Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Trustees
Saint Louis University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Saint Louis University (the University), which comprise the University's consolidated statement of financial position as of June 30, 2022, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 21, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees
Saint Louis University:

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited Saint Louis University's (the University) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2022. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Qualified Opinions on the Research & Development Cluster, Student Financial Assistance Cluster, and COVID-19 National Organizations of State and Local Officials Major Programs

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Research & Development Cluster, Student Financial Assistance Cluster, and COVID-19 National Organizations of State and Local Officials Major Programs for the year ended June 30, 2022.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2022.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Matters Giving Rise to Qualified Opinions on the Research & Development Cluster, Student Financial Assistance Cluster, and COVID-19 National Organizations of State and Local Officials Major Programs

As described in Findings 2022-003, 2022-009, and 2022-012 in the accompanying schedule of findings and questioned costs, the University did not comply with requirements regarding the following:

Finding #	Assistance Listing #	Major Federal Program	Compliance Requirement
2022-003	Various	Research & Development Cluster	Equipment and Real Property Management
2022-009	84.268	Student Financial Assistance Cluster	Special Tests and Provisions – Disbursements To or On Behalf of Students
2022-012	93.011	COVID-19 National Organizations of State and Local Officials	Reporting

Compliance with such requirements is necessary, in our opinion, for the University to comply with the requirements applicable to the identified major federal programs.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2022-001, 2022-002, 2022-004, 2022-006, 2022-007, 2022-008, and 2022-011. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The University is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The University's responses and corrective action plan were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses or the corrective action plan.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-001, 2022-002, 2022-003, 2022-004, 2022-005, 2022-006, 2022-007, 2022-009, 2022-011, and 2022-012 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-008 and 2022-010 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. The University is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The University's responses and corrective action plan were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses or the corrective action plan.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of the University as of and for the year ended June 30, 2022, and have issued our report thereon dated October 21, 2022, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

SAINT LOUIS UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2022

(1) Summary of Significant Accounting Policies and Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) summarizes the expenditures of Saint Louis University (the University) under programs funded by the federal government for the year ended June 30, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200 Uniform Guidance Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The Schedule has been prepared on the accrual basis of accounting. Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position or changes in net assets of the University.

For purposes of the Schedule, federal awards include all grants and contracts entered into directly between the University and agencies and departments of the federal government, as well as federal funds passed through to the University by other recipients.

(2) Indirect Cost Rates

Expenditures for federal programs are recognized using the cost accounting principles contained in the Uniform Guidance, Subpart E-Cost Principles. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Expenditures include a portion of costs associated with general University activities (facilities and administrative costs or indirect costs), which are allocated to federal awards under negotiated formulas commonly referred to as facilities and administrative cost rates. Facilities and administrative costs allocated to such awards for the year ended June 30, 2022, were based on predetermined fixed rates up to 51.5% negotiated with the University’s cognizant federal agency, the U.S. Department of Health and Human Services, and are included as a component of the expenditures in the Schedule. The University has not elected to use a 10% de minimis cost rate provided for in the Uniform Guidance.

(3) Loan Programs

The University participates in various loan programs. Certain loan programs are considered to be a component of the student financial assistance cluster. The following schedule represents loans outstanding of the University as of June 30, 2022:

	Assistance listing number	Outstanding balance
Federal Perkins Loan Program	84.038	\$ 6,045,577
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	236,673
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	1,040,500
Nursing Student Loans	93.364	807,641
Nurse Faculty Loan Program	93.264	320,262
Total – Student Financial Assistance Cluster Loans Outstanding		\$ 8,450,653

SAINT LOUIS UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2022

The following schedule represents loans disbursed by the University for the year ended June 30, 2022:

	Assistance listing number		Loans disbursed
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	\$	30,000
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342		238,880
Nursing Student Loans	93.364		157,199
Nurse Faculty Loan Program	93.264		<u>143,141</u>
Total – Student Financial Assistance Cluster Loans Disbursed		\$	<u><u>569,220</u></u>

Year ended June 30, 2022

(1) Summary of Auditors' Results

- (a) Type of report issued on whether the consolidated financial statements were prepared in accordance with generally accepted accounting principles: **Unmodified**
- (b) Internal control deficiencies over financial reporting disclosed by the audit of the consolidated financial statements:
- Material weaknesses: **No**
 - Significant deficiencies: **None reported**
- (c) Noncompliance material to the consolidated financial statements: **No**
- (d) Internal control deficiencies over major programs disclosed by the audit:
- Material weaknesses: **Yes**
 - Significant deficiencies: **Yes**
- (e) Type of report issued on compliance for major programs:
- Research & Development Cluster: Various Assistance Listing numbers – **Qualified Opinion**
 - Student Financial Assistance Cluster: Various Assistance Listing numbers – **Qualified Opinion**
 - Assistance Listing No. 84.425 – U.S. Department of Education – COVID-19 Education Stabilization Fund – **Unmodified Opinion**
 - Assistance Listing No. 93.498 – U.S. Department of Health and Human Services – COVID-19 Provider Relief Fund – **Unmodified Opinion**
 - Assistance Listing No. 93.011 – U.S. Department of Health and Human Services – COVID-19 National Organizations of State and Local Officials – **Qualified Opinion**
- (f) Audit findings that are required to be reported in accordance with 2 CFR 200.516(a): **Yes**
- (g) Major programs:
- Research & Development Cluster: Various Assistance Listing numbers
 - Student Financial Assistance Cluster: Various Assistance Listing numbers
 - Assistance Listing No. 84.425 – U.S. Department of Education – COVID-19 Education Stabilization Fund
 - Assistance Listing No. 93.498 – U.S. Department of Health and Human Services – COVID-19 Provider Relief Fund
 - Assistance Listing No. 93.011 – U.S. Department of Health and Human Services – COVID-19 National Organizations of State and Local Officials
- (h) Dollar threshold used to distinguish between Type A and Type B programs: **\$1,645,800**

(i) Auditee qualified as a low-risk auditee: **No**

(2) Findings Relating to the Financial Statements Reported in Accordance with *Government Auditing Standards*

None

(3) Findings and Questioned Costs Relating to Federal Awards

Finding 2022-001

Federal Program Title – Research & Development Cluster (R&D)

Assistance Listing Nos. – As listed on the Schedule of Expenditures of Federal Awards

Federal Agencies – U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, Department of State, U.S. Department of Transportation, National Aeronautics and Space Administration, National Endowment for the Humanities, National Science Foundation, U.S. Department of Veterans Affairs, U.S. Department of Energy, U.S. Department of Education, and U.S. Department of Health and Human Services

Federal Award Numbers – As listed on the Schedule of Expenditures of Federal Awards

Grant Award Periods – Various

Compliance Requirement – Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Criteria:

2 CFR 200.430 includes the standards for documentation of personnel expenses. According to 2 CFR 200.430(i)(1), charges to federal awards for salary and wages must be based on records that accurately reflect the work performed. Among other requirements within 2 CFR 200.430(i)(1), section (i) states records must be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated and section (v) states that the records must comply with established accounting policies and practices.

Also, the HHS Grants Policy for educational institutions requires a plan confirmation system (system) for professorial and other professional staff members that is based on budgeted, planned, or assigned work activity and that is updated to reflect any significant changes in work distribution. The system must be incorporated into the organization's official records and must identify activity applicable to each sponsored agreement and to each category needed to identify indirect costs and the functions to which they are allocable. At least annually, the employee, principal investigator, or responsible official will verify, by suitable means, that the work was performed and that the salaries and wages charged to sponsored agreements, whether as direct charges or in other categories of cost, are reasonable in relation to the work performed. A system, supported by after-the-fact activity reports, that reflects the distribution of covered employees' activity allocable to each grant and includes identification and recording of significant changes in work activity when initial charges were based on estimates. For professorial and other professional staff members, the activity reports will be prepared each academic term, but at least every 6 months. The University's 'Effort Reporting Policy' states "Subjects must return the certified effort verification report no later than 30 calendar days after they have been distributed."

SAINT LOUIS UNIVERSITY
 Schedule of Findings and Questioned Costs
 Year ended June 30, 2022

Additionally, as set forth in 2 CFR 200, the University is required to ensure allowable costs do not consist of improper payments, including payments that should not have been made or that were made in incorrect amounts (including overpayments and underpayments). Indirect costs are required to adhere to 2 CFR 200, Appendix III.

Further, the National Institutes of Health (NIH) Grants Policy Statement section 7.5, Cost Transfers, Overruns, Accelerated and Delayed Expenditures, states that cost transfers to NIH grants that represent corrections of clerical or bookkeeping errors should be accomplished within 90 days of when the error was discovered. The transfers must be supported by documentation that fully explains how the error occurred and a certification of the correctness of the new charge by a responsible organizational official. Documentation must be maintained of cost transfers, pursuant to 2 CFR Part 200.337 and 45 CFR Part 75.364. The recipient should have systems in place to detect such errors within a reasonable time frame; untimely discovery of errors could be an indication of poor internal controls. Frequent errors in recording costs may indicate the need for accounting system improvements, enhanced internal controls, or both. If such errors occur, recipients are encouraged to evaluate the need for improvements and to make whatever improvements are deemed necessary to prevent reoccurrence.

Lastly, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

While performing procedures related to personnel expenses, we noted the University had not followed their 'Effort Reporting Policy' which states "Subjects must return the certified effort verification report no later than 30 calendar days after they have been distributed." We noted two of our sixty sampled effort reports that had not been returned within the 30-calendar day policy. Total payroll and fringe totaled approximately \$13,200,000 during fiscal year 2022.

While performing procedures related to indirect costs, we noted three of forty sampled grants (totaling \$3,385,750) where transactions were originally recorded to an incorrect object class that resulted in F&A being applied to the grant instead of to the correct object class which resulted in overcharges during the University's fiscal year ended June 30, 2022 for a total overstatement of \$1,888 as noted below:

<u>Federal agency</u>	<u>Federal award number</u>	<u>F&A adjustment recorded</u>
U.S. Department of Health and Human Services	UM1A1148685	\$ 293
	P2CHD086844	50
National Science Foundation	1900417	1,545

Additionally, we noted indirect costs were overcharged for two of forty sampled grants (totaling \$3,385,750) where transactions were originally recorded to an incorrect object class during the University's fiscal year ended June 30, 2021 that resulted in F&A being applied to the grant instead of to the correct object class

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

which resulted in overcharges. These overstatements were corrected during the University's fiscal year ended June 30, 2022 for a total of \$18,377 as noted below:

<u>Federal agency</u>	<u>Federal award number</u>	<u>F&A adjustment recorded</u>
National Aeronautics and Space Administration	80NSSC20K1230	\$ 14,708
National Science Foundation	1647084	3,669

Total indirect costs during fiscal year 2022 totaled approximately \$8,360,000.

While performing procedures related to cost transfers, we noted the University had not followed their 'Cost Transfer Policy' which states "Cost transfers for current transactions must occur on a timely basis". The University's cost transfer policy defines timely as "occurring no later than two accounting periods after the month end of the date of the original transaction (no later than 90 days total)". The University did not have an effective system of internal control in place to timely discover errors and get them corrected as we noted thirty-two of our sixty-seven sampled cost transfers (totaling \$3,153,441 positive and \$2,900,348 negative) where the cost transfer date was between 91 and 581 days past the date the original expenditure was incurred (21 were between 91 and 180 days past, 6 were between 181 and 270 days past, and 5 were greater than 271 days past).

While testing cost transfers, we noted the following exceptions:

We noted a transaction which was originally recorded to an incorrect object class that resulted in F&A being applied to the grant instead of to the correct object class that did not allow F&A costs to be applied:

<u>Federal agency</u>	<u>Federal award number</u>	<u>Estimated F&A applied</u>
U.S. Department of Health and Human Services	S10OD030343	\$ 221,244

Additionally, we noted a transaction recorded to a grant that exceeded the amount of the award resulting in the costs being unallowable to the grant:

<u>Federal agency</u>	<u>Federal award number</u>	<u>Transaction amount</u>	<u>Estimated and F&A</u>
National Science Foundation	1644538	\$ 2,217	1,142

Positive cost transfers were approximately \$4,060,000 and negative cost transfers were \$3,510,000 during fiscal year 2022.

The University did not have an effective system of internal control in place to ensure compliance with activities allowed/unallowed and allowable costs/cost principles.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Questioned Cost:

Questioned costs are not determinable.

Cause and Effect:

In discussing these conditions with University management, they stated that during fiscal year 2022, they continued reconciliation procedures related to 'grant level' activity as a result of implementing the grants module of Workday in the previous fiscal year. Grant level activity allows them to track the specific budget provided by the individual R&D Cluster agreement as well as monitor other key compliance requirement aspects. The University continued to process an increased volume of cost transfers and experienced delays in posting necessary cost transfers for identified unallowable costs stemming from the reconciliation efforts.

Repeat Finding:

A similar finding was reported in prior year audit as finding number 2021-001.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University take a fresh look at its processes, policies and internal controls to determine what is needed, post Workday implementation, to prevent and detect noncompliance with activities allowed and unallowed and adherence to allowable cost principles/cost principles. Additionally, we recommend the University determine and address the underlying root cause that is contributing to the volume of cost transfers and take necessary action to prevent unallowable costs from posting to the grant. We also recommend the University consider implementation of an automated control to ensure F&A is charged appropriately when cost transfer entries are made. Lastly, we recommend the University determine what additional Workday automated reporting is available to monitor compliance for personnel expenses, including effort verification reporting, F&A, etc. for activities allowed or unallowed and allowable costs/cost principles.

View of Responsible Official:

The University concurs with the finding. The University will strengthen its controls to ensure certified effort verification reports are returned no later than 30 calendar days after they have been distributed, including escalating noncompliance to appropriate University leadership.

Further, the University will review its indirect costs configurations within the grants module of Workday to ensure the automated calculation of indirect costs is correct. In addition, the University will manually reconcile indirect costs periodically at the grant level.

The University continues to have cost transfers in fiscal year 2023 as it reconciles its grants. However, to limit cost transfers in the future, the University configured its accounting system with an automated control that prevents general (non-payroll) expenditures from being charged to the grant after the period of performance end date, one root cause of cost transfers. In addition, for payroll expenditures, the University updated grant labor costing allocations in its accounting system to contain an end date that coincides with

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

the period of performance end date which restricts labor costs from being charged after the period of performance. The University will review the labor costing allocations on a periodic basis.

Also implemented in fiscal year 2023, before each payroll is processed within the accounting system, grants that have ended are identified and the payroll expenditures are removed from the feed and not charged to the grant.

The University has also hired individuals whose sole responsibility is to review general (non-payroll) expenditures charged to grants. Further, the University's post award specialists are continually trained on the importance of allowed and unallowed expenditures and are now reviewing grant level budget versus actual reporting on a periodic basis to identify noncompliance. In the future the University will also implement exception reporting to monitor cost transfers occurring two accounting periods after the month end of the date of the original transaction.

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-002

Federal Program Titles – Research & Development Cluster and COVID-19 National Organizations of State and Local Officials

Assistance Listing Nos. – As listed on the Schedule of Expenditures of Federal Awards for R&D Cluster 93.011 – COVID-19 National Organizations of State and Local Officials

Federal Agencies – U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, Department of State, U.S. Department of Transportation, National Aeronautics and Space Administration, National Endowment for the Humanities, National Science Foundation, U.S. Department of Veterans Affairs, U.S. Department of Energy, U.S. Department of Education, and U.S. Department of Health and Human Services

Federal Award Numbers – As listed on the Schedule of Expenditures of Federal Awards

Grant Award Periods – Various for Research & Development Cluster and June 1, 2021 to August 31, 2022 and July 31, 2021 to October 31, 2022, for COVID-19 National Organizations of State and Local Officials

Compliance Requirements – Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Criteria:

According to 2 CFR 200.419, a higher education entity that receives an aggregate total of \$50 million or more in Federal awards must disclose their cost accounting practices by filing a Disclosure Statement (DS-2). An accurate DS-2 must be maintained and the higher education entity must comply with the cost accounting practices established within the DS-2. Amendments to the DS-2 must be filed with the cognizant agency for indirect costs in advance of a disclosed practice being changed to comply with a new or modified standard, or when a practice is changed for other reasons. Amendments of a DS-2 may be submitted at any time.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University's last submitted DS-2 to the U.S. Department of Health & Human Services was March 27, 2007. The University implemented significant portions of Workday on July 1, 2020. We noted multiple items in the existing DS-2 that are no longer applicable/accurate and/or refers to previous practices and policies, including those related to the University's salary and wage accumulation system.

The University did not have an effective system of internal control in place to ensure compliance with the requirements for amending its DS-2.

Questioned Cost:

There are no questioned costs.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Cause and Effect:

In discussing these conditions with University management, they stated that capacity issues resulted in the a revised DS-2 not being prepared and submitted.

Repeat Finding:

A similar finding was reported in prior year audit as finding number 2021-002.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University enhance its internal control process to ensure the University has effective internal controls in place to ensure requirements around the DS-2 are met. We recommend the University perform a thorough review of their existing DS-2 and determine what adjustments to the existing D2-2 are needed to reflect current policies and practices. Additionally, we recommend the University implement a process to routinely review the DS-2 so that any updates are submitted as required. Lastly, we recommend someone other than the preparer perform a review of the DS-2 prior to any amendments being submitted.

View of Responsible Official:

The University concurs with the finding that the DS-2 needs to be updated to reflect changes made since the Workday implementation. Additionally, we will implement an annual review process of the DS-2, which will include someone other than the preparer performing a review of the DS-2 prior to amendments being submitted.

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-003

Federal Program Title – Research & Development Cluster

Assistance Listing No. – As listed on the Schedule of Expenditures of Federal Awards

Federal Agencies – U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, Department of State, U.S. Department of Transportation, National Aeronautics and Space Administration, National Endowment for the Humanities, National Science Foundation, U.S. Department of Veterans Affairs, U.S. Department of Energy, U.S. Department of Education, and U.S. Department of Health and Human Services

Federal Award Numbers – As listed on the Schedule of Expenditures of Federal Awards

Grant Award Periods – Various

Compliance Requirement – Equipment/Real Property Management

Criteria:

As set forth in 2 CFR 200.313(d)(1), property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, cost of the property, percentage of Federal participation in the project costs for the Federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Conditions Found:

While performing audit procedures related to the accuracy and completeness of property records and physical inspection of the existence and safeguarding of fifty-seven equipment items (with a net book value of 628,232), the following conditions were identified:

- During our physical inspection procedures, which took several attempts, we noted thirty-five equipment items sampled (with a net book value of \$583,715) that were not found at the location stated within the fiscal year 2022 property records maintained by the University for the following items:

Federal agency	Federal award number	Asset ID
Department of Health and Human Services	N01-AI-25464	BA-00001361
Department of Health and Human Services	R01NS023805	BA-00001663

Department of Health and Human Services	R01EY031008	BA-00022402

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

- The property records for ten equipment items sampled (with a net book value of \$327,266) did not have accurate property records (note some of these same equipment items were also not found at the location stated and were also included in the table above). Specifically, the serial number on the equipment item sampled was not documented in the fiscal year 2022 property records maintained by the University for the following items:

<u>Federal agency</u>	<u>Federal award number</u>	<u>Asset ID</u>	<u>Serial number per property records</u>	<u>Serial number on asset</u>
Department of Health and Human Services	R01GM115553	BA-00004343	Number was blank	10109L
National Science Foundation	1726621	BA-00004401	Number was blank	D29918003C
National Science Foundation	1904919	BA-00004622	Number was blank	L21525500299
National Science Foundation	1904919	BA-00004625	Number was blank	L2305674846
Department of Health and Human Services	R01AI130190	BA-00008578	Number was blank	EC20245681
Department of Health and Human Services	R15GM128047	BA-00010839	Number was blank	CT051485
Department of Health and Human Services	R01GM133967	BA-00014359	Number was blank	0288
Department of Health and Human Services	R01AI150610	BA-00019624	Number was blank	179/2022
Department of Health and Human Services	R01EY031008	BA-00022401	Number was blank	7203
Department of Health and Human Services	R01EY031008	BA-00022402	Number was blank	4307

- The property records for two equipment items (with \$0 net book value) sampled were not updated to reflect disposals made during fiscal year 2022. Management stated no proceeds were received for the following items:

<u>Federal agency</u>	<u>Federal award number</u>	<u>Asset ID</u>	<u>Net book value of asset</u>
Department of Defense	FA9550-10-1-0320	BA-00002424	\$ —
Department of Health and Human Services	R15DK097700	BA-00002774	—

The University did not have an effective system of internal control in place to ensure property records accurately reflect equipment locations, equipment serial numbers, and disposals.

As of June 30, 2022, the University was responsible for maintaining and safeguarding equipment purchased using federal awards with a net book value of \$2,110,646.

Questioned Cost:

There are no questioned costs.

Cause and Effect:

In discussing these conditions with University management, they stated that inadequate documentation of policies and procedures regarding the types of conditions that require communication to the Business and Finance office (e.g., when equipment is moved to a different location), as well as a lack of a review of

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

changes made to property records by someone other than the preparer, contributed to multiple errors in the property records.

Repeat Finding:

A similar finding was reported in prior year audit as finding number 2021-003.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University strengthen policies, procedures and internal controls to ensure requirements around equipment/real property management are met. We recommend the University perform a detailed review of the property records and make corrections to accurately reflect the required information. We also recommend the University take a fresh look at their capital equipment recordkeeping policies and procedures and consider both preventive and detective internal controls to ensure property records accurately reflect the requirements of 2 CFR 200.313(d)(1).

View of Responsible Official:

The University concurs with the finding. The University's current procedures include providing departments with deadlines for completing the annual equipment verification along with deadlines for follow-up requests. We are amending our capital equipment policy to include the escalation for violations of noncompliance to Deans and/or Vice Presidents.

In addition, we are improving our processes and internal controls to ensure additions, transfers and disposals are appropriately recorded in Workday. We continue to improve our utilization of Workday Financials to ensure timely updates are made to the property records and are exploring additional automation tools.

Contact Name: Tara Thomason, Controller and Assistant Vice President

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-004

Federal Program Title – Research & Development Cluster

Assistance Listing Nos. – As listed on the Schedule of Expenditures of Federal Awards

Federal Agencies – U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, Department of State, U.S. Department of Transportation, National Aeronautics and Space Administration, National Endowment for the Humanities, National Science Foundation, U.S. Department of Veterans Affairs, U.S. Department of Energy, U.S. Department of Education, and U.S. Department of Health and Human Services

Federal Award Numbers – As listed on the Schedule of Expenditures of Federal Awards

Grant Award Periods – Various

Compliance Requirement – Period of Performance

Criteria:

As set forth in 2 CFR Section 200.403, the University may charge only allowable costs incurred during the approved budget period of a federal award’s period of performance.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

While performing period of performance procedures specific to the population of grants with period ending dates during the University’s fiscal year ended June 30, 2022, we noted five grants (with expenditures totaling \$9,335) of sixty sampled (with expenditures totaling \$76,419) where the expenditure incurred date was after the end of the period of performance and expenditures were still being recorded that were incurred up to 120 days past the end of the period of performance for the following awards:

<u>Federal agency</u>	<u>Federal award number</u>	<u>Period of availability</u>	<u>Date expenditure incurred</u>	<u>Transaction amount</u>	<u>Estimated Fringe and F&A</u>
U.S. Department of Health and Human Services	U77HP03042	9/1/2020-8/31/2021	9/4/2021	\$ 593	481
	R01AI122669	12/1/2019-11/30/2021	12/11/2021	1,382	1,120
			12/31/2021	1,029	834
U.S. Department of Defense	W81XWH1910117	4/1/2019-9/30/2021	10/16/2021	1,695	1,374
U.S. Department of Veterans Affairs	N/A	11/1/2020-10/31/2021	2/28/2022	4,635	3,756

The periods of performance ended during fiscal year 2022 was one-hundred and five grants.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Additionally, while performing period of performance procedures specific to adjustments (including cost transfers) made during the University’s fiscal year ended June 30, 2022, we noted nine cost transfers (totaling \$27,865) of sixty sampled (totaling \$3,153,441) where the expenditure incurred date was after the end of the period of performance for the following awards:

Federal agency	Federal award number	Period of availability	Date expenditure incurred	Transaction amount	Estimated Fringe and F&A	
U.S. Department of Health and Human Services	H76HA078914	1/1/2021 – 12/31/2021	1/31/2022	\$ 1,835	1,303	
	R01DE025141	2/15/2015 – 3/31/2022	4/30/2022	1,040	738	
	HHSN2722017000411		7/31/2020 – 7/30/2021	3/31/2022	4,981	3,537
				8/31/2021	7,225	5,130
	R01DK120518	12/18/2018 – 11/30/2021	1/31/2022	2,190	1,555	
	HHSN272000211		3/29/2016 – 2/28/2022	6/12/2022	1,345	955
				7/31/2021	1,661	1,179
U.S. Department of Veterans Affairs	6572D0071	11/1/2019 – 10/31/2021	11/30/2021	3,290	642	
	6570D0063	11/1/2019 – 10/31/2021	1/31/2022	4,299	838	

Positive cost transfers of approximately \$4,060,000 and negative cost transfers of \$3,510,000 were made during the fiscal year ended June 30, 2022.

The University did not have an effective system of internal control in place to ensure costs were not recorded to federal grants beyond the end date of the award’s period of performance.

Questioned Cost:

Questioned costs are not determinable.

Cause and Effect:

In discussing these conditions with University management, they stated there was a missing automated control in Workday which would prevent expenditures from being charged to the grant after the period of performance end date. The lack of an automated control contributed to the noncompliance with the period of performance compliance requirement.

Repeat Finding:

A similar finding was reported in prior year audit as finding number 2021-004.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University take a fresh look at the existing policies, procedures and internal controls to ensure costs charged to federal awards are within the period of performance. We recommend the University consider implementing an automated control within Workday that prevents the recording/posting of

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

transactions within a specified timeframe after the end of each grants period of performance. Additionally, we recommend the University consider its existing policies and processes around the automatic posting of payroll charges and consider additional internal controls that would prevent payroll charges from being charged beyond the end date of the award's period of performance.

View of Responsible Official:

The University concurs with the finding. In fiscal year 2023, the University configured its accounting system with an automated control that prevents general (non-payroll) expenditures from being charged to the grant after the period of performance end date. In addition, for payroll expenditures, the University updated grant labor costing allocations in its accounting system to contain an end date that coincides with the period of performance end date which restricts labor costs from being charged after the period of performance. The University will review the labor costing allocations on a periodic basis.

Also implemented in fiscal year 2023, before each payroll is processed within the accounting system, grants that have ended are identified and the payroll expenditures are removed from the feed and not charged to the grant. The University has also hired individuals whose sole responsibility is to review general (non-payroll) expenditures charged to grants. Further, the University's post award specialists are continually trained on the importance of not allowing costs to be charged to grants after the period of performance end date. The University is also testing systematic notifications to alert individuals involved with the grants process of upcoming period of performance end dates.

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-005

Federal Program Title – COVID-19 - Education Stabilization Fund - Higher Education Emergency Relief Fund – Institutional Portion

Assistance Listing No. – 84.425F

Federal Agency – U.S. Department of Education – Direct Program

Federal Award Number – Not applicable

Grant Award Period – April 22, 2020 through January 17, 2022

Compliance Requirement – Reporting

Criteria:

As set forth in 34 CFR 75.720(b), all HEERF grantees must submit a Higher Education Emergency Relief Fund (HEERF) Annual Report.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University did not have an effective system of internal control in place to ensure the HEERF Annual Report was reviewed by someone other than the preparer for completeness and accuracy prior to submission to the U.S. Department of Education.

Questioned Cost:

There are no questioned costs.

Cause and Effect:

The University did not have an effective system of internal control to ensure the required Annual Report submitted to the U.S. Department of Education was reviewed by someone other than the preparer for completeness and accuracy. The lack of a review by someone other than the preparer could result in information being reported that is materially inaccurate or incomplete.

Repeat Finding:

A similar finding regarding internal control was reported in prior year audits as finding numbers 2020-001 and 2021-005.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Recommendations:

We recommend the University enhance its internal control process to ensure the University has effective internal controls in place to ensure the required reports are reviewed by someone other than the preparer for completeness and accuracy prior to being submitted to the U.S. Department of Education.

View of Responsible Official:

The University concurs with the finding. The University will implement a process in which the required reports are reviewed by someone other than the preparer to ensure completeness and accuracy prior to being submitted to the U.S. Department of Education.

Contact Name: Tara Thomason, Controller and Assistant Vice President

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-006

Federal Program Title – COVID-19 – Provider Relief Fund and American Rescue Plan Rural Distribution

Assistance Listing No. – 93.498

Federal Agencies – U.S. Department of Health and Human Services

Federal Award Number – Not applicable

Grant Award Period – January 1, 2020 to June 30, 2022

Compliance Requirement – Reporting

Criteria:

Under the terms and conditions of the award, Provider Relief Funds (PRF) is subject to 45 CFR Section 75.302 (Financial management and standards for financial management systems). The PRF program requires special reporting through the Provider Relief Fund Reporting Portal and the PRF period 3 report contains key line items. Key line items, when calculating lost revenues based on 2019 actuals, consist of the following which are required to be completely and accurately reported: 1) Total revenue/net charges for each quarter; and 2) Each cell by payer for each quarter (i.e., Medicare A+B, Medicare C, Children's Health Insurance Program/CHIP, Commercial Insurance, Self-Pay, and Other).

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

During our testing for the reporting compliance requirement, the following conditions were identified:

- Total revenue/net charges from patient care attributable to quarter two (Q2) 2021 actuals for Self-Pay (No Insurance) was understated by \$2,000,000. Total revenue/net charges from patient care attributable to Q2 2021 actuals for Self-Pay (No Insurance) per the PRF period 3 report noted \$3,758,128 and the supporting documentation provided by the University reported \$5,758,128. This \$2,000,000 error occurred in a quarter that did not result in lost revenue.
- The period 3 report which included actuals for calendar years 2019 through 2021, reported \$6,754,185 as Commercial Insurance which included "Charge Corrections" made by the University. The Charge Corrections represented corrections made across all payer categories but the entire amount was reported within Commercial Insurance. As a result, the amounts reported for the Commercial Insurance payer category was overstated for each of the quarters in calendar years 2019 through 2021 and all other payer categories were understated for each of the quarters.
- For Q3 2021 and Q4 2021, the PRF period 3 report included allocations of "Charge Corrections" and a reclassification made by the University in the amount of \$6,177,240. The Charge Corrections and the reclassification impacted three payer categories: Medicaid/Children's Health Insurance Program of \$4,533,665; Medicare A+B of \$1,000,000; and Other of \$643,575.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

- For Q1 2022 and Q2 2022, the PRF period 3 report included \$61,431 for the Commercial Insurance payer category than what was supported by the detail and the Other payer category included \$61,431 less than what was supported by the detail.

The University did not have an effective system of internal control in place to ensure that key line items within the PRF period 3 report were complete and accurate.

Questioned Cost:

There are no questioned costs as the University had excess lost revenues greater than their period 3 PRF award.

Cause and Effect:

In discussing these conditions with University management, they stated that an effective system of internal controls to ensure the completeness and accuracy of amounts reported within the period 3 PRF report did not exist and resulted in certain key line items as listed above being inaccurate.

Repeat Finding:

A similar finding was not reported in prior year.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University enhance its internal control process to ensure the University has effective internal controls in place that includes a review of all amounts, including all key line items, allocations and reclassifications within the PRF report to determine completeness and accuracy before submission into the portal.

View of Responsible Official:

The University concurs with the finding. Management agrees with the recommendation and the implementation of controls to validate completeness and accuracy of all data included in the portal submission. While an error did occur, the University had significant amounts of lost revenue carryover such that the error did not impact the amounts of PRF funds received.

Contact Name: Tammy Burton

Contact Telephone Number: 314-977-9883

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-007

Federal Program Title – Student Financial Assistance Cluster – Federal Direct Student Loans

Assistance Listing No. – 84.268

Federal Agency – U.S. Department of Education

Federal Award Number –P268K221755

Grant Award Period – July 1, 2021 to June 30, 2022

Compliance Requirement – Eligibility

Criteria:

In accordance with 34 CFR 685.203(a) and (b), for dependent undergraduate students (excluding dependent undergraduates whose parents are unable to borrow Direct PLUS Loans), the combined Direct Subsidized Loan and Direct Unsubsidized Loan annual limits are: \$5,500 for dependent first-year undergraduates, not more than \$3,500 of which may be subsidized; \$6,500 for dependent second-year undergraduates, not more than \$4,500 of which may be subsidized; \$7,500 for dependent third-, fourth-, and fifth-year undergraduates, not more than \$5,500 of which may be subsidized.

Additionally, in accordance with 34 CFR 685.203(a) and (c), for independent undergraduate students (including dependent undergraduates whose parents are unable to borrow Direct PLUS Loans), the combined Direct Subsidized Loan and Direct Unsubsidized Loan annual limits are: \$9,500 for dependent first-year undergraduates, not more than \$3,500 of which may be subsidized; \$10,500 for dependent second-year undergraduates, not more than \$4,500 of which may be subsidized; \$12,500 for dependent third-, fourth-, and fifth-year undergraduates, not more than \$5,500 of which may be subsidized.

Additionally, in accordance with 34 CFR 685.301(a)(4), a school may not originate a Direct Subsidized, Direct Unsubsidized, or Direct PLUS Loan or a combination of loans, for an amount that exceeds the student's estimated cost of attendance less the student's estimated financial assistance for that period and in the case of a Direct Subsidized Loan, the borrower's expected family contribution for that period.

Lastly, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University did not have an effective system of internal control in place to ensure amounts disbursed to students were properly determined. While performing procedures related to financial aid disbursements made to sixty-one students (with disbursements sampled totaling \$1,110,440), we found that for two disbursements sampled, the incorrect grade-level was utilized to calculate the students award limits resulting in Direct Subsidized Loans disbursed (total of \$6,271 and \$6,234 Direct Loans was disbursed) which exceeded the set limit by \$1,942 and \$953, for a total over award of \$2,895.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Additionally, while performing procedures over financial aid disbursements made to sixty-one students (with disbursements sampled totaling \$1,110,440), specifically over cost of attendance, we identified eight students sampled where the cost of attendance per the student's records was overstated which resulted in the following:

- For four students sampled, clerical errors within the students cost of attendance records were identified resulting in one student being over awarded \$25 of Direct PLUS Loans (a total of \$17,088 of Direct Loans was disbursed). Three students with clerical errors did not result in an over award status because the student awards were less than the amount of the original cost of attendance.
- For four students sampled, the student's status was incorrectly defaulting to full-time when each should have been identified as 'part-time' which resulted in two students having Direct Unsubsidized Loans being over awarded in the amounts of \$3,200 and \$452 (\$9,401 of Direct Loans was disbursed for each of the two students) and one student having Direct Subsidized and Unsubsidized (\$11,094 of Direct Loans was disbursed), being over awarded in the amount of \$5,912 (note this sample also had the incorrect grade-level discussed above which additionally contributed to the over award). One student sampled with the incorrect student status did not result in an over award status because amounts of loans secured were less than the annual loan limits and part-time cost of attendance.

Questioned Cost:

\$12,484

Cause and Effect:

In discussing these conditions with University management, they stated that: 1) clerical errors occurred related to manual cost of attendance adjustments; 2) grade-level data with their student system incorrectly populating from the FAFSA on certain students who had missing grade levels; and 3) student status' incorrectly defaulting on summer students enrolled in a certificate program.

Repeat Finding:

A similar finding was not reported in prior year.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University enhance its internal control process related to eligibility and consider implementing management review controls when the cost of attendance is manually adjusted to have someone other than the preparer review the accuracy of the data entered. We also recommend the University consider whether configuring and generating additional routine exception reports could inform management of discrepancies that would detect errors which impact eligibility determinations.

View of Responsible Official:

The University concurs with the finding. The student loans cited were for a summer only period and part of a unique certification program. Summer aid processing which includes assigning cost of attendance budgets based on enrollment status and calculating grade levels are manual processes.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

In the case of this citing, the task of summer aid processing was assigned to the new loan coordinator. Additional checks were in place initially and once it was determined the process occurred routinely without errors; the second check was suspended.

Contact Name: Cari Wickliffe, Assistant Vice President and Director of Student Financial Services

Contact Telephone Number: 314-977-2353

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-008

Federal Program Title – Student Financial Assistance Cluster – Federal Pell Grant Program

Assistance Listing No. – 84.063

Federal Agency – U.S. Department of Education

Federal Award Number –P063Q211755

Grant Award Period – July 1, 2021 to June 30, 2022

Compliance Requirement – Reporting

Criteria:

Per OMB No. 1845-0039, an institution is required to submit Pell Loan disbursement records to the Common Origination and Disbursement (COD). The disbursement record reports the actual disbursement date and the amount of the disbursement.

In accordance with Chapter 2 of the Federal Student Aid Handbook, an institution must submit Pell Grant disbursement records to the COD no later than 15 days after making the disbursement or becoming aware of the need to adjust a previously reported disbursement.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University did not have an effective system of internal control in place to ensure Pell Grant disbursement records are submitted to the COD no later than 15 days after making the disbursement.

We noted two of sixty samples where the University submitted the Pell Grant disbursement records to the COD 34 and 80 days of disbursement which was not within the 15 day requirement.

Questioned Cost:

There are no questioned costs.

Cause and Effect:

In discussing these conditions with University management, they stated that capacity issues resulted in reporting disbursement record reports to the COD later than the 15 day requirement.

Repeat Finding:

A similar finding was not reported in prior year.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University enhance its internal control process to ensure Pell Grant disbursement records are submitted to COD no later than 15 days after making the disbursement.

View of Responsible Official:

The University concurs with the finding. Disbursements were reported timely meaning as credits for Pell applied to individual student accounts, a transaction was sent to COD for inclusion in expenses. For varied reasons some transactions rejected; thus, not finalized as accepted which is the requirement. Transactions may also reject more than once. Control for the process is as records are submitted a variance report for rejections is produced. The report is reviewed and does display days in status.

In the case of this citing, the timing of review and correction was beyond the 15 day period. Factors contributing to this include staffing changes and back-fill allocation within all priorities was not sufficient to maintain timeliness. Although credits on the student account initiated a specific date which should be reported and accepted, failure for the process to complete an accepted status results in an impact to Pell allocation for funding draws. Until fully resolved, the institution fronted these funds creating no impact to the student. At this time, the date sent and the action code acceptance including document ID number are within the range required.

Contact Name: Cari Wickliffe, Assistant Vice President and Director of Student Financial Services

Contact Telephone Number: 314-977-2353

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-009

Federal Program Title – Student Financial Assistance Cluster – Federal Direct Student Loans

Assistance Listing No. – 84.268

Federal Agency – U.S. Department of Education

Federal Award Number – P268K221755

Grant Award Period – July 1, 2021 to June 30, 2022

Compliance Requirement – Special Tests and Provisions - Disbursements To or On Behalf of Students

Criteria:

In accordance with 34 CFR 668.165, if an institution credits a student's account with a Direct Loan, the institution must notify the student or parent, no earlier than 30 days before the disbursement and no later than 30 days after the disbursement, in writing of the anticipated date and amount of the loan disbursement, the student's right or parent's right to cancel all or a portion of the loan or loan disbursement and have the loan proceeds returned to the holder of that loan, and the procedures and time in which the student or parent must notify the institution that he or she wishes to cancel the loan or loan disbursement.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

While performing audit procedures related to the special tests and provisions – disbursements to or on behalf of students, we selected sixty-one students and identified twenty-two exceptions as follows:

- For nine of the sixty-one students selected for testwork, the University did not send the required notification to the student or parent for ten disbursements.
- For thirteen of the sixty-one students selected for testwork, the University did not maintain sufficient supporting documentation to evidence the University sent the required notification to the student or parent within 30 days after the disbursement for thirteen disbursements.

The University did not have an effective system of internal control in place to notify the student, or parent, in writing of the date and amount of Direct Loan disbursement, the student's right, or parent's right, to cancel all or a portion of that loan or loan disbursement and have the loan proceeds returned to the holder of that loan. Additionally, the University did not have an effective system of internal control in place to ensure adequate records were maintained to evidence that Direct Loan disbursement notifications were sent to student's or parents.

Questioned Cost:

There are no questioned costs.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Cause and Effect:

In discussing these conditions with University management, they stated that employee turnover and the re-distribution of responsibilities to balance workloads for six months of the fiscal year resulted in noncompliance with the Special Tests and Provisions - Disbursements To or On Behalf of Students compliance requirement.

Repeat Finding:

A similar finding was not reported in prior year.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University strengthen processes and internal controls to ensure the University complies with the Special Tests and Provisions - Disbursements To or On Behalf of Students compliance requirement, including sending the required notification to the student or parent within 30 days after disbursement and maintaining adequate supporting documentation. Additionally, we recommend the University consider whether configuration of additional exception reports would help prevent or detect noncompliance.

View of Responsible Official:

The University concurs with the finding. The University does have a process for notification. The process includes identification of students with loan disbursements, posting a trigger for electronic communication by placing a date and code in the student information system financial aid communication form (RUAMAIL). A process picks up based on date and issues an email to the student using the SLU email address.

In the case of this citing, the task of posting triggers was assigned to a new staff member. Additional checks were in place initially and once it was determined the process occurred routinely without errors; the second check was suspended. The process was to continue on a weekly basis. Report logs from the trigger process are part of the output. The reports indicated the process completed; however, what was later determined is the process ran without any students included. This was noted when staffing changes occurred and the task was backfilled by another person. The majority of this omission occurred within a six month period.

Students did receive the information for loan offers and need to accept or decline, monthly billing statements indicating loan credits, disclosures from loan servicers, and notice surrounding any balance or payment conversations.

The University, although not required sends such notifications for all loan disbursements including Return to Title IV and private loans as an additional student support measure. The University also extends the minimum of 14 days to return or reduce loan funds to 30 days to enhance debt management.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Controls in place include identification of loan disbursements, posting of such to student system with specific code, and then processing email notification. Where the system controls were impacted is the lack of understanding or action to review or match number of students with the code and the number of email extractions.

Contact Name: Cari Wickliffe, Assistant Vice President and Director of Student Financial Services

Contact Telephone Number: 314-977-2353

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-010

Federal Program Title – Student Financial Assistance Cluster – Federal Perkins Loan Program

Assistance Listing No. – 84.038

Federal Agency – U.S. Department of Education

Federal Award Number – Not applicable

Grant Award Period – Not applicable

Compliance Requirement – Special Tests and Provisions – Perkins Loan Recordkeeping and Record Retention

Criteria:

According to 34 CFR 674.19(e), institutions must retain original or true and exact copies of promissory and master promissory notes (MPN), repayment records, and cancellation and deferment requests for each Perkins loan made. Disbursement records, electronic authentication and signature records for loans made with an MPN, must also be retained by the institution.

When an institution uses a third-party servicer for its Perkins Loan program, the institution must perform due diligence to ensure that the third-party servicer is in compliance with the requirements for the functions the third-party servicer is performing for the institution. Such due diligence could include obtaining and reviewing the third-party servicers most recent Title IV compliance audit.

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University did not have an effective system of internal control in place to ensure appropriate due diligence was documented regarding the third-party servicers most recent Title IV compliance.

Questioned Cost:

There are no questioned costs.

Cause and Effect:

In discussing these conditions with University management, they stated that a lack of policies that require documentation of the review of the third-party servicer compliance report was the cause. The lack of appropriate due diligence could result in recordkeeping and record retention issues at the third-party being undetected by the University.

Repeat Finding:

A similar finding was not reported in prior year.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University take a fresh look at its current processes and its internal controls to ensure appropriate due diligence is being performed and documented by a control operator that is knowledgeable of the Title IV requirements and the functions being performed by the third-party servicer on behalf of the University.

View of Responsible Official:

The University concurs with the finding. We will update our processes and internal controls to require documentation of our performance of due diligence performed on the third-party servicer. We will document the review procedures performed on the third-party servicer.

Contact Name: Tara Thomason, Controller and Assistant Vice President

Contact Telephone Number: 314-977-2401

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Finding 2022-011

Federal Program Title – COVID-19 - National Organizations of State and Local Officials

Assistance Listing No. – 93.011

Federal Agency – U.S. Department of Health and Human Services

Federal Award Numbers – 1 U3SHS42192-01-00 and 1 G32HS42670-01-00

Grant Award Periods – June 1, 2021 to August 31, 2022 and July 31, 2021 to October 31, 2022, respectively

Compliance Requirement – Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Criteria:

2 CFR 200.430 includes the standards for documentation of personnel expenses. According to 2 CFR 200.430(i)(1), charges to federal awards for salary and wages must be based on records that accurately reflect the work performed. Among other requirements within 2 CFR 200.430(i)(1), section (i) states records must be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated and section (v) states that the records must comply with established accounting policies and practices.

Additionally, the HHS Grants Policy for educational institutions requires a plan confirmation system (system) for professorial and other professional staff members that is based on budgeted, planned, or assigned work activity and that is updated to reflect any significant changes in work distribution. The system must be incorporated into the organization's official records and must identify activity applicable to each sponsored agreement and to each category needed to identify indirect costs and the functions to which they are allocable. At least annually, the employee, principal investigator, or responsible official will verify, by suitable means, that the work was performed and that the salaries and wages charged to sponsored agreements, whether as direct charges or in other categories of cost, are reasonable in relation to the work performed. A system, supported by after-the-fact activity reports, that reflects the distribution of covered employees' activity allocable to each grant and includes identification and recording of significant changes in work activity when initial charges were based on estimates. For professorial and other professional staff members, the activity reports will be prepared each academic term, but at least every 6 months.

The University did not follow their 'Effort Reporting Policy' which states "Subjects must return the certified effort verification report no later than 30 calendar days after they have been distributed."

Lastly, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Conditions Found:

The University did not adhere to the HHS Grants Policy which requires after-the-fact activity reports. Additionally, the University did not adhere to their 'Effort Reporting Policy' which states "Subjects must return the certified effort verification report no later than 30 calendar days after they have been distributed." We noted two of our fourteen sampled effort verification reports that were noncompliant. One effort verification report was not certified as the employee resigned and an effort verification report was not initiated as part of their exit procedures. Additionally, the employee's supervisor also resigned. Lastly, one effort verification report was not certified within the 30-calendar day policy. Total payroll and fringe totaled approximately \$320,000 during fiscal year 2022.

The University did not have an effective system of internal control in place to ensure compliance with activities allowed/unallowed and allowable costs/cost principles specific to effort reporting.

Questioned Cost:

Questioned costs are not determinable.

Cause and Effect:

In discussing these conditions with University management, they stated that there was a missing management review control to prevent noncompliance specific to the timeliness of the certifications of effort reports contributed to the noncompliance with the activities allowed/unallowed and allowable costs/cost principles specific to effort reporting.

Repeat Finding:

A similar finding was not reported in prior year.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University enhance its internal control process to ensure the University has effective internal controls in place to ensure that certification of effort reports complies with both federal requirements and University policy. Additionally, we recommend the University take a fresh look at policies and procedures in place when an employee resigns to consider whether exit procedures should include the initiation and certification of an effort verification report prior to departure.

View of Responsible Official:

The University concurs with the finding. The University will review its policies and internal controls and enhance management review to ensure that there are effective procedures in place to obtain certifications from departed employees. SLU will also revise its policies and procedures to address non-compliance.

SAINT LOUIS UNIVERSITY
 Schedule of Findings and Questioned Costs
 Year ended June 30, 2022

Finding 2022-012

Federal Program Title – COVID-19 - National Organizations of State and Local Officials

Assistance Listing No. – 93.011

Federal Agency – U.S. Department of Health and Human Services

Federal Award Number – 1 U3SHS42192-01-00

Grant Award Period – June 1, 2021 to August 31, 2022

Compliance Requirement – Reporting

Criteria:

Under the requirements of the Federal Funding Accountability and Transparency Act (FFATA) (Pub. L. No. 109-282), as amended by Section 6202 of Public Law 110-252, referred as the “Transparency Act” that are codified in 2 CFR Part 170, direct recipients of grants or cooperative agreements are required to report first-tier subawards of \$30,000 or more to the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS).

Additionally, 2 CFR 200.303 requires nonfederal entities to, among other things, establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Conditions Found:

The University did not have an effective system of internal control in place to ensure that all required reports were submitted.

While performing testwork over FFATA reporting for four of seven subrecipients, it was identified that FFATA reporting was not completed during fiscal year 2022 for two of the eight first-tier subawards of \$30,000 or more.

<u>Transactions tested</u>	<u>Subaward not reported</u>	<u>Report not timely</u>	<u>Subaward amount incorrect</u>	<u>Subaward missing key elements</u>

SAINT LOUIS UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2022

Questioned Costs:

There are no questioned costs.

Cause and Effect:

In discussing these conditions with University management, they stated that a lack of a management review control that operated effectively over FFATA reporting for subawards greater than \$30,000 contributed to the noncompliance with the Reporting compliance requirement.

Repeat Finding:

A similar finding was not reported in prior year.

Statistical Sampling:

The sample was not intended to be, and was not, a statistically valid sample.

Recommendations:

We recommend the University submit the 2 additional required FFATA reports. Additionally, we recommend the University strengthen its processes and internal controls to ensure the University has both preventive and detective internal controls in place to ensure that reports for first-tier subawards of \$30,000 or more are reported to the FSRS as required.

View of Responsible Official:

The University concurs with the finding. During fiscal year 2022, the University recognized that its FFATA process did not have adequate internal controls in place and reorganized its operations to provide strong controls and management review. As of July 1, 2022 FFATA reporting was moved into the team responsible for issuing subawards and new processes were implemented to ensure that FFATA reports processed with the outbound subawards. Management will further review this process alongside the finding and ensure that current policies and procedures reflect best practices. With the review of policies, management anticipates full remediation before June 30, 2023.
