October 13, 2021

It is my pleasure to share the annual financial report of New Mexico State University (NMSU) for the fiscal years (FYs) ended June 30, 2021 and 2020.

The accompanying financial statements of the University are prepared in accordance with generally accepted accounting principles established by the Governmental Accounting Standards Board. Moss Adams LLP, independent auditors, has examined the financial statements, and their unmodified opinion is presented beginning on page 3 of the report. The financial and physical resource management of the University is guided by the priorities established in our strategic plan NMSU LEADS 2025.

The plan points to the mission of the New Mexico State University system to serve the diverse needs of the state through comprehensive programs of education, research, and extension and outreach services. As the state's land-grant and space-grant university, and as a Hispanic-Serving Institution, NMSU fosters learning, inquiry, diversity and inclusion, social mobility, and service to the broader community.

The COVID-19 pandemic continues to play a role in the decision of many students on whether or not to attend college. Overall enrollment is down slightly this fall for the NMSU System. Of note, this decline seems to have disproportionately impacted our most socioeconomically vulnerable students, especially those at our branch campuses. This is an area we will work to address going forward. A bright spot has been enrollment growth of over ten percent the past two years in NMSU-O, our online campus.

Considerable efforts have been put forth to navigate our university system's response to the pandemic. Our students attended their classes in-person, online or through a hybrid model. This required an unprecedented transformation in the way we deliver our classes, conduct vital research and serve the people of our state. Faculty members went to great lengths to deliver their courses in new and innovative ways to ensure a quality education. Many support staff worked to provide the technology, facilities, sanitizing and equipment needed to make this effort a success. We also monitored COVID-19 infections and maintained health and safety protocols. These efforts will continue as we move forward in this unprecedented educational environment.

The outlook for state appropriations has become promising. Consensus projections are indicating stronger than expected revenue for the state of New Mexico. Based on these projections recurring revenue could increase by as much as \$1.4 billion for fiscal year 2023, or 18.7 percent growth from the 2022 fiscal year recurring budget.

Additional funding assistance related to the pandemic has been provided by the federal government. The NMSU system has been awarded \$96.5 million in HEERF federal stimulus funding to help support our students and help cover expenses related to the COVID-19 pandemic. About half of the \$35.8 million spent to date has been used for emergency financial aid grants to students. The additional institutional HEERF funds are to defray expenses due to the coronavirus including significant changes in the delivery of instruction, carrying out student support activities, meeting IT capacity needs, covering any lost revenue, and following COVID safe protocols.

Aggie pride and spirit continues to be apparent at our beautiful campuses as we enhance the learning experiences of students through enhanced technology and facilities. Construction is underway at our campuses across the state. The Agricultural Modernization and Educational Facilities projects are the largest of these efforts on the main campus, and other work set for Alamogordo, Carlsbad, DACC, Grants and other NMSU locations around New Mexico will better position NMSU for the future. Work is already underway on our new solar electric generation and battery storage facility at Arrowhead Research Park. This exciting collaboration with El Paso Electric will produce clean energy for our campus and the surrounding community. Later this year, a new roundabout entrance for the university as part of the much larger I-25/ University Avenue project, will bring added safety, convenience and beauty to that end of campus.

Our mission to serve the diverse needs of the state through comprehensive programs of education, research, extension and outreach, and public service will not change. We will continue to enhance student success and our ability to maintain

excellence in research, scholarship and creative activity. Our strategic plan will guide us as we make structural improvements based on benchmarking of best practices and performance data relative to each of our functional units.

I want to ensure stakeholders that we will be mindful of our values of leadership, excellence, access, diversity and inclusion, and student-centered as we shape the future for NMSU. These values are encapsulated as: BE BOLD. Shape the future. The future is optimistic for our great university.

Sincerely,

A handwritten signature in blue ink that reads "Dan E. Arvizu". The signature is fluid and cursive, with the first name "Dan" being the most prominent.

Dan E. Arvizu, Ph.D.
Chancellor

Report of Independent Auditors

The Board of Regents
New Mexico State University
and
Mr. Brian S. Colón, Esq.
New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, fiduciary activities, and the discretely presented component unit of New Mexico State University (the University), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly , in all material respects, the respective financial position of the business-type activities, fiduciary activities, and the discretely presented component unit of New Mexico State University, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Period Financial Statements

The financial statements of the University as of and for the year ended June 30, 2020, were audited by other auditors whose report dated March 19, 2021, expressed an unmodified opinion on those statements.

Emphasis of Matters***Reporting Entity***

As discussed in Note 2, the financial statements of the University are intended to present the financial position and the changes in financial position of only that portion of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue fund of the State of New Mexico that is attributable to the transactions of the University. The financial statements do not present fairly the financial position of the State of New Mexico as of June 30, 2021, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Adoption of New Accounting Guidance

As discussed in Note 2 to the financial statements, in fiscal year 2020, the University adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 87 (Leases). Our opinion is not modified with respect to this matter.

Other Matters***Required Supplementary Information***

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis, the Schedule of Changes in Net other Post-Employment Benefits Liability and Related Ratios in accordance with GASB Statement 75 (schedule 5), and the Schedule of Proportionate Share of Net Pension Liability and Employer Contributions (schedule 6), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying Chancellor's Letter, Combining Statements of Net Position (schedule 1), Combining Statements of Revenues , Expenses, and Changes in Net Position (schedule 2), Budgetary Comparison Schedules (schedule 3), Bank Balances, Pledged Collateral Requirements and Pledged Collateral by Financial Institution (schedule 4), and Schedule of Expenditures of Federal Awards (schedule 7), as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Combining Statements of Net Position (schedule 1), Combining Statements of Revenues , Expenses, and Changes in Net Position (schedule 2), Budgetary Comparison Schedules (schedule 3), Bank Balances, Pledged Collateral Requirements and Pledged Collateral by Financial Institution (schedule 4), and Schedule of Expenditures of Federal Awards (schedule 7) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Statements of Net Position (schedule 1), Combining Statements of Revenues, Expenses, and Changes in Net Position (schedule 2), Budgetary Comparison Schedules (schedule 3), Bank Balances, Pledged Collateral Requirements and Pledged Collateral by Financial Institution (schedule 4), and Schedule of Expenditures of Federal Awards (schedule 7) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Chancellor's Letter has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2021, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Mess Adams LLP

Albuquerque, New Mexico
October 29, 2021

Management's Discussion and Analysis For the Years Ended June 30, 2021 and 2020 (Unaudited)

Overview of Financial Statements and Financial Analysis

Management's Discussion and Analysis is designed to provide an easily readable analysis of New Mexico State University's (the University) financial activities for the fiscal years ended June 30, 2021 and 2020. This overview is based on facts, decisions and conditions known as of the date of the independent auditors' report. There are three financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. Please read this analysis in conjunction with the University's financial statements and accompanying notes to the financial statements. Separately issued component unit financial statements are available as detailed in Note 11.

Using This Annual Report

The Statement of Net Position provides information about the University's financial condition at fiscal year end. It presents both a current year synopsis and a longer-term view of the University's assets, liabilities and net position. Readers of the Statement of Net Position have the information to determine the assets available to continue the operations of the University. They can also determine how much the University owes to vendors, investors and lending institutions. Finally, the Statement of Net Position outlines the net position (assets minus liabilities) available to the University and defines that availability.

The Statement of Revenues, Expenses, and Changes in Net Position should be used to review the results of the current year's operations. Changes in total net position, as presented in the Statement of Net Position, are based on the activities presented in this statement. The purpose of the statement is to present the revenues earned by the University and the expenses incurred by the University and any other revenues, expenses, gains and losses earned or incurred by the University. Non-operating revenues include state appropriations revenue, federal Pell grant revenue, state lottery scholarship revenue, local tax levy revenue, gift revenue, and interest earned on operating balances. The line item entitled "Income before other revenues" may give a more complete picture of the results of the University's operations during the year, including income resulting from non-exchange transactions. A non-exchange transaction is one in which the University receives value or benefit from a third party without directly providing equal value in exchange, such as in receipt of a donation.

The Statement of Cash Flows presents detailed information about the cash activity of the University during the fiscal year. The statement is divided into five sections. The first section deals with operating cash flows and shows the net cash used by operating activities. The second section includes cash flows from non-capital financing activities. It includes the cash received and spent for non-operating, non-investing and non-capital financing purposes. The third section includes cash flows from capital and related financing activities. This section includes the cash used for the acquisition and construction of capital and related items. The fourth section includes the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fifth and final section reconciles the net cash used for operations to the operating loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

The final two statements presented are the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position. These statements present balances and activities held by the University for the benefit of student and departmental groups, as well as deposits from local taxing authorities.

Footnote information provides additional detail on the University's overall accounting practices and individual statement line items, including a natural classification report of operating expenses.

Additional information may be obtained by contacting the Office of the Senior Vice President for Administration and Finance at 575-646-2431 or boffice@nmsu.edu.

For the years ended June 30, 2021, 2020 and 2019, the University's financial position was as follows:
(In thousands)

*2019 statements do not present changes from GASB 87 balances implemented.

General Overview for 2021 and 2020

In fiscal year 2021, total assets of the institution increased by \$19 million primarily related to increases in cash and short-term investments. This was offset by decreases in net capital assets. Cash and cash equivalents increased by \$11 million and investments increased by \$31 million due to decreased outflows to suppliers, increased non-operating revenue from HEERF, and decreased outflows for capital assets. The lower investment in capital assets contributed to the decreased in net capital assets of \$15 million. Deferred outflows increased by \$477 million and total liabilities increased by \$776 million due to the results of the most recent valuation of the pension liability.

The more significant changes in the Statement of Net Position include:

- Increase in the pension liability of \$770 million, and the related increase in deferred outflows of \$477 million and decrease of deferred inflows of \$24 million. These items are attributable to the adjustments made to the pension liability due to the latest actuarial valuation performed.
- Increases in investments of \$31 million and increases in cash and cash equivalents of \$11 million due to the low interest rates and shift from long term investments to short term investments, decreased supply and travel spending, and funds received for capital projects that have not yet been completed.
- Decrease in net capital assets of \$15 million due to new purchase and construction activities being lower than the annual depreciation recognized. Investments in capital assets were slightly delayed due to changes experienced with the pandemic.

Primary components that contributed to the \$255 million net decrease in net position from the prior year include:

- Non-cash expense of \$266 million related to adjustments to pension balances.
- A decrease in state appropriations of \$7 million.
- HEERF funds of \$19 million received during the year.

The Statement of Cash Flows shows a net increase in cash. The majority of the increase was from lower outflows for operating activities, particularly payments for travel and payments to suppliers. Additionally, there was an increase in cash received for tuition and grants and contracts received. The largest source of cash from non-capital financing activities was from state appropriations. Less cash was used for capital activities while more cash was used for investing activities during the year.

General Overview for 2020 and 2019

Excluding the impact of GASB 87 on 2020, total assets of the institution decreased by \$3 million primarily related to decreases in net capital assets and student loan receivable. Cash and cash equivalents increased by \$77 million while investments decreased \$72 million. Deferred outflows decreased by \$74 million, due to the amortization of prior changes in assumptions related to the pension liability. Total liabilities decreased by \$302 million and deferred inflows increased by \$22 million. Implementation of GASB 87 increased fiscal year 2020 total assets by \$18.7 million, total liabilities by \$.9 million, deferred inflows of resources by \$18 million and decreased net assets by \$.2 million.

The more significant changes in the Statement of Net Position include:

- Decreases in the pension liability of \$305 million, and the related changes in deferred outflows and deferred inflows. These items are related to the adjustments made to the pension liability due to changes in legislation that increased contributions to the fund.
- Decreases in investments of \$72 million offset by an increase in cash and cash equivalents of \$77 million due to the drop in interest rates and shift from long term investments to short term investments for a better return on investment. Many of the University investments were called and could not be replaced at the same interest rate.
- Increase in the other post-employment benefit liability of \$21 million, and the related change in deferred outflows and deferred inflows. These items are related to the adjustments made to the OPEB as required by GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB).
- Decrease in other long-term liabilities of \$21 million related to refunding of revenue bonds.

The operations discussed below contributed to the decrease in net position. Additional information related to these changes is discussed in more detail later in this section.

Primary components that added to the \$203 million net decrease in net position from the prior year include:

- A decrease in operating expense of \$244 million after the allocation of pension expense.
- An increase in state appropriations of \$12 million.
- An increase in federal appropriations, grants and contracts of \$2 million.
- An increase in other non-operating revenue of \$6 million.
- The increase were offset in part by the following:
 - An decrease in investment income of \$3.5 million.

The Statement of Cash Flows shows a net increase in cash. The largest source of cash from operating activities was from grant and contract revenues, followed by tuition and fees, while the largest source of cash from non-capital financing activities was from state appropriations. The most significant uses of cash were for payments to employees and for employee benefits and payments to suppliers.

The following graph illustrates the comparison of net position (in millions) by category for fiscal years 2021, 2020 and 2019. The effect of the implementation of GASB 68 related to the net unfunded pension liability has been excluded from the graph to provide a clearer picture of the unrestricted net position.

Operating Revenues for 2021 and 2020

Net operating revenues increased by \$5 million in fiscal year 2021 compared to 2020. Tuition and fees contributed a \$3 million increase and federal and state grants and contracts contributed \$3 million and \$2 million increases, respectively. Non-government grants and contracts decreased \$2 million and sales and services experienced a \$1 million decrease.

Operating Revenues for 2020 and 2019

Net operating revenues increased by \$8 million in fiscal year 2020 compared to 2019. A main contributor to the increase was related to federal appropriations, grants and contracts one of the larger operating revenue sources, which increased by approximately \$2 million from prior year, followed by student tuition and fees net of scholarship allowances of \$3 million and state grants and contracts of \$2.5 million.

The following graph illustrates a comparison of operating revenues (in millions) by type for fiscal years 2021, 2020 and 2019.

Operating Expenses for 2021 and 2020

Operating expenses increased by \$457 million in fiscal year 2021 from the prior year. This was due to the non-cash increase to operating expenses of \$266 million in 2021 and a non-cash decrease of \$169 million in 2020 for a total change of \$435 million from the pension liability adjustments. Other items impacting the change in operating expenses were as follows:

- An increase in scholarships and fellowships of \$11 million due to increased student payments from HEERF funds.
- An increase in professional fees of \$3 million.
- Decreases in travel of \$7 million and a decrease in supplies and services of \$8 million due to changes in employee activities from pandemic.

Operating Expenses for 2020 and 2019

Operating expenses decreased by \$244 million in fiscal year 2020 from the prior year. The decrease in pension expense \$286 million over the prior year is a significant change in overall operating expenses. Although pension expense is allocated to the various expense functions based on salary expense, for purposes of this analysis, it has been removed in order to analyze the remaining expenses. After removing the pension expense allocation for both years, operating expenses increased by \$42 million. The largest dollar changes in operating expense, excluding pension expense, were as follows:

- An increase in instruction expense of \$10 million, primarily related to salary and fringe expense.
- An increase in scholarships and fellowships of \$6.2 million, partially due to CARES Act payments made to students.
- An increase in research expense of \$4.7 million.
- An increase in operation and maintenance of \$3.9 million.

The following graph illustrates a comparison of operating expense (in millions) by function, excluding depreciation and loan administration but including the impact of pension and OPEB adjustments, for fiscal years 2021, 2020 and 2019.

The Statement of Revenues, Expenses, and Changes in Net Position reflects a net loss before other revenues of \$272 million in fiscal year 2021 and a net income before other revenues of \$168 million in fiscal year 2020 and a net loss \$102 million in fiscal year 2019.

The following graphs reflect the University's sources of revenue available to meet current operating costs for fiscal years 2021, 2020 and 2019.

2021 Revenues

2020 Revenues

2019 Revenues

Capital Asset and Debt Administration

During fiscal year 2021, net capital assets decreased by \$15 million due to lower levels of construction and renovation activities. Projects that increased capital assets included current period expenditures for NMDA of \$1.5 million, the Agriculture modernization facility of \$1 million, the DACC Gadsden expansion of \$2 million, and DACC roof renovations of \$1 million. In addition to construction costs, there were increases in capital assets related to capital equipment purchases of \$4.8 million and capital library purchases of \$2.8 million, which were offset by total depreciation and amortization expense of \$34.2 million. Debt from bonds decreased by \$9 million in fiscal year 2021.

During fiscal year 2020, net capital assets decreased (1.5%), due to lower levels of construction and renovation activities. Projects that increased capital assets included current period expenditures for the new art building, Devasthali Hall of \$4 million, the DACC Gadsden Expansion of \$4 million, and the new housing facility, Juniper Hall of \$3 million. In addition to construction costs, there were increases in capital assets related to capital equipment purchases of \$5.8 million and capital library purchases of \$3.6 million, which were offset by total depreciation expense of \$34.7 million. Debt from bonds decreased by \$22.5 million and contracts decreased by \$294,557 in 2020.

Budget Comparison

In comparing the total original budgeted revenue to the revised budgeted revenue for fiscal year 2021, there was a net increase of approximately \$57.4 million, and an increase of approximately \$65.7 million in revised budgeted expenditures. Revenue budgets changed significantly due to the impact of the COVID-19 pandemic. The significant increases to the revenue budget were: federal government sources of \$55 million, state grants and contracts of \$4.9 million, local government appropriations of \$4.8 million, and other sources of \$21.6 million. The increases were offset by significant revenue budget decreases in: state government appropriations of \$19.9 million, sales and services of \$5 million, and tuition and fees of \$3.4 million.

The increase in federal government revenue sources is due in part to federal HEERF funding awards totaling \$28.8 million, which includes \$11 million for student emergency financial aid grants and \$17.7 million for institutional costs associated with significant changes due to the coronavirus. The budgeted increase in local appropriations is a result of an increase in local tax levies, primarily in Carlsbad. The increase in projected revenues for other sources was a result of projected increases in indirect cost recovery and also to provide budget expenditure authority in several areas including research, public service, auxiliary enterprises, athletics, and independent operations. Decreases in state government appropriations were a result of a legislated reduction in funding in response to an anticipated economic downturn due to the pandemic. Declines in revenue projections for tuition and fees as well as sales and services were due to projected decreases as a result of the pandemic.

Expenditure budgets increased more than usual for instruction (\$26.6 million) as well as student aid grants and stipends (\$21.8 million) to allow for expenditure authority contingencies in anticipation of the federal HEERF funding. In addition, the research budget was increased by \$8.2 million to allow for expenditure authority and capital outlay expenditures increased \$2.6 million based on scheduled projects. Actual revenues earned in fiscal year 2021 were lower than the revised budget by \$85.9 million and actual expenditures were lower than the revised budget by \$125.6 million.

The main contributors to the revenue budget variance were: federal grants and contracts revenue of \$49 million, other sources for \$21 million, and capital outlay revenue of \$17 million, offset by sales and services.

The main contributors to the expense budget variance were in instruction \$37.9 million, research \$13.6 million, public service \$9.9 million, student aid \$16.3 million, and capital outlay \$20.6 million, (62% of the variance). Because the University budgets capital projects in their entirety, multi-year projects may result in mismatches of budget to actual revenues and expenses in any one year. In addition, the University budgeted the HEERF available funding in its entirety within instruction and student aid in order to provide spending authority.

Total expenditures were less than revenues, resulting in an increase in the overall fund balance of \$17.7 million. The current funds contributed \$7.6 million, renewal and replacement contributed \$5.9 million, and capital outlay contributed \$4.2 million.

Factors Impacting Future Periods

Subsequent to the economic decline the state endured in 2021, due to the COVID-19 pandemic, the state provided an overall increase in appropriates for the fiscal year 2022. Among the highlights: a 2.7% increase (about \$5.4 million) in recurring funding for the NMSU System in the general appropriations act, a 1.5% average compensation increase for NMSU employees, more than \$33 million in new financial aid for students, and a restoration of federal funding that was swapped out during the previous session.

The NMSU system experienced a 3 percent decline in enrollment for fall 2021. The University main campus enrollment dropped 2.3% while changes in enrollment at branch community college campuses varied significantly. A bright spot was enrollment growth of about ten percent in NMSU-O, our online campus. Though tuition and fee revenue will decrease from this result, the state revenue picture now and in the future is promising.

The outlook for state appropriations is promising. In August 2021, the New Mexico Legislative Finance Committee General Fund Recurring Revenue Outlook indicated a stronger than expected revenue projections for the state of New Mexico. The state is projecting recurring revenues fiscal year 2022 at approximately \$8.109 billion, up \$632.8 million from the February 2021 estimate, and FY23 recurring revenues are estimated at \$8.842 billion. This would result in an increase in recurring revenues estimated at \$1.392 billion for FY23, or 18.7% growth from the FY22 recurring budget.

The NMSU system has received \$96.5 million in HEERF federal stimulus funding to help support our students and help cover expenses related to the COVID-19 pandemic. A minimum of \$39.1 million is

being used for emergency financial aid grants to students with at least \$24.6 remaining to be spent for fiscal year 2022. The additional institutional and MSI HEERF funds to be spent approximate \$36.1 million. These funds will be spent to defray expenses due to the coronavirus including significant changes in the delivery of instruction, carrying out student support activities, meeting IT capacity needs, covering any lost revenue, and following COVID safe protocols.

The Carlsbad campus will become a stand-alone community college in fiscal year 2022 based on 2021 legislative approval.

End of year	<u>\$ 7,095,750</u>	<u>\$ 5,663,798</u>

Note 1 – Organization

New Mexico State University (the University) was created under Section 21-8-1 New Mexico Statutes Annotated (NMSA), Article XII, Section 11, of the New Mexico State Constitution (Constitution). Under Article XII, Section 13 of the Constitution, the University is governed by the Board of Regents, a group of five members, one of whom is a student, appointed by the Governor of New Mexico. Members may serve more than one term. The Chancellor of the University acts as Chief Executive Officer.

The University was founded in 1888, and in 1889 was established as a land-grant college, in accordance with the provisions of the Morrill Act of 1862. As such, the University provides a liberal and practical education for students and sustains programs of research, extension education, and public service. The University offers a broad program of instruction at the undergraduate and advanced degree levels in Agricultural, Consumer and Environmental Sciences, Arts and Sciences, Business, Education, Engineering, and Health and Social Services. Other programs include Intercollegiate Athletics, the Agricultural Experiment Stations, the Physical Science Laboratory for contract research, the Cooperative Extension Service, the New Mexico Department of Agriculture, and community colleges at Alamogordo, Carlsbad, Doña Ana County, and Grants.

New Mexico State University Foundation, Inc. (Foundation), is the “Discrete Component Unit” referred to throughout this document. The Foundation is a not-for-profit corporation established to acquire and manage charitable gifts, including endowed funds, to be used solely for the benefit of the University.

Note 2 – Summary of Significant Accounting Policies

Reporting Entity. The Governmental Accounting Standards Board's (GASB) Statement No. 39, Determining Whether Certain Organizations are Component Units, GASB Statement No. 61, Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34 and GASB Statements No. 80, Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14, provide additional guidance to determine whether certain organizations, for which the primary government is not financially accountable, should be reported as component units, based on the nature and significance of their relationship with the primary government.

Under GASB 39 and GASB 61 criteria, the Foundation meets the criteria for discrete component unit presentation. The Foundation is a nonprofit corporation which provides financial benefit to the University by acquiring and managing charitable gifts, including endowed funds, to be used solely for the benefit of the University. Under GASB 39 and GASB 80 criteria, Arrowhead Center, Inc. meets the criteria for blended presentation. Arrowhead Center Inc. provides a financial benefit to the University and was established to foster economic development within the State through the development of research parks and University real property as well as to protect, license, and market intellectual property developed by faculty, staff and students of the University, as well as members of the community. The University and its blended component unit are shown as the University column in the financial statements. The component units have separately audited financial statements, which can be obtained at their administrative offices. Aggie Development Inc. is a blended component unit that did not require audited financial statements and therefore its activity is included in the NMSU audited financial statements, but its information is not included in Note 11 - Component Units. The mailing addresses for each of the component units are included in Note 11.

GASB Statement 84, *Fiduciary Activities*, was adopted in fiscal year 2020 and requires that funds held for the benefit of others be separately reported as fiduciary funds. The University holds funds for the benefit of student and departmental groups, as well as deposits from local taxing authorities. All holdings are considered custodial funds. Certain external deposits are excluded from the fiduciary fund statements as they were short-term in nature.

Implementation of GASB 84 impacted the previously reported University balances as well as the current year balances. A reconciliation of the original balances with the fiduciary adjustments are shown below:

Line Item	2020		
	Original Amount	Fiduciary Adjustment	Revised Amount
Assets			
Restricted cash and cash equivalents	\$ 14,399,524	\$ 5,685,384	\$ 8,714,140
Accounts receivable	\$ 51,215,098	\$ 26,497	\$ 51,188,601
Liabilities			
Accounts payable	\$ 12,319,476	\$ 45,045	\$ 12,274,431
Unearned revenue	\$ 14,667,152	\$ 3,038	\$ 14,664,114
Fiduciary net position (Fiduciary Statement Only)	\$ -	\$ 5,663,798	\$ 5,663,798

GASB Statement 87, *Leases*, was adopted in fiscal year 2021 and requires recognition of lease assets and liabilities for non-cancellable agreements greater than one year in duration. The University has entered into lease agreements as both the lessor and lessee, and as such has recognized the corresponding receivables, payables, intangible assets, and deferred outflows required under this statement. Implementation of GASB 87 impacted previously reported fiscal year 2020 balances. A reconciliation of the previous balances with the GASB 87 adjustments are shown below:

Line Item	2020		
	Original Amount	Lease Adjustment	Revised Amount
Assets			
Long-term receivable	\$ 7,480,556	\$ 16,943,061	\$ 24,423,617
Capital assets, net	\$ 499,188,132	\$ 678,194	\$ 499,866,326
Liabilities			
Long-term liabilities	\$ 156,684,138	\$ 851,483	\$ 157,535,621
Deferred inflows of resources	\$ 58,359,047	\$ 16,943,061	\$ 75,302,108
Net Position	\$ 44,628,668	\$ (173,289)	\$ 44,455,379
Expenses			
Instruction	\$ 78,630,132	\$ (95,691)	\$ 78,534,441
Operation and maintenance of plant	\$ 34,744,133	\$ (23,143)	\$ 34,720,990
Depreciation	\$ 34,791,220	\$ 296,574	\$ 35,087,794
Loss of disposal	\$ 110,983	\$ (4,451)	\$ 106,532
Net increase to expense		\$ 173,289	

Basis of Accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as prescribed by the GASB and the American Institute of Certified Public Accountants' (AICPA) guide.

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented in a single column using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are

recorded when an obligation has been incurred. Eliminations are not performed between the University and the Foundation. The University is an enterprise fund of the State of New Mexico and, as such, is included in the State of New Mexico's Annual Comprehensive Financial Report. The University's financial statements are intended to present the financial position, the changes in financial position and, where applicable, cash flows of only that portion of the business-type activities of the State of New Mexico that is attributable to the transactions of the University.

Current Assets. Current assets consist of unrestricted assets which are available for current operations or which will be available within one year and restricted assets that will be used in current operations. All other assets are classified as non-current assets.

Cash and Investments. Cash and cash equivalents consist of cash on hand and current investments, which are defined as investments that are readily convertible to cash or which have an original maturity date of three months or less.

The University accounts for its investments at fair value in accordance with GASB Statement No.72 (Fair Value Measurement and Application). Changes in the unrealized gain (loss) on the carrying value of investments are reported as a component of investment income (loss) in the Statement of Revenues, Expenses, and Changes in Net Position.

The University and the Foundation record purchased marketable securities at cost and marketable securities received by gift at estimated fair value on the date of donation. Marketable securities are carried at fair value based on quoted market prices, except for certain alternative investments for which quoted market prices are not available. The estimated fair value of these alternative investments is based on the most recent valuations provided by the external investment managers. The University and the Foundation believe the carrying amount of these financial instruments is a reasonable estimate of the fair value. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed. Third-party investment managers administer substantially all marketable securities. Gains and losses resulting from securities transactions are recorded in investment income.

The Foundation manages a Common Endowment Pool (Pool), consisting of assets invested to support programs of the University. A portion of these assets belongs to the University and is shown in the University's Statements of Net Position as Investments held in trust by Component Unit for NMSU. The Foundation owns the remainder, which consists of endowments and charitable gift annuities. These are included in other long-term investments in the Foundation's financial statements. The liabilities related to the charitable gift annuities are included in the Foundation's other long-term liabilities.

Disbursements of the net appreciation of investments in donor restricted endowments are permitted in accordance with the New Mexico Uniform Prudent Management of Institutional Funds Act (UPMIFA), except where a donor has specified otherwise. The Investment Committee of the Foundation establishes a target investment allocation designed to support distributions from the Pool and to protect the purchasing power of the endowment principal. The Foundation Investment Committee sets the annual distribution rate. Actual distributions may be adjusted as directed by some of the individual endowment agreements. The amount of funds available for distribution from the Pool to the individual endowments participating in the fund that benefit colleges, departments, units and programs during each fiscal year is determined using a weighted average of two numbers: 1) The target spending based on the current endowment value, and 2) last year's spending adjusted for inflation. A 20-percent weighting is given to the policy rate applied to the Pool's market value at the end of each fiscal quarter, and an 80-percent weighting is given to the last year's spending adjusted for inflation as measured by the most recent published Higher Education Price Index. This amount is then distributed at the end of each fiscal year. The distribution of the annual calculation is based on the unitized system ownership of each fund.

Accounts Receivable. Accounts receivable primary categories are: 1) Tuition and fees; 2) Amounts due for auxiliary enterprise services provided to students, faculty and staff; and, 3) Amounts due from federal, state, local governments, and others in connection with reimbursement of allowable expenditures made pursuant to the University's sponsored awards. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories. Inventories are generally stated at the lower of cost or market. Cost is determined by the average cost method, which approximates the first-in-first-out method. Inventories consist of items that are available for resale to individuals and/or other University departments, including research supplies and livestock items. Departmental inventories comprised of items such as classroom and laboratory supplies, teaching materials, and office supply items, which are consumed in the teaching and administrative process, are expensed when purchased.

Long-term receivables. Long-term receivables primary categories are: 1) Perkins student loans; 2) Finance building sale; and, 3) Receivable from leases.

	2021	2020
Perkins student loans	\$ 5,499,866	\$ 6,555,556
Finance building sale	925,000	925,000
Lease receivable	16,371,344	18,067,411
Long-term receivable	<u>\$ 22,796,210</u>	<u>\$ 25,547,967</u>

Investments Held in Trust. Trust assets held by the Foundation are measured at fair value as of the date of receipt. The corresponding trust liability, included in other long-term liabilities, is measured at the present value of expected future cash flows to be paid to the beneficiary. Upon death of the income beneficiary, substantially all of the principal balance passes to the Foundation to be used in accordance with the donor's wishes.

The Foundation holds several irrevocable charitable remainder trusts and a pooled income fund; these instruments are shown in the accompanying financial statements as investments held in trust for others. Charitable remainder trusts designate the Foundation as both trustee and remainder beneficiary. The Foundation is required to pay to the donor, or another donor-designated income beneficiary, either a fixed amount or the lesser of a fixed percentage of the fair market value of the trust's assets or the trust's income during the beneficiary's life.

The Pool was formed with contributions from several donors. The contributed assets are invested and managed by the Foundation. Each donor, or designated beneficiary, periodically receives, during his or her life, a share of the income earned on the fund proportionate to the value of the contribution to the fund. Upon death of the income beneficiary, substantially all of the principal balance passes to the Foundation to be used in accordance with the donor's wishes. Contribution revenue is measured at the fair value of the assets received, discounted for a term equal to the life expectancy of the beneficiary.

Capital Assets. Capital assets are recorded at cost as of the date of acquisition, or in the case of gifts, acquisition value as of the date of donation. The University's capitalization threshold for equipment and software is \$5,000. Infrastructure and land improvements that significantly increase the value, productivity, or extend the useful life of the structure are capitalized at \$50,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

The University's depreciation is computed using the straight-line method. Land and land improvements are not depreciated. Estimated useful lives for major asset classes are as follows:

<u>Category</u>	<u>Useful Life</u>
Software	5 or 10 years
Equipment	6 or 15 years
Infrastructure	10 to 20 years
Componentized buildings	12 to 50 years
Library books	15 years
Non-componentized buildings	25 or 40 years

As an institute of higher education in existence for over 100 years, New Mexico State University has acquired significant collections of art, rare books, historical treasures and other special collections. The purpose of these collections is for public exhibition, education or research in furtherance of public service rather than financial gain. They are protected and preserved, and subject to the Regents' policies regarding accessioning and de-accessioning. However, because of their invaluable and irreplaceable nature, these collections have not been capitalized and are therefore not presented in the accompanying Statement of Net Position.

The Foundation's capital assets are stated at cost, except for works of art that the Foundation intends to hold indefinitely, which are recorded at fair value on the date of donation. Additions and major improvements are capitalized and repairs and maintenance are charged to expense as incurred.

Current Liabilities. Current liabilities include accounts payable, other accrued liabilities and accrued interest payable. Other accrued liabilities include accrued current payroll and fringe benefits and current portion of unclaimed property. The benefits included consist of the employee and employer portions of taxes, insurance, retirement and other compensation related withholdings. Also included in current liabilities is the current portion of long-term debt and unearned revenue. Unearned revenue represents revenue collected but not earned as of June 30, 2021 and 2020. This amount is primarily composed of revenue for grants and contracts, prepaid student tuition and fees and special events. The University did not have any outstanding short-term debt for the years ended June 30, 2021 and 2020.

Non-Current Liabilities. Non-current liabilities, within other long-term liabilities, includes principal amounts of revenue bonds payable, lease liabilities, other post employment benefits, the non-current portion of accrued compensated absences and unclaimed property, and other liabilities. Also included is pension liability.

The Foundation's other long-term liabilities consist of the liabilities related to charitable gift annuities and charitable remainder unitrusts for which the Foundation serves as trustee. These liabilities are recorded at the present value of anticipated payments to the income beneficiaries. These are computed using the estimated life of each income beneficiary at June 30 each year and the applicable IRS discount interest rates.

Annual and Sick Leave Policies.

Annual leave: Regular full-time exempt and non-exempt employees will earn annual leave at a rate of 21 working days per year. Leave is prorated for regular employees working at least half-time. University policy allows employees to accumulate a maximum of 30 unused annual leave days. Up to 240 hours accumulated annual leave may be carried forward each July 1st, and may be paid upon termination of employment for regular employees only. Due to the COVID-19 pandemic, employees may carry forward up to 280 hours of annual leave after June 30, 2020. This annual leave balance can be used throughout fiscal year 2021, July 1, 2020 to June 30, 2021. This is 40 hours over the standard amount that can be carried forward. This is a temporary exception and will not alter the set payout maximum of 240 hours. The maximum annual leave balance will return to 240 hours at the end of June 2021. Accumulated annual leave is paid upon termination for regular employees only. Effective June 30, 2017, leave accrued in excess of 30 working days at the close of business on June 30 of each year shall be forfeited.

Sick leave: Regular full-time exempt and non-exempt employees earn sick leave at a rate of 12 working days per year. Employees may carry forward up to 100 days (800 hours) of sick leave. Prior to July 1, 2016, employees were paid for earned sick leave over 600 hours (not to exceed 200 hours) upon termination. Effective July 1, 2016, the sick leave payout benefit upon termination was discontinued; however, employees with sick leave balances of greater than 600 hours on that date will receive a grandfathered benefit. Upon termination, they will be paid for the number hours over 600 (not to exceed 200 hours) that they had on July 1, 2016 or the number that they have upon termination, whichever is less. The sick leave payment is made at a rate of 50 percent of the employee's straight-time hourly salary.

Faculty care leave: The University provides regular nine-month faculty with a paid leave benefit that can be used for any qualifying event under the federal Family and Medical Leave Act (FMLA). This benefit is referred to as "Faculty Care Leave". All regular nine-month faculty are eligible to participate in the benefit. No payment will be provided for accrued Faculty Care Leave balances upon separation from the University nor upon death.

Net Position. The University's net position is classified as follows:

Net investment in capital assets – Represents the University's total capital assets, net of accumulated depreciation, outstanding debt obligations related to those capital assets and debt related deferred inflows and outflows. Debt that has been incurred but not yet expended for capital assets is not included as a component of net investment in capital assets.

Restricted net position, non-expendable – Consists of endowment and similar type assets for which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income.

Restricted net position, expendable – Includes resources which the University is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Unrestricted net position – Represents all other resources, including those derived from student tuition and fees, state appropriations, sales and services, unexpended plant, renewal and replacement and quasi endowments. These resources are used for transactions relating to the educational and general operations of the University and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff. Unrestricted net position of the Discrete Component Unit represents resources that may be used at the discretion of the governing board of the Discrete Component Unit to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards restricted resources, and then towards unrestricted resources.

Elimination Entries. Eliminations have been made in the Statement of Revenues, Expenses, and Changes in Net Position to remove the effect of internal charges incurred for service activities in excess of the cost of providing those services and for revenue recognized by the Auxiliary Service departments for sales to other University departments. Elimination entries are not recorded between the University and the Discrete Component Unit.

Income Taxes. The income generated by the University as an instrumentality of the State of New Mexico is generally excluded from federal income taxes under section 115(a) of the Internal Revenue Code. However, the University is subject to taxation on income derived from business activities not substantially related to the University's exempt function (unrelated business income under Internal

Revenue Code Section 511); such income is taxed at the normal corporate rate. Contributions to the University are deductible by donors as provided under Section 170 of the Internal Revenue Code.

The Foundation is exempt from federal income taxes under Internal Revenue Code section 501 (a) as an organization described in section 501(c)(3).

Classification of Revenues. The University classifies its revenues as either operating or non-operating revenues according to the following criteria:

Operating revenues: Operating revenues of the University include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises; (3) certain federal, state and local grants and contracts and federal appropriations; and (4) non-governmental grants, contracts and gifts. Operating revenues of the Discrete Component Unit consist of gifts, grants, and fundraising activities in support of Foundation and University programs.

Non-operating revenues: Non-operating revenues of the University include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, state appropriations, certain grants, tax levy revenue, investment income, and other revenue sources that are defined as non-operating revenues by GASB 9, Reporting Cash Flows Proprietary and Non-expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB 34, Basic Financial Statements – And Management's Discussion and Analysis – For State and Local Governments. These revenue streams are recognized under GASB 33, Accounting and Financial Reporting for Non-exchange Transactions. Revenues are recognized when all applicable eligibility requirements have been met. Non-operating revenues of the Discrete Component Unit consists of investment income.

Classification of Expenses. The University classifies its expenses as either operating or non-operating expenses according to the following criteria:

Operating expenses: Operating expenses include activities such as (1) employee salaries, benefits, and related expenses; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, supplies, and other services; (4) professional fees; and (5) depreciation expenses related to property, plant, and equipment.

Non-operating expenses: Non-operating expenses include activities such as interest on capital asset-related debt and other expenses that are defined as non-operating expenses by GASB 9 and GASB 34.

Scholarship Discounts and Allowances. Student tuition and fee revenues and certain other revenues from students are reported net of scholarship discounts and allowances in the Statements of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the student's behalf. To the extent that revenues such as federal Pell grants and state lottery scholarships are used to satisfy tuition and fees and other student charges, the University has recorded scholarship discount and allowance as a contra-revenue. A pro rata share of the discounts and allowances are allocated to Auxiliary Enterprises.

Budgetary Process. Operating budgets are submitted annually for approval to the Board of Regents, the New Mexico Higher Education Department (HED), and the New Mexico Department of Finance and Administration - State Budget Division (DFA). These state agencies develop consolidated funding recommendations for all higher education institutions which are considered for appropriation during the annual legislative sessions. In accordance with House Bill 2, in general, unexpended state

appropriations to the University do not revert at the end of each fiscal year. All state appropriations are accounted for separately in the accounting system.

The legal level of budgetary control is at the fund type and functional level, in accordance with NMAC 5.3.4.10. The modified accrual basis of accounting is used for budgetary comparison. If expenditures by budgetary control line by campus are expected to exceed the approved budget, the University is required to submit a budget adjustment request which has been approved by the Board of Regents to the HED which is subsequently forwarded to the DFA.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Educational Retirement Board (ERB) and additions to/deductions from ERB's fiduciary net position have been determined on the same basis as they are reported by ERB, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB). For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, the University contracts with external actuaries utilizing the economic resource measurement focus. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Deferred Outflow of Resources. Consumption of net assets by the University that is applicable to a future reporting period.

Deferred Inflow of Resources. Acquisition of net assets by the University that is applicable to a future reporting period.

Amounts reported as deferred outflows of resources and deferred inflows of resources are as follows:

	2021	2020
Deferred Outflows of Resources		
Related to net pension liability	\$ 581,951,694	\$ 96,853,438
Related to net OPEB liability	17,290,742	25,118,426
Net loss on defeasance	1,371,296	1,586,062
Total deferred outflows of resources	<u>600,613,732</u>	<u>123,557,926</u>
Deferred Inflows of Resources		
Related to net pension liability	\$ 26,819,944	\$ 45,947,193
Related to net OPEB liability	7,722,602	12,377,396
Related to leases	16,371,344	16,943,061
Unamortized bond premiums	19,673	34,458
Total deferred inflows of resources	<u>\$ 50,933,563</u>	<u>\$ 75,302,108</u>

Reclassifications. Certain amounts in the 2020 financial statements and notes thereto have been reclassified to conform to 2021 financial statement presentation.

Other Significant Accounting Policies. Other significant accounting policies are set forth in the following notes.

Note 3 - Cash and Investments

The University is authorized by the Board of Regents to invest all available University cash in short-term investments and other long-term investments. The classification "Cash and cash equivalents" includes cash in banks (deposits), cash on hand, petty cash change funds, and money market funds.

The Foundation (see Note 11) invests endowment and similar funds for the benefit of the University under the terms of a revocable agreement. These assets are invested in the Pool and as of June 30, 2021 and 2020, the University owned 271,325 and 281,427 shares which represented 23.12% and 23.99% of the total shares in the pool, respectively. The fair value per share as of June 30, 2021 and 2020 was \$195.89 and \$149.58, respectively.

Cash. The University's deposits are in demand and time deposit accounts at local financial institutions. The University requires a minimum of 50 percent collateralization of all uninsured funds deposited with a financial institution, with the exception of overnight repurchase agreements, which require 102 percent collateralization. All collateral is held in third-party safekeeping in the name of the University. The majority of the total deposits were invested in interest bearing accounts at June 30, 2021 and 2020.

For cash flow purposes the net change in cash does not include cash and cash equivalents held in trust by the component unit and others.

Investments. The Senior Vice President for Administration and Finance, the Controller, the Associate Controller, and the Banking, Investment and Tax Manager are authorized to purchase and to sell investments of the University. Investments are required to be made in a prudent manner so as to ensure an acceptable yield with a minimum risk within the guidelines of the University's investment policy, which requires investment in securities or other financial instruments which are not contrary to Section 6-10-10 and 46-9A-1 through 46-9A-10 NMSA 1978, existing bond covenants, or other externally placed restrictions. At June 30, 2021 and 2020, all investments are either held in the name of the University by its agent, or held by the University. Investments that will mature in less than one year are considered short-term. The investments not held by the Foundation consisted of U.S. agency securities, U.S. treasury notes, municipal securities, brokered negotiable certificates of deposit with an original maturity of two to five years, and corporate stocks and bonds at June 30, 2021 and 2020. The Foundation's short-term investments in marketable securities consisted entirely of U.S. Government and Agency securities at June 30, 2021 and 2020.

Endowment investments were \$51,851,418 and \$39,853,338 at June 30, 2021 and 2020, respectively, and represent longer term investments in debt and equity securities, including, but not limited to, pooled or common trust funds holding such types of securities, subject to any specific limitation set forth in the applicable gift instrument.

At June 30, 2021 and 2020, the investments of the University and its Discrete Component Unit consisted of the following:

	2021 Fair Value	2020 Fair Value
University		
U.S. Agency Securities	\$ 6,076,340	\$ 6,171,372
U.S. Treasury Securities	41,223,439	6,380,058
Certificates of Deposit	-	6,558,966
Domestic Equity Securities and Corporate Bonds	17,344,041	26,643,291
Pooled Investments Held by Others		
Corporate Stocks and Bonds	36,590,929	26,142,965
U.S. Government and Agency Securities	386,243	249,493
Mortgage Backed Securities	1,209,081	1,104,054
Limited Partnerships - Alternative	12,619,562	11,318,659
Real Estate Holdings	1,045,603	1,038,167
Total Investments	<u>\$ 116,495,238</u>	<u>\$ 85,607,025</u>
Foundation		
Corporate Stocks and Bonds	\$ 132,142,709	\$ 89,750,753
U.S. Government and Agency Securities	2,079,124	776,876

Limited Partnerships - Alternative	41,963,319	35,862,078
Other Investments	79,487,841	3,302,952
Total Investments	<u>\$ 260,841,884</u>	<u>\$ 133,491,711</u>

Investments held in trust by the Foundation for the University are shown in the University section of the table above. Investments held in trust for others by the Foundation are not included in this note.

Beneficial Interest. The New Mexico Land Grant Permanent Fund (LGPF) was originally established pursuant to the Enabling Act for New Mexico passed by the U.S. Congress on June 20, 1910 (which encompassed the Ferguson Act of 1898) and was made the law of New Mexico by its reference in the New Mexico Constitution. The Enabling Act (and its acceptance in the New Mexico Constitution) set forth certain parcels of land granted by the United States in trust to the State for the purposes of establishing a permanent fund which could only be used for the purposes set out in the Enabling Act, namely, the funding of schools and state institutions throughout New Mexico. Highly restrictive criteria governing permitted uses of the assets of the LGPF are specifically prescribed in the New Mexico Constitution. The beneficiaries of the LGPF are also specifically prescribed in the New Mexico Constitution and in state statute. The University is one of the specific entities identified that has a beneficial interest in the LGPF. However, with the adoption of the State's new policy on July 1, 2016, the University's beneficial interest in the LGPF will now be presented within a special revenue fund in the State ACFR and will no longer be presented in the educational institution enterprise fund.

As an entity with a beneficial interest, the University receives monthly distributions of income from the LGPF as required by law. The University's beneficial interest and income received from this beneficial interest as of and for the years ending June 30, 2021 and 2020 are as follows:

	2021	2020
Balance of the University's beneficial interest as of June 30	\$85,049,056	\$70,031,543
Income received from the University's beneficial interest in the LGPF for the period ending June 30	\$ 3,041,633	\$ 2,979,812

Assets held by the Foundation for the University. The following is a schedule of the makeup of pooled cash and investments held by the Discrete Component Unit for the University at June 30, 2021 and 2020.

	2021	2020
Equities	60 %	77 %
Fixed income	2 %	3 %
Cash and cash equivalents	11 %	18 %
Investments not securities	27 %	2 %
	<u>100 %</u>	<u>100 %</u>

Collateralization of Deposits. At June 30, 2021 and 2020, the recorded values of the University's cash and time deposits with financial institutions were \$57,216,596 and \$48,212,856, respectively. Bank balances, which differ from the reported values due to reconciling items, are categorized and presented in the following table:

	2021	2020
University and Fiduciary Fund		
Amount insured by the Federal Deposit Insurance Corporation (FDIC)	\$ 534,629	\$ 551,093
Amount collateralized with securities held by the pledging financial institution	63,818,563	51,885,989
Uncollateralized	<u>47,248</u>	<u>60,725</u>
Total cash and time deposit bank balances	64,400,440	52,497,807
Reconciling Items:		
Add: cash equivalents	138,394,032	131,524,207
Add: cash equivalents held by others	2,717,427	5,847,476
Less: other reconciling items	<u>(7,183,844)</u>	<u>(4,284,951)</u>
Total reported cash balance	<u>\$198,328,055</u>	<u>\$185,584,539</u>
Foundation		
Amount insured by the FDIC	\$ 500,000	\$ 500,000
Amount in excess of FDIC, Lloyd's of London and Security Investor Protection Corporation (SIPC)	27,876,256	29,246,916
Amount at Merrill Lynch insured by SIPC, Lloyd's of London and the FDIC	<u>2,500,000</u>	<u>2,500,000</u>
Total reported cash balance	<u>\$ 30,876,256</u>	<u>\$ 32,246,916</u>

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the University's investment policy, investment maturities are scheduled to coincide with the University's projected cash requirements. The University does not commit any discretionary funds to financial instruments with maturities longer than ten years from the date of purchase. Funds are only committed to maturities longer than five years from date of purchase if directly related to a specific capital or other long-term project. The maturity dates on non-discretionary fund investments do not exceed the final maturity dates established within the funds' restrictive purposes. At least 50% of all cash and investment balances are invested in instruments with maturities less than two years.

A summary of the investments at June 30, 2021, and their exposure to interest rate risk based on the length of the investment follows:

	Fair Value	Less than 1 Year	1 - 5 Years	6 - 10 Years	Greater than 10 Years
University

Total Investments	<u>\$133,491,711</u>				

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's investment policy limits investment in money market instruments and other securities of commercial banks, broker-dealers, or recognized financial institutions to those rated in the highest rating category by a nationally recognized statistical rating organization (NRSRO) or which are guaranteed by a person or entity whose long-term debt obligations are rated in the highest rating category by a NRSRO. This includes without limitation, securities of, or other interests in, any open-end or closed-end management type investment company or investment trust registered under the provisions of 15 USC Sections 80(a)-1 et. seq., which invest only in obligations of the government of the United States of America or securities that are secured by obligations of the government of the United States of America.

A summary of the investments at June 30, 2021, and their exposure to credit risk follows:

	Rating	Fair Value
University		
U.S. agency securities	S&P/Moody's - AA+/Aaa	\$ 6,076,340
U.S. treasury securities	Not rated	41,223,439
Corporate bonds	S&P/Moody's - AA+/Aaa	16,556,308
Domestic equity securities	Not rated	787,733
Pooled Investments		
U.S. government and agency securities	Aaa	386,243
Mortgage-backed securities	Not rated	1,209,081
Domestic equity securities	Not rated	31,914,089
Corporate bonds	A1 to BAA1	226,244
Foreign equity securities	Not rated	4,450,596
Limited partnerships - Alternative	Not rated	12,619,562
Real estate holdings (investments not securities)	Not rated	1,045,603
Total Investments		<u>\$ 116,495,238</u>
Foundation		
U.S. government and agency securities	Moody's---Aaa	\$ 2,079,124
Certificates of deposit	Federally insured	105,264
Other time deposits	Not rated	309,252
Corporate bonds	A1 to BAA1	1,618,849
Domestic equity securities	Not rated	60,391,460
Mutual funds	Not rated	55,333,014
Foreign equity securities	Not rated	14,799,386
Mortgage-backed securities	Not rated	4,754,375
Limited partnerships - Alternative	Not rated	41,963,319
Other investments (investments not securities)	Not rated	79,487,841
Total Investments		<u>\$ 260,841,884</u>

A summary of the investments at June 30, 2020, and their exposure to credit risk follows:

	Rating	Fair Value
University		
U.S. agency securities	S&P/Moody's - AA+/Aaa	\$ 6,171,374
Certificates of deposits	Federally insured	6,484,000
Certificates of deposits	Subject to custodial credit risk	74,966
U.S. treasury securities	Not rated	6,380,058
Corporate bonds	S&P/Moody's - AA+/Aaa	25,996,516
Domestic equity securities	Not rated	646,775
Pooled Investments		
U.S. government and agency securities	Aaa	249,493
Mortgage-backed securities	Not rated	1,104,054
Domestic equity securities	Not rated	22,539,130
Corporate bonds	A1 to BAA1	252,954
Foreign equity securities	Not rated	3,350,879
Limited partnerships - Alternative	Not rated	11,318,659

Other time deposits	Not rated	196,794
Corporate bonds	A1 to BAA1	801,452
Domestic equity securities	Not rated	40,384,362
Mutual funds	Not rated	37,948,001
Foreign equity securities	Not rated	10,616,938
Mortgage-backed securities	Not rated	3,498,088
Limited partnerships - Alternative	Not rated	35,862,078
Real estate holdings (investments not securities)	Not rated	3,302,952
Total Investments		<u><u>\$ 133,491,711</u></u>

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributable to the magnitude of an entity's investment in a single issuer. The University diversifies its use of investment instruments to avoid incurring unreasonable risk inherent in over-investing in specific instruments, individual financial institutions or maturities. With the exception of U.S. Treasury securities and authorized pools, no more than 50% of the total investment portfolio is invested in a single security type or with a single financial institution or at a single maturity. The University holds no investments subject to concentration of credit risk with any issuer that represents 5% or more of total investments.

Custodial Credit Risk – Deposits. This is the risk that in the event of a bank failure, the University's deposits may not be returned. Neither the University, nor its discretely presented component unit, the Foundation, has a deposit policy for custodial credit risk. As of June 30, 2021 and 2020, total bank balances of the University were \$202,794,473 and \$184,022,014, respectively. None of these balances are subject to custodial credit risk.

Custodial Credit Risk – Investments. This is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. None of the investments are subject to custodial credit risk.

Fair Value of Assets and Liabilities. GASB Statement No. 72 (*Fair Value Measurement and Application*) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GASB 72 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

Level 1

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include exchange traded equities.

Level 2

If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include governmental and corporate bonds, foreign obligations, and collateralized mortgage backed securities.

Level 3

Investments classified within Level 3 have significant unobservable inputs. The valuation of these funds is determined by unobservable inputs such as recent purchases and sales, underlying fund holdings, and information provided by fund managers and general partners including: audited financials, unaudited financial statements, and net asset valuations.

Investments that do not have a readily determinable fair value are recorded using net asset value (NAV). NAV is generally provided by the investment managers but the Foundation considers the reasonableness of the NAV, based on market information, to arrive at the fair value estimate for each investment.

In certain cases, both observable and unobservable inputs may be used to determine the fair value of investments and, in such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The degree of judgment exercised in determining fair value is greatest for investments in Level 3. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material. Level 3 investments at the University consist of land and buildings held at the Foundation.

The following is a description of the valuation methodologies used for assets measured at fair value.

Government Securities and Corporate Bonds are valued at the closing price reported on the major market on which the individual securities are traded or have reported broker trades which may be considered indicative of an active market. Where quoted prices are available in an active market, the investments are classified within Level 1 of the valuation hierarchy. If quoted prices are not available for the specific security, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, discounted cash flows and other observable inputs. Such securities would be classified within Level 2 of the valuation hierarchy.

Hedge Fund and Venture Capital Investments, which are not readily marketable, are carried at estimated fair values. Fair value is based upon information provided by the management of each Fund, including audited financial statements and any other relevant factors. Because of the absence of a readily determinable fair value and the inherent uncertainty of valuation, the estimated fair value may differ significantly from the value that would have been used had a ready market for the investment existed, and the difference could be material. These investments are not immediately redeemable at the reporting date. These investments have significant unobservable inputs and are classified as NAV.

Real Estate is valued at current appraisal or fair value. Real estate is classified within Level 3 of the valuation hierarchy.

Equity Securities are valued at the closing price reported on the active market on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy. Nonredeemable securities are not reported on the active market and are classified within Level 3 of the valuation hierarchy.

The following table presents the fair value measurements of University assets recognized in the accompanying Statement of Net Position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2021.

Note 4 – Accounts Receivable and Unearned Revenue

Accounts receivable consists of the following at June 30, 2021 and 2020:

	2021	2020
University		
Student tuition and fees	\$ 55,840,962	\$ 56,472,053
Federal, state, and private grants and contracts	29,140,384	32,551,086
Other	6,306,946	4,405,179
Due from Discrete Component Unit	1,534,251	1,554,371
Less: allowance for doubtful accounts	<u>(43,854,682)</u>	<u>(42,239,717)</u>
Net accounts receivable	<u>\$ 48,967,861</u>	<u>\$ 52,742,972</u>
Fiduciary Fund		
Net miscellaneous accounts receivable	<u>\$ 45,113</u>	<u>\$ 26,497</u>
Foundation		
Net miscellaneous accounts receivable	<u>\$ 5,817,793</u>	<u>\$ 11,291,316</u>

The allowance for doubtful accounts includes consideration for the credit risk associated with the various receivables.

Unearned revenue consists of the following at June 30, 2021 and 2020:

	2021	2020
University		
Student tuition and fees	\$ 2,401,298	\$ 1,787,971
Federal, state, and private grants and contracts	7,963,290	4,703,157
Other	<u>13,026,634</u>	<u>8,172,986</u>
Total unearned revenue	<u>\$ 23,391,222</u>	<u>\$ 14,664,114</u>
Fiduciary Fund		
Unearned revenue	<u>\$ -</u>	<u>\$ 3,038</u>
Foundation		
Total unearned revenue	<u>\$ 366,402</u>	<u>\$ 464,575</u>

Note 5 – Capital Assets

Capital assets as detailed below are stated at cost, or if contributed, at acquisition value at the date of gift. Net interest expense incurred during the construction period on revenue bond funded projects is capitalized as an asset.

The University's main campus has New Mexico State District Court endorsed water rights equaling 11,454 acre feet per annum. As there is no cost basis for these assets, neither the water rights nor the livestock bred by the University are presented in the accompanying Statements of Net Position.

The State of New Mexico Land Office holds 193,272 surface and 254,627 sub-surface acres in trust for the University and manages the commercial use of this property including various leases and oil and gas exploration. The value of the land is recorded at the State of New Mexico Land Office; therefore this amount is not presented in the accompanying Statements of Net Position.

Changes in capital asset balances for the year ended June 30, 2021, were as follows:

	Balance July 1 2020	Additions	Transfers	Retirements	Balance June 30 2021
University					
Capital assets not depreciated:					
Land and land improvements	\$ 12,443,083	\$ 287,859	\$ -	\$ -	\$ 12,730,942

Bonds Payable. The University issued the 2019 refunding bonds (Series 2019A and Series 2019B) on October 23, 2019. Proceeds of the Series 2019A Bonds were used to refund remaining outstanding unrefunded Series 2010B Bonds. Proceeds of the 2019B Bonds were used to refund the remaining 2010C Bonds. The University experienced an economic savings of \$1,607,109 and \$1,046,719 from the 2019A and 2019B Bonds, respectively.

On April 1, 2020 proceeds from the Series 2017C crossover refunding were used to refund a portion of Series 2010B Bonds. As of June 30, 2021, there are \$9,930,000 of outstanding bonds that have been defeased through an irrevocable trust. All other outstanding University revenue bonds as of June 30, 2020 were issued as parity bonds and are all tax exempt. All bonds are payable solely from, and secured by, a pledge of and a non-exclusive first lien on certain pledged revenues. The revenues pledged to meet these debt obligations are student tuition and fees, sales and services, other operating income, investment income, and building fees. The pledged revenues for fiscal years 2021 and 2020 are \$198,715,000 and \$194,069,000, respectively. Interest payments are made twice a year, on October 1 and April 1 while principal is paid annually on April 1. Allowable premiums, and discounts on bonds payable are recorded in total and amortized according to the bonds outstanding method, which approximates the effective interest method.

The bond interest expense incurred for the fiscal years 2020 and 2020 was \$3,600,064 and \$5,336,183, respectively, net of interest income.

Total University bonds issued and outstanding at June 30, 2021 and 2020 :

	Total Issued	2021	Outstanding 2020
Refunding and Improvement Revenue Bonds			
Bond Series 2010A, 2010B, 2010C, 2010D (1.89% - 5.27%) Final Maturity 2030	78,670,000	-	390,000
Refunding and Improvement Revenue Bonds			
Bond Series 2013A, 2013B, 2013C (2.00% - 5.00%) Final Maturity 2033	56,200,000	16,285,000	18,870,000
Refunding and Improvement Revenue Bonds			
Bond Series 2017A, 2017B, 2017C (1.75% - 5.00%) Final Maturity 2042	73,240,000	65,730,000	68,505,000
Refunding and Improvement Revenue Bonds			
Bond Series 2019A and 2019B (2.00% - 5.00%) Final Maturity 2040	24,985,000	23,225,000	24,865,000
Total Bonds Payable	233,095,000	105,240,000	112,630,000
Plus: Unamortized Net Premium	20,646,409	8,112,890	9,366,132
Bonds Payable, net	<u>\$ 253,741,409</u>	<u>\$ 113,352,890</u>	<u>\$ 121,996,132</u>

The maturity schedule for the University bonds payable at June 30, 2021, follows:

Year Ending June 30	Principal	Interest
2022	\$ 7,355,000	\$ 4,608,330
2023	7,290,000	4,277,086
2024	6,660,000	3,948,034
2025	6,940,000	3,649,426
2026	6,360,000	3,336,720
2027-2031	30,195,000	12,613,330
2032-2036	24,180,000	6,676,575
2037-2041	14,135,000	2,227,637
2042	2,125,000	106,250
Total	<u>\$ 105,240,000</u>	<u>\$ 41,443,388</u>

Notes Payable. The Board of Regents issued a tax-exempt Subordinate Lien Improvement Revenue Note, Series 2014 on April 21, 2014 in a direct purchase with BOKF, NA dba Bank of Albuquerque. The original principal amount of the note was \$15,865,000 and the interest rate is 3.07%. The note is payable solely from, and secured by, a pledge of, and a non-exclusive subordinate lien on the following revenues: student tuition and fees; sales and service revenue; other operating revenue; investment income; and, building fees. Interest payments began on October 1, 2014 and are due semiannually thereafter on April 1 and October 1 of each year. Principal payments are due April 1 each year, beginning April 1, 2016. The note matures April 1, 2029.

The interest expense incurred on the note was \$317,438 and \$346,450 for fiscal years ended June 30, 2021 and 2020, respectively.

The maturity schedule for the subordinate revenue note at June 30, 2021, follows:

Year Ending June 30	Principal	Interest
2022	\$ 1,090,000	\$ 286,278
2023	1,165,000	252,815
2024	1,240,000	217,049
2025	1,325,000	178,981
2026	1,410,000	138,304
2027-2028	3,095,000	143,983
Total	<u>\$ 9,325,000</u>	<u>\$ 1,217,410</u>

Lease Liability. The University acquires various types of equipment under lease agreements. All lease agreements contain a fiscal funding clause, which allows the lease agreements to be canceled if funding for future periods is not appropriated. University administration believes that the likelihood of this occurrence is remote. The following tables detail the carrying value of assets acquired under these arrangements, the net present value of minimum lease payments, future minimum lease payments and the portion of the lease payments representing interest at June 30, 2021.

Type of Property	Asset Carrying Value	Net Present Value of Minimum Lease Payments
Office equipment	\$ 354,924	\$ 277,409
Computer equipment	315,285	105,095
Real Estate	1,049,954	827,186
Total	<u>\$ 1,720,163</u>	<u>\$ 1,209,690</u>

Year Ending June 30	Principal	Interest	Minimum Payments
2022	\$ 402,731	\$ 13,534	\$ 416,265
2023	302,872	10,627	313,499
2024	211,190	7,647	218,837
2025	282,437	4,592	287,029
2026	10,460	1,459	11,919
Total	<u>\$ 1,209,690</u>	<u>\$ 37,859</u>	<u>\$ 1,247,549</u>

Note 7 – Health Insurance

The University provides group health insurance coverage for all regular employees working 30 hours per week or more and term appointment employees working 30 hours per week or more. Coverage is optional and is available the first pay period after 30 days of employment. The University's portion of the premium is based on the employee's annual salary. Employee contributions are required for personal, as well as spouse, qualified domestic partner and dependent coverage.

The University participates in the State of New Mexico (State) group health insurance program. Premiums are paid to the State. The State program assumes full responsibility for all claims.

Eligible retirees who were enrolled in health insurance for a minimum of ten consecutive years prior to retirement may elect to continue health insurance coverage through the University's program. The University contributes 60% of the premiums for retirees and their dependents until the retiree reaches age 70, after which, the University contributes 30%. Retiree health insurance is not offered to employees hired after June 30, 2016.

The University participates in a fully insured plan for the eligible active retirees. Premiums are paid to the insurance carrier. The insurance carrier assumes full responsibility for all claims.

Note 8 – Retirement Programs

The University offers three retirement plans. All eligible employees working more than 25% full-time equivalent are required to participate in one of the first two plans described below. Student employees do not participate in these plans.

A. Educational Retirement Act

Plan Description. Substantially all of the University's eligible employees, except those who participate in the Alternative Retirement Plan (ARP) described below, participate in a public employee retirement system authorized under the Educational Retirement Act (ERA) of the State of New Mexico (Chapter 22, Article 11 NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits, and cost-of-living adjustments to plan members (certified teachers, and other employees of State public school districts, colleges and universities) and beneficiaries. ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to ERB, P.O. Box 26129, Santa Fe, New Mexico 87502. The report is also available on ERB's website at www.nmerb.org.

Return to Work Program. Effective January 1, 2002, the ERB implemented a retiree Return-To-Work (RTW) program whereby the University is required to make regular employer contributions on eligible retiree wages. As of July 1, 2011, House Bill 129 was passed requiring returning retirees to contribute the employee portion. As of April 4, 2019, House Bill 360 was passed requiring all working retirees and the University to make regular employer contribution on eligible retiree wages.

Funding Policy. The contribution requirements of plan members and the University are established in State statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature.

A summary of member and employer contributions to the Educational Retirement Board is provided below:

	2021	2020	2019
Employee's earning \$24,000 or less in 2021 and 2020 and \$20,000 or less in 2019:			
University contribution	14.15%	14.15%	13.90%
Employee contribution	7.90%	7.90%	7.90%
Employee's earning \$24,000 or less in 2021 and 2020 and \$20,000 or less in 2019:			
University contribution	14.15%	14.15%	13.90%
Employee contribution	10.70%	10.70%	10.70%
University's contribution to ERB	\$ 28,188,265	\$ 26,135,142	\$ 24,766,759
University's contribution to ERB for Return to Work Program	\$278,796	\$270,671	\$214,381

For members hired after June 30, 2019, the multiplier applied to the final average compensation will accrue to the following schedule:

Years of Service	Benefit Percentage Earned
1-10	1.35%
11-20	2.35%
21-30	3.35%
31+	2.40%

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The June 30, 2021 total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2019. The total ERB pension liability was rolled forward from the valuation date to the plan year June 30, 2020, using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2020. At June 30, 2021 and 2020 the University reported liabilities of \$1,257,204,608 and \$487,324,359, respectively, for its proportionate share of the net pension liability. The proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2020. The contribution amounts were defined by Section 22-11-21, NMSA 1978. At June 30, 2020, the University's proportion was 6.20355% which was a decrease of 0.22782% from its proportion measured as of June 30, 2019. At June 30, 2019, the University proportion was 6.43137% which was a decrease of 0.23093% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2021, the University recognized a pension expense of \$293,163,731. At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 7,804,685	\$ 4,847,698
Changes of assumptions	503,772,630	-
Net difference between projected and actual earnings on pension plan investments	42,689,616	-
Changes in proportion and differences between University contributions and proportionate share of contributions	-	21,972,246
University contributions subsequent to the measurement date	27,684,763	-
Total	<u>\$ 581,951,694</u>	<u>\$ 26,819,944</u>

The \$27,684,763 reported as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date of June 30, 2020 will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

For the year ended June 30, 2020, the University recognized a negative adjustment to pension expense of \$168,722,484 due to changes in pension obligations. At June 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2020	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 12,772,118
Changes of assumptions	68,665,173	-
Net difference between projected and actual earnings on pension plan investments	-	10,378,376
Changes in proportion and differences between University contributions and proportionate share of contributions	-	22,796,699
University contributions subsequent to the measurement date	28,188,265	-
Total	<u>\$ 96,853,438</u>	<u>\$ 45,947,193</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2022	\$ 204,649,267
2023	210,558,745
2024	99,179,365
2025	13,059,610
	<u>\$ 527,446,987</u>

Actuarial assumptions: As described above, the June 30, 2021 total ERB pension liability and net pension liability are based on an actuarial valuation performed as of June 30, 2019. The total ERB pension liability was rolled forward from the valuation date to the Plan year June 30, 2020 using generally accepted actuarial principles. Specifically, the liabilities measured as of June 30, 2020 incorporate the following assumptions:

All members with an annual salary of more than \$24,000 will contribute 10.70% during the fiscal year ended June 30, 2020 and thereafter.

Members hired after June 30, 2013 will have an actuarially reduced retirement benefit if they retire before age 55 and their COLA will be deferred until age 67.

COLAs for most retirees are reduced until ERB attains a 100% funded status.

These assumptions were adopted by ERB on April 21, 2017 in conjunction with the six-year experience study period June 30, 2016.

For the purposes of projecting future benefits, it is assumed that the full COLA is paid in all future years.

The actuarial methods and assumptions used to determine total pension liability included in the measurement are as follows:

Inflation	2.50%
Salary Increases	Composition; 2.30% inflation, plus .75% productivity increase rate, plus step-rate promotional increases for members with less than 10 years of service
Investment Rate of Return	7.00%
Single Discount Rate	3.89%
Retirement Age	Experienced-based table rates based on age and service. Adopted by NMERB on April 21, 2020 in conjunction with the six- year experience study for the period ended June 30, 2019.
Mortality	<p>Healthy Males - RP-2000 GRS Southwest Region Teacher Mortality Table, set back one year and scaled at 95%. Generational mortality improvements in accordance with the Ultimate MP scales are projected from year 2020.</p> <p>Healthy Females - GRS Southwest Region Teacher Mortality Table, set back one year. Generational mortality improvements in accordance with the Ultimate MP scales are projected from the year 2020.</p>
Cost-of-living increases	1.90% per year, compounded annually
Payroll growth	3.00% per year
Contribution accumulation	5.5% increase per year for all years prior to the valuation date
Disability Incidence	Approved rates applied to eligible members with at least 10 years of service
Actuarial Cost Method	Entry Age Normal

The long-term expected rate of return on pension plan investments is determined annually using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Changes of Benefit Terms and Assumptions: Actuarial assumptions and methods are set by the Board of Trustee, based upon recommendations made by the Plan's actuary. House Bill 360 was signed into law on April 4, 2019 and modified several benefit provisions of the Plan. Key among those changes was an increase in employer contributions from 13.90% to 14.15% as noted previously in this footnote. Other changes were also adopted which positively benefited the unfunded status of the Plan. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, the Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.25% to 7.00%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

The target allocation for each major asset class and total expected real rate of return are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Equities - Domestic	17%	
Equities - International	14%	
Fixed Income	24%	
Alternatives	44%	
Cash	1%	
Total	100%	7.00%

Discount rate: A single discount rate of 3.89% and 7.25% was used to measure the total ERB pension liability as of June 30, 2020 and June 30, 2019, respectively. For 2020, the single discount rate was based on an expected rate of return on pension plan investments of 7.00% a municipal bond rate of 2.45%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current pension plan members. For 2019, the single discount rate was based on the expected rate of return on pension investments of 7.25%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2046. As a result, the long term expected rate of return on Plan investments was applied to projected benefit payments through the 2046 fiscal year, and the municipal bond rate was applied to all benefit payments after that date.

Sensitivity of the University's proportionate shares of the net pension liability to changes in the discount rate: The following tables show the sensitivity of the net pension liability to changes in the discount rate as of fiscal year end 2021 and 2020. In particular, the table presents the University's net pension liability under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower, (2.89%) and (6.25%), or one percentage point higher, (4.89%) and (8.25%) than the single discount rate for June 30, 2020 and 2019, respectively.

	2021 1% Decrease (2.89%)	Current Discount Rate (3.89%)	1% Increase (4.89%)
New Mexico State University's proportionate share of the net pension liability	\$ 1,587,712,720	\$ 1,257,204,608	\$ 991,289,351

	2020 1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
New Mexico State University's proportionate share of the net pension liability	\$ 657,850,564	\$ 487,324,359	\$ 346,282,977

Pension plan fiduciary net position: Detailed information about the ERB's fiduciary net position is available in the separately issued audited financial statements as of and for June 30, 2020 and 2019 which are publicly available at www.erb.org.

B. Alternative Retirement Program

Plan Description. The New Mexico Alternative Retirement Plan (ARP) was established by amendment to Chapter 22, Article 11, Section 47-52. Certain faculty and professional staff hired on or after July 1, 1991, may elect to participate in an alternative defined contribution retirement plan in lieu of participation in the ERA in accordance with policies stipulated by the Board of Regents. The two carriers approved by the ERB are the Teachers Insurance and Annuity Association/College Retirement Equities Fund and Fidelity Investments. Employees are allowed to transfer between carriers once each year. Vesting is immediate and benefits may be distributed as an annuity, a roll over, or a withdrawal.

Effective July 1, 2009, employees, after 7 years of contribution to the ARP, have a one-time opportunity to move to the ERB's defined benefit plan. Section 51 allows members of the ARP the option to cash out or rollover the ARP account once they have left employment.

A summary of member and employer contributions to the Educational Retirement Board for the Alternative Retirement Program is provided below:

	2021	2020	2019
Employee's earning \$24,000 or less in 2020 and 2019 and \$20,000 or less in 2019:			
University contribution	14.15%	14.15%	13.90%
Employee contribution	7.90%	7.90%	7.90%
Employee's earning \$24,000 or less in 2020 and 2019 and \$20,000 or less in 2019:			
University contribution	14.15%	14.15%	13.90%
Employee contribution	10.70%	10.70%	10.70%
Administration fee to ERB	3.25%	3.25%	3.00%
Payroll expenses covered by ARP	\$ 35,096,862	\$ 33,359,460	\$ 30,308,256
University's contribution to the ERB for ARP	\$ 3,827,195	\$ 3,638,320	\$ 3,304,119
Administration fee paid to ERB for ARP	\$ 1,140,648	\$ 1,084,144	\$ 909,248
Employee contributions made to ARP	\$ 3,756,969	\$ 3,571,562	\$ 3,243,491

C. Federal Retirement Program

Plan Description. Certain employees of the University working under the auspices of the United States Department of Agriculture (through various University sponsored extension programs) are covered under the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS), established with the passage of Public Law 99-335. Both are defined benefit retirement plans. FERS is a three-tiered retirement plan (covering substantially all Federal employees hired subsequent to December 31, 1986) combining Social Security benefits with a basic benefit plan and a thrift savings plan. Employees hired prior to 1984 do not participate in Social Security, but have the ability to transfer to FERS at their own discretion. The CSRS and FERS are administered by the U.S. Office of Personnel Management, Retirement Operations Center, P.O. Box 45, Boyers, Pennsylvania 16017.

Contributions Required. Employees covered by CSRS and FERS are considered federal employees, and as such, are obligated to contribute according to the guidelines of the federal government. For the year ended June 30, 2021 there was 0 employees enrolled under CSRS and 2 employees under FERS.

A summary of member and employer contributions to the Federal Retirement Program is provided below:

	2021	2020	2019
Employee's covered by CSRS:			
University contribution	7.00%	7.00%	7.00%
Employee contribution	7.00%	7.00%	7.00%
Employee's covered by FERS:			
University contribution	13.70%	13.70%	13.70%
Employee contribution	0.80%	0.80%	0.80%
University's contribution	\$ 35,403	\$ 127,192	\$ 127,192
Employee's contribution	\$ 1,770	\$ 16,078	\$ 16,078

Note 9 – Other Postemployment Benefits Plan

Plan Description. New Mexico State University is a single employer that offers employees and their eligible dependents retiree benefits. This is an unfunded OPEB plan operating on a pay as you go basis. The authority to establish and amend the benefit provisions rests with the Board of Regents.

Retirees, who have had 10 consecutive years of health insurance coverage with the University at the time of retirement, are offered the opportunity to participate in a fully-insured PPO medical plan, including prescription drugs. Medicare retirees (for retirees 65 years of age and over) are offered the opportunity to participate in a Medicare carve-out medical plan, including prescription drugs. Eligible retired employees may select a Life Insurance benefit up to \$10,000. All premiums for life insurance are paid by the retiree.

The University currently pays 60% of the monthly medical and prescription premium for retirees and their eligible dependents until the retiree reaches age 70, at which time the University reduces their contribution to 30%. As of June 30, 2021 and 2020, 1,438 and 1,401 retirees met the eligibility requirements for health insurance, respectively.

Employees hired after June 30, 2016 are not offered this benefit.

Plan Participation Percentage. The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 85% of all pre Medicare employees and their dependents who are eligible for early retirement will participate in the retiree medical plan. It is also assumed that 80% of those enrolled in the pre Medicare plans will continue on the plan once Medicare eligible. Lastly, it is assumed that 88% of all pre Medicare employees who are eligible for the retiree life insurance benefit will participate, and 91% of those enrolled will continue on the plan once Medicare eligible. This assumes that a one-time irrevocable election to participate is made at retirement.

Employees covered by benefit terms - At June 30, 2021 and 2020, the following employees were covered by the benefit terms:

	2021	2020
Current retirees receiving benefits	1,880	1,802
Current active members	1,938	2,052

Annual OPEB Cost and Total OPEB Obligation. The University's annual other postemployment benefit (OPEB) Service/Interest cost (expense) is the portion of the Actuarial Present Value of plan benefits and expenses for active employees which is allocated to a valuation year by the Actuarial Cost Method. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's total OPEB obligation related for fiscal year 2021:

	Total OPEB Liability
Total OPEB Liability - Start of Year (July 1, 2020)	\$ 165,830,023
Changes for the year	
Service cost	6,497,191
Interest cost	3,745,243
Changes in assumptions or other inputs	1,339,732
Benefit payments	(5,718,396)
Net change in total OPEB liability	5,863,770
Total OPEB Liability - End of Year (June 30, 2021)	\$ 171,693,793

The total OPEB liability and sensitive information were based on an annual actuarial valuation performed as of June 30, 2020.

The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's total OPEB obligation related for fiscal year 2020:

	Total OPEB Liability
Total OPEB Liability - Start of Year (July 1, 2019)	\$ 145,672,186
Changes for the year	
Service cost	5,787,303
Interest cost	5,208,772
Differences between expected and actual experience	(13,724,348)
Changes in assumptions or other inputs	28,160,992
Benefit payments	(5,274,882)
Net change in total OPEB liability	20,157,837
Total OPEB Liability - End of Year (June 30, 2020)	\$ 165,830,023

The total OPEB liability and sensitive information were based on an annual actuarial valuation performed as of June 30, 2020. The discount rate is the only applicable change in the valuation.

A summary of the key results are shown below for fiscal year ended June 30, 2021 and 2020:

	2021	2020
Present Value of Future Benefits	\$ 218,085,105	\$ 216,931,687
Total OPEB Liability (Beginning of Fiscal Year)	\$ 165,830,023	\$ 145,672,186
Total OPEB Liability (End of Fiscal Year)	\$ 171,693,793	\$ 165,830,023

For the year ended June 30, 2021, the University recognized a OPEB expense of \$14,755,057. At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 6,464,747
Changes of assumptions	17,290,742	1,257,855
Total	\$ 17,290,742	\$ 7,722,602

For the year ended June 30, 2020, the University recognized a OPEB expense of \$15,154,367. At June 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2020	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 10,094,548
Changes of assumptions	\$ 25,118,426	\$ 2,282,848
Total	<u>\$ 25,118,426</u>	<u>\$ 12,377,396</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30	
2022	\$ 4,512,623
2023	4,468,647
2024	<u>586,870</u>
	<u>\$ 9,568,140</u>

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The Entry Age Normal Actuarial Cost Method was used based on level percentage of projected salary. The OPEB liability is based on an actuarial valuation performed as of June 30, 2021, conducted in accordance with generally accepted actuarial principles.

The actuarial methods and assumptions used to determine the total OPEB liability included in the measurement are as follows:

Valuation Date	June 30, 2020
Measurement Date	June 30, 2021
Discount Rate	2.16% per annum <i>Source: Bond Buyer 20-Bond GO Index</i>
Salary Increase Rate	2.5% per annum
Inflation Rate	3.0% per annum
Medicare Eligibility	All current and future retirees are assumed to be eligible for Medicare at age 65
Health Care Cost Trend Rate	The actuarial valuation assumes an annual health care cost trend on a select and ultimate basis. Medical and prescription benefits on a select basis at 5.5% for retirees 65 years of age and under and 4.5% for retirees over 65 years of age and on an ultimate basis at 4.5%. The select trend rates are reduced .5% each year until reaching the ultimate trend.
Per Capita Health Claim Cost	Expected pre Medicare retiree claim costs were developed using 24 months of historical claim experience through March 2020. The annual age 60 claim costs for retirees and their spouses is \$7,418. The age 70 costs for retirees is \$3,334.
Mortality Rate	Pub-2010 mortality table with generational scale MP-2019.

Discount Rate. A single discount rate of 2.16% and 2.21% was used to measure the total OPEB liability as of June 30, 2021 and 2020, respectively.

Other Information. The discount rate was updated from the prior valuation. The mortality assumption was updated from RP-2014 mortality table with generational scale MP-2018 to Pub-2010 mortality table with generational scale MP-2019 to reflect the Society of Actuaries' recent mortality study. Experience/Assumptions gains and losses are amortized over a closed period of 3.8 years starting on July 1, 2019, equal to the average remaining service of active and inactive plan members (who have no future service). The Plan participation rates were updated to reflect the participation trend. Currently, the plans are considered to be unfunded as there are no assets and retiree benefits are expected to be paid annually on a cash basis.

Health Care Trend Sensitivity Analysis. The following schedules measures the Total OPEB Liability if the health care cost trend rate used was 1% higher than the assumed health care cost trend rate and 1% lower than the assumed health care cost trend rate for June 30, 2021 and 2020, respectively.

2021			
	1% Decrease	Current Trend	1% Increase
New Mexico State University's total OPEB liability	\$ 147,344,000	\$ 171,693,793	\$ 203,086,000

2020			
	1% Decrease	Current Trend	1% Increase
New Mexico State University's total OPEB liability	\$ 142,312,000	\$ 165,830,023	\$ 196,150,000

Discount Rate Sensitivity Analysis. The following tables show the sensitivity of the OPEB liability to changes in the discount rate as of fiscal year end 2021 and 2020. In particular, the table presents the University's OPEB liability under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower, (1.16%) and (1.21%), or one percentage point higher, (3.16%) and (3.21%) than the single discount rate for June 30, 2021 and 2020, respectively.

2021			
	1% Decrease (1.16%)	Current Discount Rate 2.16%	1% Increase (3.16%)
New Mexico State University's total OPEB liability	\$ 202,222,000	\$ 171,693,793	\$ 147,725,000

2020			
	1% Decrease (1.21%)	Current Discount Rate 2.21%	1% Increase (3.21%)
New Mexico State University's total OPEB liability	\$ 195,315,000	\$ 165,830,023	\$ 142,680,000

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Changes in Total OPEB liability and Related Ratios in accordance with GASB 75 (Schedule 5), presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Note 10 – Commitments

Capitalizable Project Commitments and Financing. The University has entered into contracts for the construction and renovation of various facilities. At June 30, 2021, the estimated remaining costs to complete these and other in-house construction and renovation projects was approximately \$84.5 million. These projects are in various stages of completion. Those deemed to be major projects are expected to be completed by August 2022. The remaining cost of all budgeted projects (both capital and non-capital) will be financed as follows:

Funding Sources	Amount
Revenue bonds	\$ 1,651,945
General obligation bonds (State of New Mexico)	34,965,439
Severance tax bonds (State of New Mexico)	5,200,384
University Funds	15,225,958
State funds	26,841,796
Gifts, grants and contracts	602,540
Total	<u>\$ 84,488,062</u>

Other Commitments. At June 30, 2021, the University had outstanding purchase orders for materials and services which were not received, and thus are not recorded as liabilities in the accompanying Statements of Net Position. The approximate amount of such commitments is \$30.8 million.

Note 11 - Component Units

The following entities support the University in accomplishing its various missions. These entities were selected for inclusion based on criteria as set forth in GASB 14, The Reporting Entity, GASB 39, Determining Whether Certain Organizations Are Components Units, GASB 61, Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34 and GASB 80, Blending Requirements for Certain Component Units - an amendment of GASB Statement No 14. Complete financial statements for these component units can be obtained from each respective administrative office at the addresses listed below.

The Foundation is discretely presented on the face of the financial statements, as prescribed by GASB 14, amended by GASB 39, and further amended by GASB 61. The entity qualifies as discretely presented according to GASB 14, paragraph 40a, because of the nature and significance of its relationship with the University. This relationship meets the direct benefit, access to economic resources and significance of resources criteria. The other component units are blended because the University either completely controls its activities or the entity provide services entirely, or almost entirely to the University in accordance with GASB 39 and GASB 80.

Arrowhead Center, Inc. Arrowhead Center, Inc., a blended component unit, was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. Its purposes are to promote and contribute to economic development and protect, license, and market intellectual property developed by faculty, staff, and students of the University, as well as members of the community, in order to further research and economic development for the State of New Mexico. Arrowhead Center, Inc.'s address is: Arrowhead Center, Inc., MSC 3CR, P.O. Box 30001, Las Cruces, NM 88003.

Summary financial information as of June 30, 2021 and 2020, and for the fiscal years then ended follows:

	2021	2020
Net Position		
Total assets	\$ 16,498,626	\$ 16,498,112
Total liabilities	783,882	788,789
Deferred inflows of resources	14,007,176	14,302,190
Total net position	<u>\$ 1,707,568</u>	<u>\$ 1,407,133</u>
Changes in Net Position		
Total revenues	\$ 845,145	\$ 904,708
Total expenditures	<u>544,710</u>	<u>666,131</u>
Change in net position	300,435	238,577
Net position, beginning	<u>1,407,133</u>	<u>1,168,556</u>
Net position, ending	<u>\$ 1,707,568</u>	<u>\$ 1,407,133</u>

The New Mexico State University Foundation, Inc. The Foundation is a non-profit corporation formed for the purpose of obtaining and disbursing funds for the sole benefit of the University. It is a discrete component unit of the University with financial information presented in a separate column in the University's financial statements. Separate audited financial statements are prepared in accordance with the Financial Accounting Standards Board (FASB). The Foundation's address is: New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003.

Aggie Development, Inc. Aggie Development, Inc., was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. The corporation was established to benefit the University by (1) managing and developing designated University real estate and water rights; (2) contributing all of the corporation's net revenues to the University; and (3) enhancing learning opportunities for students. Since inception, Aggie Development Inc. did not meet the materiality threshold that requires audited financial statements and therefore its activity is included in the NMSU audited financial statements, but no separate details are presented herein. Aggie Development, Inc.'s address is: Aggie Development, Inc., P.O. Box 3145, Las Cruces, NM 88003.

Note 12 – Contingent Liabilities

The University has evaluated contingent liabilities from the balance sheet date through October 31, 2021, the date at which the financial statements were available to be issued, and determined the following item for disclosure:

During the 2021 New Mexico Legislative Session, New Mexico State University Carlsbad was approved to be made into an independent community college known as Southeast New Mexico College. As part of this legislation, all functions, personnel, appropriations, assets and liabilities will be transferred to the new College on April 10, 2022. The effective date of the legislation was July 1, 2021. As of the date of issuance, the new college has not yet established its governing board, and definitions of what assets and liabilities will be included are in the process of being determined. Currently, the impact on New Mexico State University cannot be determined.

Note 13 – Natural Classification Operating Expenses

The University's and Discrete Component Unit's operating expenses by natural classification were as follows:

	2021		2020	
	University	Component Unit	University	Component Unit
Operating Expenses				
Salaries				
Faculty	\$ 96,872,187	\$ -	\$ 97,629,123	\$ -
Exempt staff	109,259,196	2,061,377	109,991,865	2,005,521
Non-exempt staff	14,835,367	-	14,702,480	-
Student/graduate assistant	29,603,921	5,856	32,133,731	8,194
Other compensation	7,147,614	1,861	6,326,084	6,169
Total salaries	<u>257,718,285</u>	<u>2,069,094</u>	<u>260,783,283</u>	<u>2,019,884</u>
Other Operating Expenses				
Benefits*	362,111,405	-	(99,491,358)	-
Travel	3,423,194	7,165	10,222,758	98,310
Scholarship and fellowships and other program support	54,944,465	10,466,792	44,245,498	11,480,762
Utilities	10,946,180	4,682	9,981,459	3,157
Professional fees	20,227,162	374,936	17,423,504	313,826

* Benefits expense for 2020 was impacted by the change in pension liability.

Note 14 – Unrestricted Net Position

Unrestricted net position supports the missions of the University in current and future years. The following is a breakdown of the University's unrestricted net position as of June 30, 2021 (unaudited):

	2021	2020
Unrestricted Net Position	\$ (668,764,380)	\$ (418,538,663)
Add: Unfunded Pension	702,072,858	436,418,114
Add: Long-Term Compensated Absences	14,940,909	14,741,565
Add: Other Post Employment Benefits	<u>162,125,653</u>	<u>153,088,993</u>
Adjusted Unrestricted Net Position	<u>210,375,040</u>	<u>185,710,009</u>
Unrestricted - Instruction and General	\$ 29,641,663	\$ 28,849,609
Unrestricted - Research	20,072,579	18,800,385
Unrestricted - Public Service	10,421,956	7,348,775
Unrestricted - Other	17,203,574	14,032,230
Quasi Endowments Funds	18,180,124	15,454,836
Renewals and Replacements - Buildings	41,221,807	33,777,682
Renewals and Replacements - Auxiliary Enterprises	8,425,214	9,160,396
Renewals and Replacements - Internal Services Units	5,893,485	6,684,931
Renewals and Replacements - Equipment	26,404,758	20,815,316
Unexpended plant - Designated to Projects	6,694,009	7,111,914
Unexpended plant - Future Projects/Contingency	<u>26,215,871</u>	<u>23,673,935</u>
Total	<u>\$ 210,375,040</u>	<u>\$ 185,710,009</u>

Note 15 – Tax Abatements

NMSU does not collect tax revenue nor does it enter into any individual tax abatement agreements. NMSU receives funding through appropriations from the State of New Mexico and the amounts of such appropriations to NMSU may be indirectly affected by Tax Abatement agreements entered into by the State of New Mexico. As a taxing authority, the State of New Mexico has the ability to collect tax revenue and enter into individual tax abatement agreements. The State of New Mexico is required under GASB 77 to provide detailed disclosure regarding its tax abatement agreements in its annual comprehensive financial report (ACFR). No University revenue was impacted by abatement agreements.

Note 16 – New Accounting Standards

GASB Statement No. 87 (*Leases*) was implemented in fiscal year 2021. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The implementation of statement has resulted in changing the presentation of the financial statements. See discussion of impact as described in Note 2.

GASB Statement No. 89 (*Construction Interest Costs*) will become effective for fiscal year 2021, but the University has early adopted this statement for fiscal year 2020.

GASB Statement No. 95 (Postponement of the Effective Dates of Certain Authoritative Guidance) is effective for fiscal year 2021. This statement is intended to provide relief to governments and other stakeholders in light of the COVID-19 pandemic. The guidance postpones, by one year, the effective dates of certain provisions in the following pronouncements:

- Statement No. 87, *Leases* (The University adopted in 2021)

Note 17 – Subsequent Events

The University has evaluated subsequent events from the balance sheet date through October 31, 2021, the date at which the financial statements were available to be issued, and determined there are no additional items to disclose.

Under title 5 of the New Mexico Administrative Code, chapter 3, part 4, paragraph 10 - Items of Budgetary Control: The total expenditures in each of the following budgetary functions will be used as the items of budgetary control. Total expenditures or transfers in each of the following items of budgetary control may not exceed the amounts shown in the approved budget: A. Unrestricted expenditures and restricted expenditures. B. Instruction and general. C. Each budget function in current funds other than instruction and general. D. Within the plant funds budget: major projects, library bonds, equipment bonds, minor capital outlay, renewals and replacements, and debt service. E. Each individual item of transfer between funds and/or functions. Budgets are presented on a modified accrual basis of accounting.

See accompanying independent auditor's report.

Schedule 3B - Budgetary Comparison Schedules - Unrestricted - Instruction and General for June 30, 2021

	Original Budget	Revised Budget	Actuals	Revised Budget vs Actuals - Variance Favorable (Unfavorable)

**Schedule 5 - Schedule of Changes in Total OPEB liability and Related Ratios in accordance with GASB
Statement 75. (unaudited)**

	2021	2020	2019	2018
Total OPEB liability				
Service Cost	\$ 6,497,192	\$ 5,787,303	\$ 5,127,283	\$ 4,936,250
Interest	3,745,243	5,208,772	5,268,892	5,291,343
Current Recognized deferred outflows/(inflows):				
Difference between expected and actual experience	-	(13,724,348)	-	-
Changes of assumptions or other inputs	1,339,732	28,160,992	7,135,616	(5,357,825)
Benefit payments	<u>(5,718,396)</u>	<u>(5,274,882)</u>	<u>(5,758,812)</u>	<u>(5,523,530)</u>
Net change in total OPEB liability	\$ 5,863,771	\$ 20,157,837	\$ 11,772,979	\$ (653,762)
Total OPEB liability-beginning	<u>\$ 165,830,023</u>	<u>\$ 145,672,186</u>	<u>\$ 133,899,207</u>	<u>\$ 134,552,969</u>
Total OPEB liability-ending	<u>\$ 171,693,794</u>	<u>\$ 165,830,023</u>	<u>\$ 145,672,186</u>	<u>\$ 133,899,207</u>
Covered-employee payroll	\$ 135,947,000	\$ 131,987,721	\$ 153,961,000	\$ 150,205,439
Total OPEB liability as a percentage of covered-employee payroll	126 %	126 %	95 %	89 %

	2021	2020	2019	2018
Current retirees receiving benefits	1,880	1,802	1,740	1,716
Inactive employees entitled but not yet receiving benefits	-	-	-	-
Current active members	1,938	2,052	2,366	2,594

This schedule is presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend is compiled, the University is showing four year's presentation. No assets are accumulated in a trust to pay the related benefits. The discount rate is the only applicable change in the valuation.

See accompanying independent auditor's report.

Schedule 6 - Schedule of Proportionate Share of Net Pension Liability and Employer Contributions (unaudited)

The schedule of proportionate share of net pension liability and the schedule of employer contributions present multiyear trend information for the last ten fiscal years. Fiscal year 2015 was the first year of implementation, therefore only seven years are shown. Until a full 10-year trend is compiled, information for those years for which information is available will be presented.

Schedule of Proportionate Share of Net Pension Liability - ERB Plan

	2021	2020	2019
University's proportion of the net pension liability	6.20355%	6.43137 %	6.66230 %
University's proportion share of the net pension liability	\$1,257,204,608	\$ 487,324,359	\$ 792,236,144
University's covered-employee payroll	\$ 206,801,497	\$ 196,414,377	\$ 194,360,458
University's proportionate share of the net pension liability (asset) as a percentage of its covered-employee payroll	607.93 %	248.11 %	407.61 %
Plan fiduciary net position as a percentage of the total pension liability	39.11 %	64.13 %	52.17 %

	2018	2017	2016	2015
University's proportion of the net pension liability	6.75462 %	7.05471 %	7.31378 %	7.56103 %
University's proportion share of the net pension liability	\$ 750,673,479	\$ 507,687,518	\$ 473,733,007	\$ 431,412,011
University's covered-employee payroll	\$ 194,360,458	\$ 201,383,448	\$ 199,689,623	\$ 229,696,230
University's proportionate share of the net pension liability (asset) as a percentage of its covered-employee payroll	386 %	252.10 %	237.23 %	187.82 %
Plan fiduciary net position as a percentage of the total pension liability	52.95 %	61.58 %	63.97 %	66.54 %

Schedule of Employer Contributions - ERB Plan

	2021	2020	2019
Statutorily required employer contribution	\$ 28,041,065	\$ 28,188,265	\$ 26,135,142
Contribution in relation to the statutorily required contribution	<u>28,041,065</u>	<u>28,188,265</u>	<u>26,135,142</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
University's covered-employee payroll	205,566,001	206,801,497	196,414,377
Contributions as percentage of covered-employee payroll	13.64 %	13.63 %	13.31 %

	2018	2017	2016	2015
Statutorily required employer contribution	\$ 25,880,341	\$ 26,736,537	\$ 28,006,297	\$ 31,140,209
Contribution in relation to the statutorily required contribution	<u>25,880,341</u>	<u>26,736,537</u>	<u>28,006,297</u>	<u>31,140,209</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
University's covered-employee payroll	193,115,948	194,360,458	201,383,448	199,689,623
Contributions as percentage of covered-employee payroll	13.40 %	13.76 %	13.91 %	15.59 %

Notes to Schedules:

Changes of Benefit Terms and Assumptions

Actuarial assumptions and methods are set by the Board of Trustee, based upon recommendations made by the Plan's actuary. The Board adopted new assumptions on April 17, 2020 in conjunction with the six-year actuarial experience study period ending June 30, 2019. At that time, The Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 2.50% to 2.30%. The 0.20% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.25% to 7.00%, the assumed annual wage inflation rate from 3.25% to 3.00%. These new assumptions are reflected as changes in assumptions along with the change in the single discount rate between June 30, 2019 and June 30, 2020. As of April 4, 2019, House Bill 360 was passed requiring all working retirees and the University to make regular employer contribution on eligible retiree wages. In addition, HB 360 increased the employer contribution percentage from 13.90% to 14.15%.

See accompanying independent auditor's report.

Plus/(Less) reconciling items:

Adjustment to federal revenue for accrued liabilities and reversals	112,119
Adjustment to federal revenue for Department of Education loans	<u>46,246,942</u>

Federal Expenditures per Schedule 7\$ 194,879,673Notes to Schedule of Expenditures of Federal Awards**Note A:** Basis Of Presentation

The accompanying schedule of expenditures of Federal Awards (the schedule) is prepared on the accrual basis of accounting and includes the federal grant activity of the University under programs of the Federal Government for the year ended June 30, 2021. The information in this schedule is presented in accordance with 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Because the schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position, or cash flows of the University.

Note B: Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards follows the accounting policies presented in Note 2 of the University's Notes to Financial Statements.

Note C: Federal Direct Student Loans, CFDA # 84.268. During the fiscal year ended June 30, 2021, the University processed \$34,820,409 in new loans under the Direct Student Loan Program (which includes Stafford Loans and Parents' Plus Loans).

Note D: During the fiscal year ended June 30, 2021, there were no federal funds made available in the form of non-cash assistance.

Note E: Federal Perkins Loan Program, CFDA # 84.038. No additional Perkins loans were awarded for the year ended June 30, 2021, and the outstanding student loan balances under the Federal Perkins Loan Program was \$5,499,866.

Note F: New Mexico State University has elected not to use the 10% de minimis indirect cost rate.

See accompanying independent auditor's report.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Regents
New Mexico State University
and
Mr. Brian S. Colón, Esq.
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, fiduciary activities, and the discretely presented component unit of the New Mexico State University (the University) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise University's basic financial statements, and have issued our report thereon dated October 29, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that are required to be reported per Section 12-6-5 NMSA 1978, that we have described in the Section 12-6-5 NMSA 1978 Findings Schedule, as items 2021-001, 2021-002, and 2021-003.

The University's Response to Findings

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mess Adams LLP

Albuquerque, New Mexico
October 29, 2021

Report of Independent Auditors on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

The Board of Regents
New Mexico State University
and
Mr. Brian S. Colón, Esq.
New Mexico State Auditor

Report on Compliance for Each Major Federal Program

We have audited New Mexico State University (the University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2021. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Mess Adams LLP

Albuquerque, New Mexico

**Schedule of Findings and Questioned Costs
Year ended June 30, 2021**

(1) Summary of Auditor's Results

(a) Type of report the auditor issued on whether the financial statements were prepared in accordance with generally accepted accounting principles: **Unmodified**

(b) Internal control deficiencies over financial reporting:

Material weakness(es) identified: **No**

Significant deficiency(ies): **None reported**

(c) Noncompliance material to the financial statements noted: **No**

(d) Internal control over major federal programs:

Material weakness(es): **No**

Significant deficiency(ies): **None reported**

(e) Type of auditor's report issued on compliance for major federal programs: **Unmodified**

(f) Any audit findings that are required to be reported in accordance with 2 CFR 200.516(a): **No**

(g) Identification of major federal programs:

Research and Development Cluster – various CFDA numbers

COVID-19 Education Stabilization Fund – CFDA 84.425

(h) Dollar threshold used to distinguish between Type A and Type B programs: **\$3,000,000**

(i) Auditee qualified as a lowrisk auditee: **Yes**

(2) Financial Statement Findings

None

(3) Federal Award Findings and Questioned Costs

None

Summary Schedule of Prior Audit Findings
Year ended June 30, 2021

2020-001 Arrowhead implementation of controls to assess the completeness and accuracy of information used in the financial statements – Significant deficiency.

Management did not have a control in place to assess the completeness and accuracy of its Genesis rental income schedule. As a result, we identified errors in the schedule that were not detected by management. Genesis rental income was overstated and not accurately presented within the 2020 financial statements.

Current Status: Resolved

2020-002 Enrollment Reporting – Finding that does not rise to the level of a Uniform Guidance other matter or a significant deficiency

Current Status: Resolved

**Summary Schedule of Other Findings
As Required by New Mexico State Statute 12-6-5, NMSA 1978
Year ended June 30, 2021**

Other Findings as Required by New Mexico State Statute, 12-6-5, NMSA 1978

2021-001 - Other Matters – User and Privileged Access Reviews

Condition:

User access reviews were not performed during fiscal year 2021 for the systems impacting financial reporting application.

Criteria:

The University's system processes, records, and stores information that is vital to its daily operations and certain systems contain critical information. It is critical that access to this system is properly maintained to prevent inappropriate transactions from occurring, data from being lost, and to prevent unauthorized access to information, which should be completed through periodic user access reviews.

Effect:

Absent periodic user access reviews, users may gain access privileges beyond those necessary to perform their assigned duties, thereby breaking down segregation of duties. Unauthorized access to financial data may result in its destruction, improper changes, the recording of unauthorized or nonexistent transactions or the inaccurate recording of transactions.

Cause:

The controls related to the user access review process was not operating effectively.

Recommendation:

Management should design and implement a formalized user access review of all users with access to systems impacting financial reporting.

Management should keep records in reasonable detail to reflect user access reviews and maintain a system of internal controls sufficient to provide reasonable assurance that the risk of unauthorized access is mitigated. Reasonable detail is sufficient information that would satisfy a prudent official (regulator, newspaper reporter) in the conduct of their own affairs. Best practices for user access reviews include the following:

- The review is thoroughly documented, captures all users, assesses users' underlying permissions, captures who reviews, captures the date of review and documents the overall conclusion on appropriateness.
- An individual performing a review should not review their own access. Another member of management with authority and knowledge of the specific area, should confirm the reviewers' assigned access.
- Action to complete any noted changes is documented. This can be via confirmation to the reviewer with evidence supporting the change was fully processed.
- Management should keep evidence which demonstrates the information used to perform these reviews is complete and accurate. This would include (where applicable) any queries, date/time stamps for when information is extracted from systems, and/or screenshots showing total record counts to agree to the extracts.

Management's Response:

The University has an automated process to disable/terminate access at employment departure and an established documented process since 2020 to review end-user accounts impacting financial reporting, which is included in a General IT Review of User System Access Manual. Due to significant personnel changes at the end of the fiscal year, the University failed to complete the annual review prior to June 30, 2021. The timing of the annual review of end-user accounts has subsequently been moved from the end of the fiscal year to September/October. This change which will help to ensure that the annual review is completed by the middle of the fiscal year. As such, under the supervisor of the Interim Chief Information Security Officer, the annual review of end-user accounts is currently underway with an estimated completion date mid-November 2021. The process has been automated and updated to meet the recommendations from the audit team.

2021-002 - Other Matters – Cyber Security**Condition:**

The University does not have the following cybersecurity process and procedure in place:

- The Organization does not have tools to disable or destroy information remotely on employee mobile devices, laptops, PCs, etc.
- The Organization does not have cybersecurity insurance.

Criteria:

The University's system processes, records, and stores information that is vital to its daily operations and certain systems contain critical information. It is critical that access to this system is properly maintained to prevent inappropriate transactions from occurring, data from being lost, and to prevent unauthorized access to information through employee devices that have access to the system, through proper security controls related to cyber security.

Effect:

Without security protocols to protect sensitive data, the Organization poses the risk of a potential breach to their environment.

Cause:

The controls related to cyber security are not designed effectively.

Recommendation:

To ensure the organization maintains a robust environment against security incidents, management should ensure the following:

- The Organization's data is able to be remotely wiped to ensure privacy of data.
- Insurance policy covers cybersecurity events.

Management's Response:

The Interim Chief Information Security Officer will ensure that research in acquiring and implementing a system-wide mobile device management solution. As part of this research, the University will also consider the possibility of expanding existing solutions in use by other University entities to a system-wide resource to provide the University with the ability to disable or destroy information remotely. This research shall be completed, and a plan developed by June 30, 2022. However, it should be noted that mobile computing devices that store the University data must be encrypted as per policy. Administrative Rules and Procedures (ARP).

On the matter of cyber insurance, the University has engaged in an effort to weigh the impact of cybersecurity insurance vs. strengthening cybersecurity posture. The University has concluded that investing in the short term by strengthening the University's cyber security posture would be the best course of action and in the best interests of the University. Contributing factors to the decision included the increasing cost of cyber security premiums and deductibles, and the value of strengthening preventive and forensic controls that reduce risk. Funds and resources in the short term would be better utilized by strengthening the overlapping need for improved controls and infrastructure that mitigate cybersecurity risks and improve the opportunity for lower cybersecurity

premiums and deductibles in the near foreseeable future.

The University has positioned key skill sets in critical areas, i.e., Security, Privacy, Compliance, and Audit, and has adapted the Cybersecurity Maturity Model Certification (CMMC) to drive strategy and security defense acquisitions. As part of that effort, the Interim Chief Information Security Officer is in the process of identifying a security information and event management (SIEM) solution. In addition, the University plans to enhance the already robust Information Assets Protection Policies (IAPP). The University leverages a Continuous Control Design Improvement process and uses this to continually improve access management, change management, configuration management, and IAPP training. Two factor authentication (2FA) has been deployed and proliferated throughout the University and communicates frequently on the topic of cybersecurity awareness via newsletters, webinars, in-person training, and broadcast emails. Lastly, the University is strengthening vulnerability and patch management by adopting a continuous process of identifying, prioritizing, remediating, and reporting on security vulnerabilities in networks, systems and the software that runs on them, e.g, penetration testing, compliance reviews and the use of the Risk Sence application.

2021-003 - Other Matters – Procurement, Suspension, and Debarment, instance of noncompliance.

Condition:

During our testing of Procurement, Suspension and Debarment, we noted an instance where controls were not followed relating to procedures for verifying that an entity with which the University entered into a covered transaction was not debarred or suspended.

Criteria:

Uniform Guidance prohibits non-federal entities from contracting with or making subawards under covered transactions to parties that are suspended or debarred. "Covered transactions" include contracts for goods and services awarded under a non-procurement transaction that are expected to equal or exceed \$25,000 or meet certain other criteria as specified in 2 CFR section 180.220.

Effect:

The University could enter into a contract or agreement with a suspended or debarred vendor.

Cause:

There was a breakdown in control procedures surrounding suspension and debarment.

Recommendation:

We recommend that the University follow the procurement controls in place to ensure that vendors are not suspended or debarred prior to entering any transactions greater than or equal to \$25,000 that are deemed to be a "covered transaction", and additionally maintain documentation of verification when the vendor check is performed.

Management's Response:

It is very rare for a payment exceeding \$25,000 to be processed outside of the purchase order process. The item referenced above was one of those instances, and although performed outside of the normal process, it was subject to significant review and due diligence. The due diligence did not include the verification against the suspension and debarment listings. The Director of Procurement Services will develop a process by December 31, 2021 where any covered transaction processed outside of the procurement process will include a check against the suspension and debarment listings.

An exit conference was held on October 27, 2021, to discuss the current audit report and auditors' comments. In attendance were the following individuals:

Representing the Board of Regents for New Mexico State University

Ammu Devasthali	Chair
Aresenio Romero	Audit Committee Community Member
Mary Jo Billiot	Audit Committee Community Member
Shari Jones	Audit Committee Community Member

Representing New Mexico State University

Dan E. Arvizu	Chancellor
John Floros	President
Andrew J. Burke	Senior Vice President for Administration and Finance
Ruth Johnston	Vice Chancellor
Rick Rivas	Interim Chief Audit Officer
Roy Collins	Chief Legal Affairs Officer
