Independent Auditors' Report

The Board of Trustees
Wesleyan University:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Wesleyan University (the University), which comprise the statement of financial position as of June 30, 2023, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the University as of June 30, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for one year after the date the financial statements are issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the University's 2022 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 28, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2023 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

WESLEYAN UNIVERSITY

Notes to Financial Statements

June 30, 2023

(with summarized comparative information for June 30, 2022)

(Dollars in thousands)

(1) Organization

Wesleyan University (the University), founded in 1831, is a private residential not-for-profit institution of higher learning. The University is co-educational and has approximately 3,000 undergraduate and 200 graduate students situated on a 316-acre campus in Middletown, Connecticut. The University offers Bachelor of Arts in 45 fields, plus Bachelor of Liberal Studies, Master's degrees and PhDs in selected disciplines. The University is accredited by the New England Commission of Higher Education.

(2) Summary of Significant Accounting Policies

The significant accounting policies followed by the University are described below:

(a) Basis of Reporting

The financial statements of the University have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles (GAAP). The University applies the Financial Accounting Standards Board's (FASB's) Accounting Standards Codification (ASC), which is the single source of authoritative GAAP.

The financial statements include prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the University's financial statements for the year ended June 30, 2022, from which the summarized information was derived.

(b) Net Asset Classes

The accompanying financial statements present information regarding the University's financial position and activities based upon the existence or absence of donor-imposed restrictions in the following net asset categories:

With donor restrictions: net assets subject to donor restrictions that expire with the passage of time, can be fulfilled by actions pursuant to the restrictions, or which may be perpetual.

Without donor restrictions: net assets not subject to donor restrictions on their use.

(c) Statement of Activities

The statement of activities reports changes in net assets from operating and nonoperating activities. Operating revenues consist of those items attributable to the University's undergraduate and graduate education programs and research conducted by the academic departments, as well as all contributions other than those restricted for long-term investment or not available for current operations.

Nonoperating activities include investment return on long-term investments, postretirement benefit obligation adjustments other than service cost, changes in value of split-interest agreements, as well as certain items not related to the University's ongoing academic or research activities. To the extent nonoperating contributions, investment income and returns are used for operations, they are reclassified as nonoperating assets used in operations.

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(d) Revenue Recognition

(i) Net Student Charges

Net student charges consist of tuition and fees and room and board charges, which are recorded as revenue in the year in which the related services are rendered. Revenue from student charges is determined based on published rates and billed and reflected net of reductions from institutional financial aid, which may be funded by endowment funds or other institutional resources. Disbursements made directly to students for living costs or other purposes are reported as an expense. Student charges received in advance of services rendered are categorized as deferred revenues and other liabilities in the statement of financial position.

Student charges were as follows for the years ended June 30, 2023 and 2022:

	2023	2022
Tuition and fees	\$ 208,860	205,987
Room and board	55,622	56,945
Gross student charges	264,482	262,932
Less scholarships	(78,659)	(79,522)
Net student charges	\$ 185,823	183,410

(ii) COVID-19

Federal stimulus packages created by the Coronavirus Aid, Relief, and Economic Security Act (CARES), Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and the American Rescue Plan (ARP) provided funding to support higher education institutions and the students they serve through the Higher Education Emergency Relief Fund (HEERF). In addition, the Federal Emergency Management Agency (FEMA) has reimbursed the University for costs incurred to mitigate the spread of COVID-19 on campus.

For the years ended June 30, 2023 and 2022, Wesleyan recognized \$2,015 and \$11,361 in support from these agencies which is recorded in government and foundation grants on the statement of activities.

(iii) Contributions

Contributions, including unconditional promises to give, are recognized in the period received. Contributions of assets other than cash are reported at their estimated fair value. Contributions to be received after one year are discounted at the appropriate rate commensurate with the risks involved. Amortization of the discount is recorded as additional contribution revenue. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as increases in net assets with donor restrictions until the assets are acquired and placed in service.

WESLEYAN UNIVERSITY

Notes to Financial Statements

June 30, 2023

(with summarized comparative information for June 30, 2022)

(Dollars in thousands)

The University accounts for nonexchange transfers of assets from government agencies and foundations as contributions. Contributions containing both a barrier and a right of return are accounted for as conditional contributions, and revenue is recognized when conditions are met. However, the University has elected the simultaneous release option for conditional contributions that are also subject to purpose restrictions. Under this option, net assets without donor restrictions include donor restricted- contributions for which purpose restrictions and conditions are met in the same reporting period.

(e) Cash Equivalents and Short-Term Investments

Cash equivalents include only short-term-, highly liquid working capital investments (those with original maturities three months or less), exclusive of those recorded as long-term or short-term investments. Short-term- investments include amounts invested in short-term, liquid assets selected to provide optimum return for the University's ongoing operations.

(f) Deposits With Trustees

The University maintains unspent proceeds from the issuance of CHEFA Series I as required by the associated bond agreements. The deposits with trustees of debt obligations are reported in deposits with trustees on the balance sheet.

(g) Receivables

The University extends credit to students in the form of accounts receivable and loans for educational purposes. At June 30, 2023 and 2022, student accounts receivable were \$448 and \$672, net of an allowance for doubtful accounts of \$240 and \$301, respectively. Student loans receivable at June 30, 2023 and 2022 were \$1,905 and \$2,208, respectively, net of an allowance for doubtful accounts of \$2,026.

(h) Fair Value Measurements

Investments are reported at fair value. Fair value generally represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. GAAP establishes a fair value hierarchy that prioritizes inputs used to measure fair value into three levels:

- Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities;
- Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and
- Level 3 – unobservable inputs are used when little or no market data is available.

The University utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The University classifies its assets and liabilities in the hierarchy based on these inputs.

WESLEYAN UNIVERSITY

Notes to Financial Statements

June 30, 2023

(with summarized comparative information for June 30, 2022)

(Dollars in thousands)

Most of the University's investments are held through limited partnerships and commingled funds for which fair value is estimated using net asset values (NAVs) reported by the fund managers as a practical expedient. These NAV-measured investments are not categorized within the fair value hierarchy.

These investments are generally redeemable or may be liquidated at NAV under the original terms of the subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. The nature of certain investments held by these funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the University's interests in the funds. Furthermore, changes to the liquidity provisions of the funds may significantly impact the fair value of the University's interest in the funds. Although certain investments may be sold in secondary market transactions, subject to meeting certain requirements of the governing documents of the funds, the secondary market is not active and individual transactions are not necessarily observable. It is therefore reasonably possible that if the University were to sell its interest in a fund in the secondary market, the sale could occur at an amount materially different than the reported value.

As of June 30, 2023 and 2022, the University had no specific plans or intentions to sell investments at amounts different than NAV.

(i) Investment in Plant

Investment in plant is stated at cost at the date of acquisition or estimated fair value at the date of donation in the case of gifts. Depreciation is calculated on a straight-line basis using useful lives of 50 years for buildings, 25 years for building improvements, 10 years for equipment and 7 years for computer hardware and software.

The University recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which the obligation is incurred, in accordance with ASC 410, *Asset Retirement and Environmental Obligations*, if a reasonable estimate of the fair value of the obligation can be made. When the liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long-lived- asset. The liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligation is depreciated over the useful life of the related asset. Any difference between the cost to actually settle the asset retirement obligation and the liability recorded is recognized as an operating gain or loss in the statement of activities.

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(j) Liabilities Associated with Investments

The University may, from time to time, incur liabilities associated with its investment portfolio as a result of securities sold short or other transactions. In order to terminate a short position, the University must acquire and deliver to the lender a security identical to the one it borrowed and sold short, and a gain or loss is recognized for the difference between the short sale proceeds and the cost of the identical security acquired. Liabilities reported on the statement of financial position represent the fair value of the identical securities that must be acquired to settle the obligation to the lender. The liabilities would be classified as Level 1 in the fair value hierarchy given that they are measured based on marketable securities.

(k) Split Interest Obligations

The University has a charitable gift annuity plan whereby donors may contribute assets in exchange for the right to receive a fixed-dollar periodic payment of the gift assets during their lifetimes. Payments begin in accordance with the timing stipulated in the gift annuity contracts. The difference between the original annuity amount invested and the discounted liability for future payments, determined on an actuarial basis, is recognized as contribution revenue at the date of the gift. The actuarial liability is revalued annually and any surplus or deficiency is recognized as a change in value in the statements of activities.

Assets under Wesleyan's gift annuity program, recorded in long-term investments on the statement of financial position, were \$11,955 and \$11,953, and liabilities to donors, recorded in split interest obligations on the statement of financial position, were of \$7,857 and \$8,161, as of June 30, 2023 and 2022, respectively.

(l) Income Taxes

The University is generally exempt from income taxes under Internal Revenue Code, Section 501(a), as an organization described in Section 501(c)(3). The University assesses uncertain tax positions and determined that there were no such positions that have a material effect on the financial statements.

The University is subject to a federal excise tax of 1.4% on net investment income under the Tax Cuts and Jobs Act signed into law on December 22, 2017. Net investment income includes interest, dividends and net realized gains on the sale of investments. Estimated excise tax expense of \$310 is reported in accounts payable and accrued expenses on the statement of financial position and in other changes on the statement of activities.

The University has also made provisions for deferred taxes in the amount of \$10,900. The deferred tax liability represents future excise tax payable on unrealized gains in excess of the tax basis of the investments. The liability is reported in deferred revenues and other liabilities on the statement of financial position and changes in the liability are reported in other changes on the statement of activities.

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(m) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(n) Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in their value, it is reasonably possible that changes in these risks in the near term could materially affect amounts reported in the financial statements.

(o) Reclassifications

Certain 2022 balances have been reclassified to conform to the 2023 presentation.

(3) Financial Assets and Liquidity Resources

The University's cash flows have seasonal variations during the year attributable to billings for student charges and there is a concentration of contributions received at calendar and fiscal year ends. To manage liquidity, the University maintains a working capital portfolio conservatively invested in cash and short-term investments with daily liquidity. As further described in note 11, the University maintains two lines of credit with JPMorgan Chase that provide up to \$80,000, which can be drawn on to manage cash flows.

As of June 30, 2023, financial assets and liquidity resources available within one year for general expenditures, such as operating expenses, scheduled debt service, and capital construction costs not financed with debt, were as follows:

Financial assets:

Cash and cash equivalents	\$	14,259
Short-term investments		249,678
Accounts and student loans receivable, net due within one year		4,025
Pledges receivable, net available for operations due within one year		1,521
Fiscal 2024 Board-approved endowment appropriation		62,169
Total financial assets available within one year		331,652

Liquidity resources:

Line of credit, undrawn		80,000
Total financial assets and liquidity resources	\$	411,652

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

In addition, as of June 30, 2023, subject to liquidity provisions, the University had an additional \$72,415 in working capital investments and \$363,796 in board-designated endowment, which is available for general expenditure with Board approval.

(4) Contributions Receivable

The following is a summary of unconditional promises to give at June 30 is as follows:

	<u>2023</u>	<u>2022</u>
Contributions expected to be collected within:		
Less than one year	\$ 11,660	16,605
One to five years	11,743	15,230
More than five years	<u>1,916</u>	<u>1,495</u>
	25,319	33,330
Less allowance for uncollectible pledges	(521)	(613)
Less discount for present value	<u>(1,047)</u>	<u>(772)</u>
Net unconditional promises to give	<u>\$ 23,751</u>	<u>31,945</u>

The University applies an allowance for uncollectible pledges based on factors such as prior collection history, type of contribution, nature of the fundraising activity, and future collection expectations. Discount rates used range from 0.22% to 4.27%.

As of June 30, 2023, approximately 45% of the pledge receivable balance was due from three donors.

Office of Advancement expenditures, which are primarily for fundraising purposes and alumni activity, totaled \$10,074 and \$9,133 in fiscal years 2023 and 2022, respectively.

Conditional contributions receivable as of June 30, 2023 and 2022 are \$12,522 and \$13,051, respectively.

The University has committed to invest in various limited partnerships. Under the terms of the partnership agreements, the University is obligated to remit additional funding periodically as managers exercise capital calls. These partnerships have a limited existence, generally 10 years, and such agreements may provide annual extensions for the purpose of disposing portfolio holdings and returning capital to investors. Depending on market conditions, an inability to execute the fund's strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. As a result, the timing and amount of future capital calls expected in any particular future year is uncertain within a range of between 1 and 11 years. The aggregate amount of unfunded commitments associated with investments as of June 30, 2023 was \$358,719.

Certain funds contain lockup provisions. Under such provisions, share classes of the investment are available for redemption at prescribed dates in accordance with the partnership agreement of the fund. In some cases, funds may impose fees in exchange for advanced liquidity opportunities. A portion of the underlying investments within the categories of monthly to quarterly and semi-annual to annual may include private or side-pocket investments from which the University may not have an ability to redeem. Additionally, tranches of certain funds within these categories may restrict redemptions to a portion of the value over a rolling quarterly or annual basis.

(6) Endowment

The University classifies net assets of donor-restricted endowment funds consistent with the requirements of the State of Connecticut's version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA).

WESLEYAN UNIVERSITY

Notes to Financial Statements

June 30, 2023

(with summarized comparative information for June 30, 2022)

(Dollars in thousands)

The University's endowment consists of approximately 1,300 individual funds established for a variety of purposes, including both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

(a) Relevant Law

The University classifies as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Also included in net assets with donor restrictions is accumulated appreciation on donor-restricted endowment funds until those amounts are appropriated for expenditure by the University in a manner consistent with the standard of prudence prescribed by UPMIFA.

UPMIFA provides standards for investing in a prudent manner by establishing a duty to minimize cost; diversify the investments; investigate facts relevant to the investment of the fund; and consider tax consequences of investment decisions and that investment decisions be made in light of the fund's entire portfolio as a part of an investment strategy having risk and return objectives reasonably suited to the fund and to the University. UPMIFA also permits the University to appropriate for expenditure or accumulate so much of an endowment fund as the University determines to be prudent for the uses, benefits, purposes, and duration for which the endowment fund is established, thereby eliminating the restriction that a fund could not be spent below its historical dollar value. The University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the University and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the University
- The investment policies of the University

WESLEYAN UNIVERSITY
Notes to Financial Statements

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

Changes in endowment funds for the years ended June 30, 2023 and 2022 are as follows:

	Without donor restrictions	With donor restrictions	Total
Endowment assets, June 30, 2022	\$ 447,587	1,116,934	1,564,521
Investment return	9,669	22,674	32,343
Contributions	—	20,675	20,675
Working capital changes	(9,380)	—	(9,380)
Other increases, net	2,421	—	2,421
Appropriation of endowment assets for expenditure	<u>(14,086)</u>	<u>(42,106)</u>	<u>(56,192)</u>
Endowment assets, June 30, 2023	<u>\$ 436,211</u>	<u>1,118,177</u>	<u>1,554,388</u>

	Without donor restrictions	With donor restrictions	Total
Endowment assets, June 30, 2021	\$ 493,105	1,176,691	1,669,796
Investment return	(22,061)	(57,891)	(79,952)
Contributions	—	33,307	33,307
Working capital changes	(13,818)	—	(13,818)
Other increases, net	2,368	—	2,368
Appropriation of endowment assets for expenditure	<u>(12,007)</u>	<u>(35,173)</u>	<u>(47,180)</u>
Endowment assets, June 30, 2022	<u>\$ 447,587</u>	<u>1,116,934</u>	<u>1,564,521</u>

Working capital funds are operating reserves invested in the endowment and are not subject to the endowment spending policy.

(b) Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below their original contributed value. These deficiencies result from unfavorable market fluctuations that occur after the investment of new donor-restricted contributions and/or appropriation from such funds. Subsequent market gains will be used to restore this reduction in net assets.

(c) Return Objectives and Risk Parameters

A portion of the endowment assets is included in an investment pool that is accounted for on a unitized market value basis, with each individual fund subscribing to or disposing of units on the basis of the market value per unit of the pool at the end of the calendar month within which the transaction took place. The value of the units is based on a total return investment policy.

WESLEYAN UNIVERSITY

Notes to Financial Statements

June 30, 2023

(with summarized comparative information for June 30, 2022)

(Dollars in thousands)

The University has adopted investment and spending policies for the endowment that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the purchasing power of the endowment assets.

(d) Strategies Employed for Achieving Objectives

To satisfy its long term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets a diversified asset allocation that places emphasis on investments in equities, fixed income, and alternative investments to achieve its long-term return objectives with prudent risk constraints.

(e) Spending Policy and How the Investment Objectives Relate to Spending Policy

The University follows a spending policy known as the Tobin rule, named for James Tobin, recipient of the 1981 Nobel Prize in Economics. This rule sets the annual distribution using a quantitative formula that combines elements of stability and market conditions. The University's endowment spending is 70% based on the prior year's spending plus inflation (measured by the Higher Education Price Index (HEPI) as of June 30 of the past fiscal year) and 30% from 4.5% of the market value of endowment as of June 30 of the previous fiscal year. For fiscal 2023 and 2022, \$56,192 and \$47,180 was appropriated, respectively.

(7) Net Assets

At June 30, 2023 and 2022, net assets without donor restrictions were comprised as follows:

	<u>2023</u>	<u>2022</u>
Undesignated	\$ 82,283	64,861
Net investment in plant	86,503	72,691
Board designated endowment	363,796	368,002
Working capital & reserves	<u>72,415</u>	<u>79,585</u>
Total	<u>\$ 604,997</u>	<u>585,139</u>

WESLEYAN UNIVERSITY
Notes to Financial Statements

(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(10) Debt

At June 30, 2023 and 2022, long-term debt consisted of the following:

	<u>2023</u>	<u>2022</u>
Taxable bonds, Series 2021	\$ 55,520	55,520
Taxable bonds, Series 2020	75,000	75,000
Taxable bonds, Series 2016	250,000	250,000
Revenue bonds payable (CHEFA Series I)	35,390	35,390
Revenue bonds payable (CHEFA Series H)	20,105	20,105
Term loans	<u>12,920</u>	<u>12,920</u>
Total	448,935	448,935
Unamortized costs of issuance	(3,760)	(3,862)
Unamortized premium	<u>8,082</u>	<u>9,046</u>
Long term debt	<u>\$ 453,257</u>	<u>454,119</u>

(a) Taxable Bonds, Series 2021

In July 2021, the University issued \$55,520 of taxable bonds at a fixed rate of 2.872% with all principal due in 2052.

(b) Taxable Bonds, Series 2020

In January 2020, the University issued \$75 million of taxable bonds at a fixed rate of 3.37% with all principal due in 2050. The University is required to make semi-annual payments of interest.

(c) Taxable Bonds, Series 2016

In May 2016, the University issued \$250 million of taxable bonds at a fixed rate of 4.78% with all principal due in 2116. The University is required to make semi-annual payments of interest.

(d) CHEFA Series I

In July 2021, the University issued tax-exempt bonds with \$35,390 in par outstanding with a fixed coupon of 4.0% payable semi-annually. Series I was issued at a premium with an unamortized balance at June 30, 2023 of \$8,082. All principal is due July 1, 2031.

(e) CHEFA Series H

\$20,105 variable rate demand bonds have their interest rates set weekly. The interest rate at June 30, 2023 and 2022 was 3.7% and 0.84% respectively. The University makes monthly payments of interest. The University may make prepayments of principal and is required to pay any remaining principal balance on July 1, 2040. The University maintains sufficient liquidity to purchase the bonds if remarketing is not successful.

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(f) Term Loans

In January 2016, the University entered into a term loan with Farmington Bank in the amount of \$12,920. Farmington Bank was subsequently acquired by People's United Bank in 2020 which was acquired by M&T Bank in 2022. In February 2021, the loan agreement was amended to lower the fixed interest rate from 2.9% to 1.1%. The University makes semi-annual payments of interest and all principal is due in February 2024.

(g) Debt Maturities

Payments for the principal of all long-term debt for each of the next five fiscal years and thereafter are as follows:

Fiscal year	Amount due
2024	\$ 12,920
2025	—
2026	—
2027	—
2028	—
Thereafter	436,015
Total outstanding debt	\$ 448,935

(h) Debt Covenants

The University is subject to certain financial covenants that would be imposed if the University does not maintain its credit rating. The University maintained its credit rating during the years ended June 30, 2023 and 2022, and thus the financial covenants were not applicable.

(11) Lines of Credit

As of June 30, 2023, the University had the following revolving loan agreements with JPMorgan Chase:

Expiration date	Amount
June 28, 2024	\$ 40,000
July 7, 2026	40,000
Total lines of credit	\$ 80,000

The interest rate on both loans is set at 60 basis points above Secured Overnight Financing Rate (SOFR). The University did not utilize these lines in fiscal 2023 or 2022. No amounts were outstanding as of June 30, 2023 and 2022.

(12) Benefit Plans

(a) Defined Contribution Plan

The University has defined contribution retirement plans, with contributions based on a percentage of salary, covering substantially all employees. Total expense was \$10,556 and \$9,747 for fiscal 2023 and 2022, respectively.

(b) Postretirement Benefits

The University provides certain postretirement health care benefits to employees. Employees become eligible to receive medical and life insurance benefits at various age and service requirements based on their group classifications (faculty, non-faculty, or physical plant bargaining unit). The University recognizes the cost of providing such benefits to the employees and dependents, if applicable, in the financial statements during the employees' active working lives. Those who elect early retirement before they are eligible for Medicare can continue in plans for active faculty and staff, which require premium sharing. Upon reaching Medicare eligibility, retirees may elect to participate in the Medicare Part D supplement plan or receive an annual fixed annuity payment.

The status of the University's plan and the amounts recognized in the statements of financial position at June 30, 2023 and 2022 are as follows:

	<u>2023</u>	<u>2022</u>
Change in benefit obligation:		
Benefit obligation as of beginning of year	\$ 17,180	20,402
Service cost	655	706
Interest cost	759	505
Plan participants' contributions	147	145
Plan amendments	—	1,458
Benefits paid	(885)	(575)
Medicare Part D Subsidy	52	48
Actuarial (gain) loss	34	(5,509)
Benefit obligation and funded status as of end of year	<u>\$ 17,942</u>	<u>17,180</u>

WESLEYAN UNIVERSITY
Notes to Financial Statements
June 30, 2023
(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

Components of net periodic benefit cost are as follows for the years ended June 30:

	2023	2022
Operating:		
Service cost	\$ 655	706
Total operating, included in salaries and benefits	655	706
Nonoperating:		
Interest on accumulated postretirement benefit obligation	759	505
Prior service cost amortization	130	33
Amortization of actuarial gain	(1,641)	(1,538)
Total nonoperating	(752)	(1,000)
Total net periodic benefit cost	\$ (97)	(294)

For measurement purposes, an annual rate of increase of 7.2% in the per capita cost of covered healthcare and prescription drug benefits was assumed as of June 30, 2023. The rates were assumed to decrease to 4.7% by 2043 and remain at that level thereafter. Assumed healthcare cost trend rates have a significant effect on the amounts reported for the healthcare plans.

The weighted average discount rates used to determine benefit obligations are 4.9% and 4.4% for fiscal 2023 and 2022, respectively.

The weighted average discount rates used to determine net periodic benefit costs were 4.4% and 2.5% for fiscal 2023 and 2022, respectively.

The benefits, as of June 30, 2023, expected to be paid in each of the next five fiscal years and in the aggregate for the five fiscal years thereafter, are as follows:

Fiscal year	Amount
2024	\$ 1,086
2025	1,183
2026	1,128
2027	1,184
2028	1,271
Five fiscal years thereafter	7,520

WESLEYAN UNIVERSITY

(with summarized comparative information for June 30, 2022)
(Dollars in thousands)

(13) Commitments and Contingencies

All funds expended in conjunction with government grants and contracts are subject to audit by governmental agencies. In the opinion of management, any potential liability resulting from these audits will not have a material effect on the University's financial position.

The University is a defendant in various legal actions arising out of the normal course of its operations. Although the final outcome of such actions cannot currently be determined, the University believes that eventual liability not reflected on the statement of financial position, if any, will not have a material effect on the University's financial position.

(14) Related-Party Transactions

Members of the Board of Trustees and senior management may, from time to time, be associated, either directly or indirectly with companies doing business with the University. The University has a written conflict of interest policy that requires annual reporting by each Board member as well as the University senior management. When such relationships exist, measures are taken to mitigate any actual or perceived conflict, including requiring that such transactions be conducted at arms' length, based on terms in the best interest of the University.

(15) Subsequent Events

Management has evaluated events subsequent to June 30, 2023 and through October 27, 2023, the date on which the financial statements were issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. No additional disclosures were deemed to be necessary.

WESLEYAN UNIVERSITY

Notes to Supplementary Schedule of Expenditures of Federal Awards

Year ended June 30, 2023

(1) Basis of Presentation

The accompanying supplementary schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of Wesleyan University (the University) under programs of the federal government for the year ended June 30, 2023. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets or cash flows of the University.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government and all sub-awards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. Amounts disbursed from the University to subrecipient entities are also presented on the Schedule.

(2) Significant Accounting Policies

The accompanying Schedule is presented on the accrual basis of accounting.

(3) Indirect Costs

The University has an approved rate agreement with the Department of Health and Human Services for recovering indirect costs on grants and contracts with the Federal Government. The agreement contains a predetermined facilities and administrative cost rate of 64.3%. The University did not elect to utilize the 10% de minimis indirect cost rate allowed under the Uniform Guidance. The predetermined facilities and administrative rate is effective from July 1, 2017 to June 30, 2023.

(4) Federal Perkins Loan Program

During the year ended June 30, 2023, there were no loans advanced under the Federal Perkins Loan Program. There was no administrative cost allowance claimed for the year ended June 30, 2023. As of June 30, 2023 and 2022, the Perkins loans receivable balances were \$775,352 and \$1,703,874, respectively. The University is continuing to service loans under the Perkins programs; however, no new loans were made subsequent to September 30, 2017.

(5) Federal Direct Loan Program

The amount of loans advanced during the year ended June 30, 2023 to students and parents under the Federal Direct Loan Program (FDL) was \$6,961,676.

With respect to the FDL program, the University is responsible only for the performance of certain administrative duties and, accordingly, these loans are not included in the University's financial statements. It is not practical to determine the balances of loans outstanding to students of the University under this program at June 30, 2023.

**Independent Auditors' Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance With Government Auditing Standards**

The Board of Trustees
Wesleyan University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Wesleyan University (the University), which comprise the University's statement of financial position as of June 30, 2023, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 27, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Supplementary Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees
Wesleyan University:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Wesleyan University's (the University) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2023. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS,

Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Supplementary Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the University as of and for the year ended June 30, 2023, and have issued our report thereon dated October 27, 2023, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
