable (continued)

As part of the taxable 2020 Bond Series issuance (2020 Bond Series), \$184.95 million of the 2012A Bond Series was legally defeased by establishing an irrevocable escrow account to fund the debt service until the applicable maturity or redemption dates.

The aggregate annual scheduled maturities of long-term debt as of June 30, 2021, for the next five fiscal years and thereafter are as follows (in thousands):

2022	\$ 7,545
2023	14,385
2024	14,880
2025	15,410
2026	15,980
Thereafter	 520,706
	\$ 588,906

In addition, the College must purchase a portion of its debt within these fiscal years unless remarketed, as described above.

Advance refunding tax-exempt debt is subject to arbitrage rules under Code Section 103(c) and related regulations that, in general, prohibit the yield realized from the investment of the proceeds of the new debt from exceeding the yield on the debt itself. Compliance with those rules is necessary for the interest on the debt to be exempt from federal income tax, and the College believes that it is in compliance with those rules.

As of June 30, 2021, all bonds outstanding have been issued under terms of the Second Amended and Restated Master Trust Indenture, dated November 1, 2020, between the Master Trustee and the College. The Master Trustee has a secured interest in all gross receipts and substantially all College land, including all improvements, appurtenances, personal property, and proceeds now or hereafter placed, acquired, or arising from the land.

Notes to Consolidated Financial Statements (continued)

10. Bonds and Notes Payable (continued)

Bond Compliance

As of June 30, 2021, the College is in compliance with financial covenants per the Second Amended and Restated Master Trust Indenture dated November 1, 2020.

Revolving Credit Line

The College maintains a \$150.0 million revolving line of credit that is scheduled to expire on June 30, 2024. No funds were outstanding under the line of credit as of June 30, 2021. The College had drawn \$45.0 million for working capital purposes as of June 30, 2020. Effective April 9, 2020, the College secured a supplemental 364-day, \$100.0 million line of credit that provides additional liquidity and flexibility during the COVID-19 pandemic. Effective February 1, 2021, the supplemental line of credit was extended for an additional year through April 8, 2022. As of June 30, 2021, there is no balance outstanding on this supplemental line of credit.

11. Derivative and Other Financial Instruments

The College has derivative financial instruments, as allowed by its Debt and Swap Policies' Guidelines, both of which specifically preclude their use for speculation. The College has three fixed payor swaps outstanding at June 30, 2021 and 2020. During fiscal year 2020, the College novated the front 12 years of its swap transaction with Barclays Bank PLC to PNC Bank, N.A. (PNC Bank) while the remaining years remained with Barclays as a forward starting swap with zero notional amount. As a result of the novation, the fixed rate paid by the College increased from 4.274% to 4.542% and all the posted collateral with Barclays Bank PLC was released. The PNC Bank swap transaction does not have any collateral posting requirements. Also during 2020, the College executed an amendment to its outstanding swap transaction with Bank of America, N.A. increasing the collateral posting threshold from \$20.0 million to \$30.0 million. The fixed rate paid by the College increased from 4.443% to 4.554%. The notional amount reduction for the Bank of America, N.A. swap in fiscal year 2022 will be \$0.5 million. The notional increase in fiscal year 2022 will be \$0.5 million for the PNC Bank swap.

The College has not elected hedge treatment of these swap agreements; as such, the change in the fair value of interest rate swaps is recorded in nonoperating unrealized loss on interest rate swaps on the consolidated statements of activities and as an adjustment to reconcile operating activity on the consolidated statements of cash flows. These long-dated swaps have a predetermined annual notional amortization or accretion that occurs in November each year.

Notes to Consolidated Financial Statements (continued)

11. Derivative and Other Financial Instruments (continued)

The following table summarizes the fair value from the College's perspective at June 30, and the income (loss) recorded related to the interest rate swap agreements as of and for the years ended June 30 (dollars in thousands):

	B	arclays			Ban	k of America/	
Counterparty	Ba	Bank PLC PNC Bank			Μ	errill Lynch	Total

Gain (loss) recorded:							
2021	\$	6,446	\$	8,920	\$	5,385	\$ 20,751
2020		21,095		(46,314)		(8,017)	(33,236)

12. Fair Value of Assets and Liabilities

The estimated fair values of all significant financial instrument amounts have been determined by the College using available market information and appropriate valuation methodologies. The estimates are not necessarily indicative of the amounts the College could realize in a current market exchange.

The carrying amounts of cash and cash equivalents, accounts receivable, patient accounts receivable, accounts payable, and short-term line of credit approximate fair value because of their short maturity.

The College's bonds payable are reported at carrying value (par) net of unamortized premiums/ discounts.

Notes to Consolidated Financial Statements (continued)

12. Fair Value of Assets and Liabilities (continued)

The College records investments, investments loaned under its security lending agreements, the related payable under security lending agreements, and its bond interest rate swap instruments at fair value in accordance with ASC 820.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The statement establishes consistency and comparability by providing a fair value hierarchy that prioritizes the inputs to valuation techniques into three broad levels, which are described below.

Level 1 – Inputs are quoted market prices in active markets for identical assets or liabilities (these are observable market inputs) that the College has the ability to access at the reporting date.

Level 2 – Inputs are other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset or liability, including quoted market prices for similar assets in active markets, quoted prices for identical or similar assets in markets in which there are few transactions, inputs other than quoted prices that are observable for the asset, and inputs that are derived from observable market data by correlation or other means.

Level 3 – Inputs are generally unobservable market inputs that typically reflect the entity's estimate of assumptions that market participants would use in pricing the asset or liability (used when little or no market data is available).

ASC 820 requires the use of observable market inputs (quoted market prices) when measuring fair value whenever possible and requires Level 1 quoted prices to be used to measure fair value whenever possible.

ASC 820 provides guidance for estimating the fair value of investments in certain entities that calculate net asset value per share (or its equivalent). As such, the College utilizes net asset value as a practical expedient of fair value and other available information to determine fair value for investments meeting the prescribed requirements.

Notes to Consolidated Financial Statements (continued)

12. Fair Value of Assets and Liabilities (continued)

Level 1 investments are able to be liquidated as of the reporting date at published market values. Level 2 and 3 investments may contain restrictions on the ability to liquidate assets at the reporting date. Investments that can be liquidated within 90 days of the reporting date at net asset value or its equivalent are classified as Level 2 investments. Investments classified as Level 3 have significant liquidity restrictions that would prevent redemption within 90 days of the reporting date, if at all. The following tables do not include private equity investments of \$521.4 million and \$365.5 million that are measured at fair value using net asset value as a practical expedient.

Financial assets and liabilities included in the College's consolidated financial statements and measured at fair value on a recurring basis as of June 30 are classified based on the applicable valuation technique level in the following tables (in thousands):

		Total 2021		Quoted Prices in Active Markets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant nobservable Inputs (Level 3)
Assets: Cash and cash equivalents U.S. equities International equities Fixed income Security lending collateral	\$	73,025 497,319 481,622 106,073 108,711 1 266 750		73,025 436,644 322,855 26,734 	\$	60,675 158,767 79,339 108,711 407 492	\$	- - - - -

	\$	236,115	\$	42,146	\$	193,969	\$	_

Notes to Consolidated Financial Statements (continued)

12. Fair Value of Assets and Liabilities (continued)

	Total 2020	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant nobservable Inputs (Level 3)
Assets:				
Cash and cash equivalents	\$ 50,571	\$ 50,571	\$ —	\$ _
U.S. equities	423,198	283,415	139,783	_
International equities	287,343	199,087	88,256	_
Fixed income	97,083	24,379	72,704	_
Security lending collateral	17,701	_	17,701	—
	\$ 875,896	\$ 557,452	\$ 318,444	\$ _
Liabilities:				
Interest rate swap liability	\$ 106,009	\$ _	\$ 106,009	\$ _
Payable under security				
lending agreements	17,701	_	17,701	_
Assets held on behalf of				
others (state tobacco funds)	31,145	31,145	_	_
	\$ 154,855	\$ 31,145	\$ 123,710	\$ _

Cash and cash equivalents and U.S. and international equities included in Level 1 are measured using quoted market prices in active markets for the identical equities. U.S. and international equities and fixed-income investments, included in Level 2, are measured using quoted market prices for similar assets and using the net asset value per share.

Notes to Consolidated Financial Statements (continued)

12. Fair Value of Assets and Liabilities (continued)

Private equity investments consist of leveraged buy-outs, venture capital, distressed debt, and real assets and real estate investments. Capital is allocated to domestic and international markets in various investment vehicles, primarily limited partnerships, but also includes private real estate investment trusts. Most of the underlying assets in the private equity partnerships are not immediately liquid. All private equity investments are held as long-term investments. Leveraged buy-outs, venture capital, and distressed debt investments are structured as closed-end, commitment-based investment funds where the investor commits a specified amount of capital upon inception of the fund, which is then drawn down over a specified period of the fund's life. These funds generally cannot be withdrawn or redeemed prior to the specified termination date and will only receive distributions upon a disposition of the underlying assets in the portfolio. As a limited partner, the College will not generally have any influence over the amount or timing of capital contributions and distributions. As of June 30, 2021, the remaining specified term of the leveraged buy-outs, venture capital, and distressed debt partnerships ranged from 1 to 12 years. However, a partnership's life may be (and normally is) extended beyond the original specified term by approval of the limited partners. Some of the College's real estate investments are different from the other private equity partnerships, as they are structured as open-ended, commingled investment vehicles. The underlying investments consist of large, diversified portfolios of existing real properties, primarily income-producing assets, such as office buildings, apartments, retail, and industrial properties, located across the United States. Subject to certain restrictions, redemptions of all or part of the College's investments in private equity real estate may be requested each quarter, and such redemptions will be made at the net asset value for the fund. Private equity investment valuation is determined by the private equity general partner using proprietary information that is unobservable to a market participant.

Interest rate swap liability (see Note 11) valuation is determined using market valuation techniques, including discounted cash flow analysis on the expected cash flow of each agreement. This analysis reflects the contractual terms of the agreement, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. These observable (Level 2) inputs are available to a market participant.

The securities lending collateral (see Note 2) consists of U.S. and non-U.S. obligations, government agency obligations, corporate debt securities, equities from indexes as approved by the securities lending agent's risk committee, and exchange-traded funds. The collateral and associated liability, included in Level 2, are determined using a mark-to-market valuation that is performed each business day.

Notes to Consolidated Financial Statements (continued)

13. Functional Expenses

The College's expenses relate principally to providing education, research, and clinical services. The functional expenses for these services are recorded directly or are allocated. Operation and maintenance of plant expense, depreciation expense, and interest expense are allocated to the various functional areas of the College based on the square footage of space occupied by each program and supporting service.

For the years ended June 30, expenses related to providing these services are as follows (in thousands):

								2021							
				Program	Act	tivities			 Supportin	g Act	tivities				
	In	struction]	Research		Medical Services	-	Affiliated Hospital Programs	nagement d General	Fu	ndraising	Tot	al Expenses

Notes to Consolidated Financial Statements (continued)

14. Employee Benefits

Retirement Plan

Substantially all faculty and staff participate in the College's defined contribution retirement plan (the Plan). The Plan is a core benefit, and contributions are made by the College based on a formula using the employee's base annual salary. The College's contributions to the Plan in the years ended June 30, 2021 and 2020, were \$44.3 million and \$67.4 million, respectively. The assets of the Plan are administered by third parties.

15. Leases

The components of lease cost for the fiscal year ended June 30 were as follows (in thousands):

	2021		2020
Finance lease expense:			
Amortization of right-of-use assets	\$ 528	\$	528
Interest on lease liabilities	22		30
Operating lease expense	13,079		15,040
Total lease cost	\$ 13,629	\$	15,598
Other information:			
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows from finance leases	\$ 22	\$	30
Operating cash flows from operating leases	12,393		14,486
Financing cash flows from finance leases	464		464

years)	11.5		12.35
Weighted discount rate – finance leases	1.76%)	1.76%
Weighted discount rate – operating leases	1.94%	,	1.93%

The annual payments based on maturities are reported under Commitments and Contingencies (see Note 16).

Notes to Consolidated Financial Statements (continued)

16. Commitments and Contingencies

Leases

Annual payments based on maturities of the College's leases as of June 30, 2021, are as follows (in thousands):

	Operating Leases			Finance Leases
2022	\$	11,408	\$	464
2023		11,328		464
2024		11,050		26
2025		10,914		_
2026		9,347		_
Thereafter		54,116		_
Total undiscounted lease payments		108,163		954
Less present value adjustment		(11,451)		(20)
Total discounted lease payments	\$	96,712	\$	934

Private Investments

The College has committed to invest in certain private investments over a period of time. The remaining private investment commitment as of June 30, 2021 and 2020, is \$269.3 million and \$303.0 million, respectively. Based on historical patterns, the College expects those amounts will be called into the partnerships for investment over the next three to five years and will be funded by assets of the endowment.

Self-Insurance Program for Professional Liability

Medical malpractice and other actions alleging wrongful conduct and seeking punitive damages are sometimes filed against physicians and the College's affiliated institutions. Since 1977, the College has maintained a medical malpractice self-insurance program (the Program) that until July 1, 2003, had been supplemented by reinsurance or excess insurance agreements with private insurance companies. Due to sharply increased costs, the College's favorable loss experience, and the positive effects of tort reform legislation, the College, effective July 1, 2003, elected not to

Notes to Consolidated Financial Statements (continued)

16. Commitments and Contingencies (continued)

purchase excess insurance coverage. To date, there has not been a settlement or jury verdict on a case that exceeded the self-insurance retention level that would have been required by the insurance market had the College decided to purchase coverage. The College continued to monitor the insurance market, and during fiscal year 2011, the College started purchasing reinsurance above a \$15 million self-insured retention. For the years ended June 30, 2021 and 2020, the College has purchased \$50 million in reinsurance above the \$15 million per occurrence and \$25 million aggregate self-insurance retention.

The Program's dedicated account is funded on a quasi-occurrence basis, meaning it is designed to cover the health care provider for an incident that happened while he or she was a participant no matter when the claim or lawsuit was filed, but if the incident upon which the claim or lawsuit is based was not reported to the College's Risk Management office, the matter would be asserted against the coverage in the fiscal year in which reporting occurred. Settlements, judgments, and costs of defense are paid from a pool of a self-insured retention, depending on the year the claim occurred or was filed; several layers of excess coverage are available to respond to them. Funding for the Program has been actuarially determined to the level of \$35 million per occurrence and \$70 million aggregate for payment of medical malpractice losses and related expenses. For the period from July 1, 2003 through September 1, 2010, all risk of loss is borne by the College.

The College has been named as a defendant in various claims for damages resulting from alleged medical malpractice. The malpractice reserve, which includes reserves for incurred but not reported claims, is \$45.9 million and \$38.8 million as of June 30, 2021 and 2020, respectively.

This liability was determined on a discounted basis without consideration of any insurance recoveries. The discount rate used in calculating the actuarial present value at June 30, 2021 and 2020, was 3% and 5% respectively.

Notes to Consolidated Financial Statements (continued)

17. Transactions With Affiliates

Included among the College's Board of Trustees are members from the banking, insurance, and legal communities who provide assistance in the development of policies and programs for the College. Also, certain trustees, faculty, and staff of the College participate in the management of affiliated hospitals with which the College has contracts to provide services. During fiscal years 2021 and 2020, the College paid legal and other professional fees of approximately \$2.5 million and \$4.2 million, respectively, to law firms and other organizations with which several board members are affiliated. A portion of the College's pooled investments with a market value of \$111.9 million and \$79.8 million for fiscal years 2020 and 2021, respectively, was managed by an investment firm affiliated with a trustee. Also, the College has received, from time to time, significant contributions from various board members and corporations with which board members are affiliated. These transactions have been entered into in the normal course of business. The College also enters into transactions in the normal course of business with BSLMC and Baylor Genetics.

18. Financial Responsibility Standards

The Financial Responsibility Standards issued by the United States Department of Education (Department) require an institution to be financially responsible to participate in any Title IV, Higher Education Act program. In February 2020, the Department issued a revised financial responsibility rule that adopts new accounting standards and revises definitions and terminology to calculate the composite score ratios. The regulation is effective for financial statement filings that are submitted to the Department after July 1, 2020.

The notes supporting the Financial Responsibility Supplemental Schedule are presented below:

Note A

Net assets with donor restrictions, as reported on the consolidated balance sheets, are presented below:

Temporarily restricted net assets	\$ 658,878
Permanently restricted net assets	 483,003
Total net assets with donor restrictions	\$ 1,141,881

Notes to Consolidated Financial Statements (continued)

18. Financial Responsibility Standards (continued)

Note **B**

Endowments with donor restrictions, as reported in Footnote 7: Endowment Funds, are presented below:

Temporarily restricted endowment	\$ 522,179
Permanently restricted endowment	458,174
Total endowment with donor restrictions	\$ 980,353

Note C

All debt obtained for long-term purposes, as reported on the consolidated balance sheets, is limited to the total net property, plant, and equipment for the expendable net assets calculation. The details are presented below:

Footnote 10: Bonds and Notes Payable	
Total outstanding balance of bonds and notes payable	\$ 588,906
Less deferred issuance costs	(4,366)
Plus original issue premium – 2012A Bond Series	_
Plus original issue premium – 2016 Bond Series	 8,454
Total bonds and notes payable	 592,994
Footnote 16: Commitments and Contingencies	
Lease liability – operating	96,712
Lease liability – financing	934
Total lease liability	 97,646
All debt obtained for long-term purposes	\$ 690,640
Balance Sheet: Net property, plant, and equipment	
Property and equipment, net	\$ 389,727
Plus leased right-to-use assets – operating	 95,353
Total net property, plant, and equipment	\$ 485,080

All debt obtained for long-term purposes reported for the expendable net assets calculation is limited to \$485.1 million.

Notes to Consolidated Financial Statements (continued)

18. Financial Responsibility Standards (continued)

Note D

Unsecured related-party receivables are a component of pledges receivable, as reported on the consolidated balance sheets:

Unsecured related-party receivables	\$ 10,020
Other pledges receivable	 32,064
Total pledges receivable	\$ 42,084

Note E

For the purpose of calculating the total revenue without donor restrictions and gains without donor restrictions, the investment returns reported under both operating and nonoperating activities on the consolidated statement of activities are aggregated:

Operating – investment income, net of expenses	\$ 58,183
Nonoperating – investment income, net of distribution	118,780
Net investment income	\$ 176,963

Due to the aggregation of investment income, \$118.8 million is added to total operating revenue.

Note F

The College's postretirement benefit obligation at June 30, 2021, is \$7.1 million and is recorded in accounts payable and other liabilities of \$233.2 million.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Management and The Board of Trustees Baylor College of Medicine

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Baylor College of Medicine, which comprise the consolidated balance sheets as of June 30, 2021 and 2020, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated October 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Baylor College of Medicine's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Baylor College of Medicine's internal control. Accordingly, we do not express an opinion on the effectiveness of Baylor College of Medicine's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Baylor College of Medicine's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Management and The Board of Trustees Baylor College of Medicine

Report on Compliance for Each Major Federal Program

We have audited Baylor College of Medicine's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Baylor College of Medicine's major federal programs for the year ended June 30, 2021. Baylor College of Medicine's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Baylor College of Medicine's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Baylor College of Medicine's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Baylor College of Medicine's compliance.

Opinion on Each Major Federal Program

In our opinion, Baylor College of Medicine complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs and summarized in the table below. Our opinion on each major federal program is not modified with respect to this matter.

Finding No.	Assistance	Program	Compliance
	Listing No.	(or Cluster) Name	Requirement
2021-001	Various	Student Financial Assistance Cluster	Special Tests and Provisions

Baylor College of Medicine's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Baylor College of Medicine's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

We performed audit procedures with respect to the Student Financial Assistance Cluster major federal program related to compliance requirements in Special Test and Provision N12, Gramm-Leach-Bliley Act - Student Information Security as outlined in the OMB Compliance Supplement for the year ended June 30, 2021. We determined whether Baylor College of Medicine has designated an individual to coordinate the information security program. We determined whether Baylor College of Medicine performed a risk assessment that addresses the three required areas noted in 16 CFR 314.4(b) and whether Baylor College of Medicine documented a safeguard for each risk identified from the three required to be risk assessed by 16 CFR 314.4(b). Our audit procedures did not evaluate whether the designated individual that coordinated the information security program is competent to oversee the program nor whether the individual possessed the adequate authority to carry out those duties. Our audit procedures also did not determine whether the risk assessment sufficiently addressed the required areas, whether the risks identified are the appropriate risks, or that the identified risks appear to be a complete list. Further, our audit procedures did not determine whether the documented safeguards have been put in place or that they will effectively mitigate, reduce, or even address the identified risks. Our opinion on the Student Financial Assistance Cluster major federal program is not modified with respect to this matter.

Report on Internal Control Over Compliance

Management of Baylor College of Medicine is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Baylor College of Medicine's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Baylor College of Medicine's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies is a deficiency, or a combination of over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs and summarized in the table below, that we consider to be a significant deficiency.

Finding No.	Assistance Listing No.	Program (or Cluster) Name	Compliance Requirement
2021-001	Various	Student Financial Assistance Cluster	Special Tests and Provisions

Baylor College of Medicine's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Baylor College of Medicine's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2021

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) presents a summary of the financial activities of Baylor College of Medicine (the College) for the year ended June 30, 2021, which have been funded by the federal government. The information in the Schedule is presented in accordance with the requirements of the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only federal expenditure activities of the College, they are not intended to and do not present the financial position, changes in net assets, or cash flows of the College as a whole.

2. Summary of Significant Accounting Policies

The Schedule has been prepared on a modified accrual basis of accounting and includes all expenditures of federal awards, direct and pass-through, received by the College from federal grantor agencies. Direct costs are charged to sponsored agreements on a cash basis except for salaries and fringe benefits that are charged on an accrual basis. Indirect costs are expensed against sponsored agreements at the close of the month in which the direct costs are charged and, therefore, are a combination of modified accrual and cash basis accounting. Federal awards are deemed to be expended when the College incurs the expenses. Such expenditures are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, or the Uniform Guidance, as applicable, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Federal direct programs and pass-through programs are presented by federal department and, where applicable, the funding agency within the department and the pass-through entity.

3. Federal Awards Classification

The expenditures of federal awards presented in this Schedule were identified pursuant to the definition of federal awards promulgated in OMB Circular A-21, *Cost Principles for Educational Institutions*, or the Uniform Guidance. Federal awards include all federal financial assistance and federal cost-reimbursement contracts received directly from federal awarding agencies or indirectly from pass-through entities. The federal awards have been classified by program according to award objective and federal awarding agency.

Notes to Schedule of Expenditures of Federal Awards (continued)

4. Administered Federal Loan Programs

Outstanding loans under administered federal loan programs as of June 30, 2021, were as follows:

	Assistance Listing Number	Outstanding Balance June 30, 2021
Federal Perkins Loan Program	84.038	\$ 1,517,543
Health Professions Student Loans, Including Primary		
Care Loans, Loans for Disadvantaged Students		
(Health Professions Student Loans)	93.342	369,108

Total disbursements for student financial assistance loan programs administered by the College on behalf of the Department of Health and Human Services and the Department of Education for the fiscal year ended June 30, 2021, are identified below.

	Assistance	Assistance		
	Listing	FY 2	021	
	Number	Disburs	ements	
Federal Perkins Loan Program	84.038	\$	_	
Health Professions Student Loans	93.342	Φ	_	

5. Federal Direct Student Loans Program

The College participated in the Federal Direct Student Loans Program (CFDA 84.268), including Unsubsidized Stafford Loans and PLUS Loans. The College was not the recipient of the funds. The programs are considered as a component of the student financial assistance cluster. Loan disbursements under the programs for the year ended June 30, 2021, totaled \$18,832,957.

Notes to Schedule of Expenditures of Federal Awards (continued)

6. COVID-19 Provider Relief Fund (Assistance Listing No. 93.498)

The Schedule includes \$3,524,875 received from the U.S. Department of Health and Human Services (HHS) between April 10, 2020 and June 30, 2020, under the Provider Relief Fund (PRF) program of Assistance Listing No. 93.498. In accordance with guidance from HHS, these amounts are presented as Period 1 in the HHS PRF Reporting Portal. Such amounts were recognized as other revenue on Baylor College of Medicine's consolidated statements of activities for the years ended June 30, 2021 and 2020. Due to the PRF Reporting Portal requirements, this amount is not the total PRF received and/or recognized by the College as other revenue in the consolidated financial statements for the year ended June 30, 2021.

The amount presented on the Schedule for PRF is for the fiscal year ended June 30, 2021. The amount presented reconciles to the PRF information reported to HHS, as follows:

Name of Subsidiary for HHS Reporting Period 1 Provider Relief Fund Report	Billing Tax Identification Number (TIN) of Subsidiary	Type of Distribution	Pro Fu	Sotal Other ovider Relief nd Expenses Reported
Baylor College of Medicine (faculty group practice)	300791563	General	\$	3,070,896
Baylor College of Medicine Community Pathology Associates	741613878 760421006	General General		300,129 112,286
Baylor Pathology Consultants Baylor Dermatopathology Lab	760495836 760495837	General General		27,050 14,514
			\$	3,524,875

Schedule of Findings and Questioned Costs

Year Ended June 30, 2021

Section I – Summary of Auditor's Results

Financial Statements

Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAAP:	Unmodified
Internal control over financial reporting:	
Material weakness(es) identified?	Yes XNo
Significant deficiency(ies) identified?	Yes X_None reported
Noncompliance material to financial statements noted?	Yes <u>X</u> No
Federal Awards	
Internal control over major federal programs:	
Material weakness(es) identified?	Yes <u>X</u> No
Significant deficiency(ies) identified?	X Yes None reported
Type of auditor's report issued on compliance for major federal programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Section 2 CFR 200.516(a)?	<u>X</u> Yes No

Schedule of Findings and Questioned Costs (continued)

Section I – Summary of Auditors' Results (continued)

	Name of
Assistance Listing Number(s)	Federal Program or Cluster
Identification of major federal programs: Various Assistance Listings 84.033, 84.038, 84.268, 93.342 93.498 84.425E/84.425F	Research and Development Cluster Student Financial Assistance Cluster COVID-19 Provider Relief Fund COVID-19 Higher Education Emergency Relief Fund (HEERF) Student Aid Portion and Institutional Portion
Dollar threshold to distinguish between Type and Type B state programs	A \$3,000,000
Auditee qualified as low-risk auditee?	<u>X</u> Yes No

Section II – Financial Statement Findings

No findings were noted.

Schedule of Findings and Questioned Costs (continued)

Section III – Federal Award Findings and Questioned Costs

Identification of the federal program:	U.S. Department of Education (ED) Office of Federal Student Aid SFA Cluster Assistance Listing Nos. 84.033, 84.038, 84.268
Criteria or specific requirement (including statutory, regulatory or other citation):	 2 CFR 200.303 requires that a non-federal entity must "(a) establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non- Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States and the "Internal Control Integrated Framework", issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)." 16 CFR 314.4(b) requires institutions to "Identify reasonably foreseeable internal and external risks to the security, confidentiality, and integrity of customer information that could result in the unauthorized disclosure, misuse, alteration, destruction or other compromise of such information, and assess the sufficiency of any safeguards in place to control these risks. At a minimum, such a risk assessment should include consideration of risks in each relevant area of your operations, including: (1) Employee training and management; (2) Information systems, including network and software design, as well as information processing, storage, transmission and disposal; and (3) Detecting, preventing and responding to attacks, intrusions, or other systems failures."

Finding 2021-001 Special Tests and Provisions – Gramm-Leach-Bliley Act – Student Information Security

Schedule of Findings and Questioned Costs (continued)

Section III – Federal Award Findings and Questioned Costs (continued)

Criteria or specific requirement (including statutory, regulatory or other citation) (continued):	16 CFR 314.4(c) requires institutions to "Design and implement information safeguards to control the risks you identify through risk assessment, and regularly test or otherwise monitor the effectiveness of the safeguards' key controls, systems, and procedures."
Condition:	Baylor College of Medicine did not perform a risk assessment that addressed the three required areas as noted in 16 CFR 314.4(b) and, as a result, did not document safeguards in response to identified risks as required by 16 CFR 314.4(c). Further, Baylor College of Medicine did not have internal controls in place over GLBA requirements for the fiscal year ended June 30, 2021 (FY 2021).
Questioned costs:	\$0
Context:	Total federal expenditures for the SFA Cluster were \$21.7 million, of which \$21.3 million was from ED, for the year ended June 30, 2021, representing 5% of total federal expenditures.
Effect:	If risk assessments are not performed in accordance with GLBA requirements, internal and external risks to the security, confidentiality, and integrity of customer information that could result in the unauthorized disclosure, misuse, alteration, destruction, or other compromise of such information may occur.
Cause:	Baylor College of Medicine did not have policies and procedures addressing the requirements of 16 CFR 314.4(b) and (c).
Identification as a repeat finding, if applicable:	N/A

Schedule of Findings and Questioned Costs (continued)

Section III – Federal Award Findings and Questioned Costs (continued)

Recommendation:	We recommend Baylor College of Medicine perform the required risk assessment and document and implement safeguards responding to identified risks annually. Management should implement policies and procedures, including internal controls, to ensure that Baylor College of Medicine is in compliance with the GLBA requirements, 16 CFR 314.4(b) and (c). Management should review the annual updates of risk assessments and documented safeguards and retain evidence of the review and approval.
Views of responsible officials:	Management agrees with the finding and has developed a plan to correct the finding.

EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients.
