Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

To the Board of Trustees Western Michigan University

We have audited the financial statements of the business-type activities, the fiduciary activities, and the aggregate discretely presented component units of Western Michigan University (the "University"), a component unit of the State of Michigan, as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the University's basic financial statements. We issued our report thereon dated September 26, 2022, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to September 26, 2022.

The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis, as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Board of Trustees Western Michigan University

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the business-type activities, the fiduciary activities, and the aggregate discretely presented component units of Western Michigan University (the "University"), a component unit of the State of Michigan, as of and for the year ended June 30, 2022 and the related notes to the basic financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated September 26, 2022. The financial statements of the discretely presented component units were not audited in accordance with *Government Auditing Standards*.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the University's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Board of Trustees Western Michigan University

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Independent Auditor's Report

To the Board of Trustees Western Michigan University

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Western Michigan University's (the "University") compliance with the types of compliance requirements identified as subject to audit in the Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2022. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the University's federal programs.

To the Board of Trustees Western Michigan University

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform
 audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence
 regarding the University's compliance with the compliance requirements referred to above and performing such
 other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to
 design audit procedures that are appropriate in the circumstances and to test and report on internal control
 over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on
 the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is
 expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance, and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as Findings 2022-002, 2022-003, and 2022-004 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as Findings 2022-001 and 2022-005 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Board of Trustees Western Michigan University

Government Auditing Standards require the auditor to perform limited procedures on the University's responses to the noncompliance findings identified in our audit, which are described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the other auditing procedures applied in the audit of compliance, and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2022

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Western Michigan University (the "University") under programs of the federal government for the year ended June 30, 2022. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position, or cash flows of the University.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement and frequently asked questions, as outlined in the 2022 Compliance Supplement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The pass-through entity identifying numbers are presented where available.

The University has elected not to use the 10 percent *de minimis* indirect cost rate to recover indirect costs, as allowed under the Uniform Guidance.

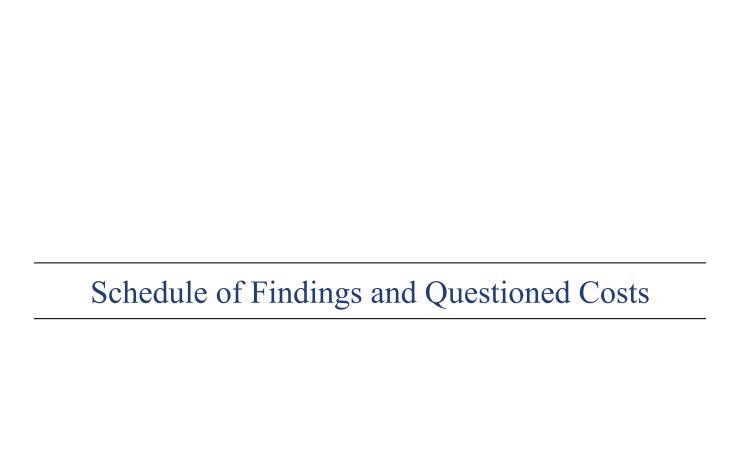

Note 3 - Adjustments and Transfers

During the year ended June 30, 2022, there were the following transfers of grant overpayments.

As allowable and in accordance with federal regulations issued by the Department of Education, the University carried forward and expended \$15,230 of Federal Work-Study (84.033) from the year ended June 30, 2021 to the year ended June 30, 2022. The University transferred \$355,255 of Federal Work-Study funds to Supplemental Education Opportunity Grant (84.007) for the year ended June 30, 2022. The University carried forward \$688 of Federal Work-Study from the year ended June 30, 2022 to the year ending June 30, 2023.

Note 4 - Loans Balances

Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the schedule of expenditures of federal awards. These expenditures were paid from funds available from the repayment of prior loans. There were no federal Perkins loans advanced to students during the current year, and the balance outstanding at June 30, 2022 was \$2,733,957.

Schedule of Findings and Questioned Costs

Current Year None			

Year Ended June 30, 2022

Section III - Federal Program Audit Findings

Reference Number	Finding
2022-001	Assistance Listing Number, Federal Agency, and Program Name - Student Financial Assistance Cluster - Federal Direct Student Loan Program ALN 84.268 and Federal Pell Grants ALN 84.063
	Federal Award Identification Number and Year - Various
	Pass-through Entity - None
	Finding Type - Significant deficiency and material noncompliance with laws and regulations
	Repeat Finding - No
	Criteria - Changes in a student's status are required to be reported to the National Student Loan Data System (NSLDS) within 30 days of the change or included in a student status confirmation report sent to NSLDS within 60 days of a status change (Pell, 34 CFR Section 690.83(b); Direct Loan, 34 CFR Section 685.309(b)).
	Condition - The University did not report certain students' status to the NSLDS in an accurate and timely manner during the fiscal year.

Questioned Costs - None

Identification of How Questioned Costs Were Computed - N/A

Context - Of the 25 students tested, there were 8 students who graduated or withdrew whose status changes were not reported to NSLDS within 60 days.

Cause and Effect - The University did not have a control in place to ensure all enrollment changes are reported timely to NSLDS. As a result, certain student status changes were not reported to NSLDS in a timely manner.

Recommendation - The University should implement controls to ensure all student status changes are reported timely to NSLDS.

Views of Responsible Officials and Corrective Action Plan - While the information was reported on time to the National Student Clearinghouse, there were unresolved error reports that prevented three of these students from being reported to NSLDS within the 60 days. For the other five students, there was a delay within the clearinghouse, which was an isolated incident. We will continue to follow up with the clearinghouse and NSLDS for students that are not updated, and staff responsible for reconciling error reports will notify a supervisor if they are unable to complete the task within two weeks so additional assistance can be provided.

Year Ended June 30, 2022

Section III - Federal Program Audit Findings (Continued)

Reference	
Number	Finding
2022-002	Assistance Listing Number, Federal Agency, and Program Name - Student Financial Assistance Cluster - Federal Direct Student Loan Program ALN 84.268, Federal Pell Grants ALN 84.063, and Federal Supplemental Opportunity Grant ALN 84.007
	Federal Award Identification Number and Year - Various
	Pass-through Entity - None
	Finding Type - Material weakness and material noncompliance with laws and regulations
	Repeat Finding - Yes; 2021-001
	Criteria - Returns of Title IV funds are required to be deposited or transferred into the student financial aid account or electronic fund transfers initiated to U.S. Department of

Criteria - Returns of Title IV funds are required to be deposited or transferred into the student financial aid account or electronic fund transfers initiated to U.S. Department of Education (ED) as soon as possible but no later than 45 days after the date the institution determines that the student withdrew (34 CFR 668.173(b)). However, the institution must return those funds for which it is responsible as soon as possible but no later than 30 days after the date that the institution becomes aware that the student will not or has not begun attendance (34 CFR 668.21(b)).

Condition - The University initiated certain returns of Title IV funds after the required timing.

Questioned Costs - None

Identification of How Questioned Costs Were Computed - N/A

Context - Of the 40 students tested, there were 30 students with returns initiated after the required timing, ranging from 48 to 490 days after the withdrawal date.

Cause and Effect - The University did not have a control in place to ensure all returns of Title IV refunds are initiated timely, and, as a result, certain returns were after the required time period.

Recommendation - The University should implement controls to ensure return of Title IV refunds are initiated timely.

Views of Responsible Officials and Planned Corrective Actions - The student financial aid (SFA) office agrees with the finding that certain return of Title IV funds (R2T4) were initiated after the required time. SFA evaluated its R2T4 procedures in May 2022 and strengthened its internal controls by implementing more frequent reviews of withdrawal reports and holding weekly meetings and performing self-assessments to verify completion and accuracy of R2T4 calculations.

Year Ended June 30, 2022

Section III - Federal Program Audit Findings (Continued)

Reference Number	Finding
2022-003	Assistance Listing Number, Federal Agency, and Program Name - Student Financial Assistance Cluster - Federal Direct Student Loan Program ALN 84.268, Federal Pell Grants ALN 84.063, and Federal Supplemental Opportunity Grant ALN 84.007
	Federal Award Identification Number and Year - Various
	Pass-through Entity - None
	Finding Type - Material weakness and material noncompliance with laws and regulations
	Repeat Finding - Yes; 2021-002

Criteria - When a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of Title IV aid earned by the student as of the student's withdrawal date. If the total amount of Title IV assistance earned by the student is less than the amount that was disbursed to the student or on his or her behalf as of the date of the institution's determination that the student withdrew, the difference must be returned to the Title IV programs (34 CFR 668.22).

Condition - The University did not return funds in accordance with the above criteria.

Questioned Costs - \$36,158

Identification of How Questioned Costs Were Computed - The amount of aid that was not returned

Context - Of the 40 students tested, there was 1 student who had a calculation performed, but the aid was not returned, resulting in questioned costs of \$3,558.

In addition, of the 40 students tested, there were 4 students who did not have a calculation performed, and, therefore, no aid was returned. As a result of additional testing, a total of 17 students (including the 4 from the original sample) who withdrew between October 27, 2021 and November 6, 2021 did not have a return of Title IV (R2T4) calculation performed. The University performed calculations for these 17 students, resulting in the additional questioned costs of \$32,600.

Cause and Effect - The University did not have proper controls in place to ensure funds were calculated and returned. For the first student, the University calculated the proper amount of aid to be returned, but, due to human error, the amount was not returned nor identified during review. Secondly, the University improperly determined the 60 percent withdrawal date as October 27, 2021 rather than the correct date of November 6, 2021 and did not identify any withdrawn students that period that required a R2T4 calculation and, therefore, did not return the appropriate aid.

Recommendation - The University should implement controls to ensure Title IV refunds are calculated and returned appropriately.

Western Michigan University

Schedule of Findings and Questioned Costs (Continued)

Year Ended June 30, 2022

Section III - Federal Program Audit Findings (Continued)

Reference Number	Finding
2022-003 (Cont.)	Views of Responsible Officials and Planned Corrective Actions - The student financial aid office agrees with the finding that all the funds calculated to be returned for a student were not billed back. Management acknowledges that the deficiency was due to an oversight. The isolated occurrence was corrected on January 13, 2023. The unsubsidized loan amount of \$3,558 was returned, and the change was reflected in COD. SFA awarded the student institutional aid of \$3,558 to compensate for the error. In addition, the 60 percent withdrawal date was corrected, R2T4 calculations were performed, the funds were returned, and SFA awarded the students institutional aid to compensate for the errors. Step-by-step procedures for calculating the R2T4 60 percent withdrawal date were created, and before the beginning of each aid year, client services and the associate director of compliance will determine the 60 percent withdrawal dates for each term.

Year Ended June 30, 2022

Section III - Federal Program Audit Findings (Continued)

Reference Number	Finding
2022-004	Assistance Listing Number, Federal Agency, and Program Name - U.S. Department of Education, COVID-19 Education Stabilization Fund Higher Education Emergency Relief
	Fund ALN 84.425E, 84.425F Federal Award Identification Number and Year - Various
	Pass-through Entity - None
	Finding Type - Material weakness and material noncompliance with laws and regulations
	Repeat Finding - No
	Criteria - The Coronavirus Aid, Relief, and Economic Securities (CARES) Act Section 18004(e) and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 Section 314(e) require an institution receiving funds under HEERF I and HEERF II to submit a report to the secretary at such time and in such a manner as the secretary may

require. For ARP, the U.S. Department of Education exercises reporting authority under 2 CFR Section 200.328 and 2 CFR Section 200.329.

Condition - The University did not file accurate and timely reports throughout the fiscal year.

Questioned Costs - None

Identification of How Questioned Costs Were Computed - N/A

Context - There were five errors identified that contributed to this finding.

- 1. The September 30, 2021 quarterly institutional report was not filed timely.
- 2. The expenses reported on the September 30, 2021 quarterly institutional report were previously reported on the June 30, 2021 quarterly institutional report.
- 3. The March 31, 2022 student website report did not include specific language regarding eligible students, and the reported student count was incorrect.
- The 2021 annual report included the incorrect number of part-time graduate students who received an award, which also impacted the total number of students reported.
- 5. The earmarking requirements were met; however, there were no expenses allocated to these categories on the annual report.

Cause and Effect - The University did not have a control in place to ensure reports were accurate and completed timely, which resulted in various errors and reports not being filed timely.

Recommendation - The University should implement controls to ensure reports are accurate and completed timely.

Year Ended June 30, 2022

Section III - Federal Program Audit Findings (Continued)

additional actions are required.

Reference Number	Finding
2022-004 (Cont.)	Views of Responsible Officials and Planned Corrective Actions -
	1. The September 30, 2021 HEERF institutional report was posted on the University's website 10 days late. This was due to the staff member responsible going out on medical leave and miscommunication within the area on required filings. There were no additional quarterly reports to be filed, so no further controls were put in place for this reporting. The annual report was filed timely.
	2. The September 30, 2021 institutional report has been removed from the University's website, as it indicated a duplicate expense that was reported on the June 30, 2021 quarterly report. The June 30, 2021 report has been marked as the final institutional report.
	3. The student financial aid office agrees that the March 31, 2022 student website report did not include language regarding eligible students, and the reported student count was incorrect. SFA will amend the March 31, 2022 quarterly student report to reflect the correct number, add language regarding eligible students, and send the correction to the appointed HEERF email address by June 1, 2023. The associate director of compliance and training will perform a secondary review of any future reports to ensure the completeness and accuracy of the information.
	4. The student financial aid office agrees that the 2021 annual report included the incorrect number of part-time graduate students who received an award, impacting the total number of students reported. The error was due to incorrectly inputting the information from the supporting data onto the annual report. SFA will amend the 2021 annual report by correcting the number of part-time graduate students by March 24, 2023. The associate director of compliance and training will perform a secondary review of the data on the annual report and compare it with the supporting documentation.
	5. As indicated in the report, the University did comply with earmarking requirements. However, the categories used to report the expenditures on the December 31, 2021 annual report were not the specific earmarked categories. The December 31, 2021 annual report filed through the Department of Education website has just recently been made active again, and the University will make necessary category reporting corrections. As the

December 31, 2021 annual report was the final report for institutional expenses, no

Section III - Federal Program Audit Findings (Continued)

Reference Number	Finding
2022-005	Assistance Listing Number, Federal Agency, and Program Name - Student Financial Assistance Cluster - Federal Direct Student Loan Program ALN 84.268, Federal Pell Grants ALN 84.063, and Federal Supplemental Opportunity Grant ALN 84.007
	Federal Award Identification Number and Year - Various
	Pass-through Entity - None
	Finding Type - Significant deficiency and material noncompliance with laws and regulations

Repeat Finding - No

Criteria - Section 3508 of the CARES Act waives Return of Title IV Funds (R2T4) requirements for students whose withdrawals were related to the novel coronavirus disease (COVID-19). The CARES Act requires institutions to report to the U.S. Department of Education information specific to each student for whom it was not required to return Title IV funds under the waiver exception (and for each student for which Title IV funds were previously returned and are now being redrawn). The law also requires institutions to report to ED the total amount of Title IV grant or loan assistance that was not returned as a result of the CARES Act provisions. To implement this CARES Act relief for each student who withdraws as a result of the COVID-19 national emergency, ED requires the institution to use the Coronavirus Indicator checkbox in the COD System to indicate that an aid recipient's actual disbursement(s) qualifies for direct loan cancellation (and the exclusion from the direct loan annual limits and subsidized loan usage calculations) or the exclusion from Pell Grant lifetime eligibility used calculations and TEACH Grant award limits.

Condition - The University improperly reported the students that withdrew within the COD System as a result of the COVID-19 national emergency.

Questioned Costs - None

Identification of How Questioned Costs Were Computed - N/A

Context - Of the 40 students tested, there were 3 students who completed more than 60 percent of the Spring 2022 semester and were incorrectly reported as withdrawing due to the COVID-19 national emergency within the COD System. In addition, there was 1 student who did withdraw due to the COVID-19 national emergency but was not properly reported as such in the COD System.

Cause and Effect - The University had established a policy to record all students withdrawing past the 60 percent completion date from the Spring 2022 semester as a COVID-19 withdrawal; however, certain students withdrawing beyond this date did not have proper documentation to support a COVID-19 withdrawal. The University did not have controls in place to ensure proper reporting in accordance with the compliance requirement.

Recommendation - The University should implement controls to ensure proper reporting of withdraws due to the COVID-19 national emergency within the COD System.

Section III - Federal Program Audit Findings (Continued)

Reference Number	Finding
2022-005 (Cont.)	Views of Responsible Officials and Planned Corrective Actions - The student financial aid office agrees with the finding that certain withdrawn students were improperly reported in COD because of the COVID-19 national emergency. SFA evaluated its R2T4 procedures and strengthened its internal controls by discontinuing the practice of automatically adding the COVID-19 indicator to students who withdrew.
